The In Sync Dog Training Method - Alecia Evans 2013-05

So you are ready to train your dog or cute new puppy. Are you prepared to be a great leader to your dog? Do you know the 6 Secrets that every canine knows that will make you a great leader in their eyes? While you may think puppy or dog training is all about the dog, what if it was really more about what you need to learn then what you are teaching the dog? What if your dog was actually here to train you how to unleash your greatest potential as an Authentic Leader? In her ground breaking book, *The In Sync(tm) Method: 6 Secrets Your Dog Wants To Teach You To Unleash Your Greatest Potential*, Holistic Dog Trainer, Communicator and Animal Healer, Alecia Evans offers a larger perspective on how dogs are actually training their humans to be Authentic Leaders to them and all the beings in their life. This unique "inside out approach" to dog training is a must read for every dog parent. The 6 Secrets are key qualities that every dog leader embodies and all dogs actually understand which is why most dog packs function far more effectively than many human/dog relationships. Dogs and humans speak different languages. And most training approaches are like a one way conversation in which a human is trying to teach a dog English. Your dog however, has his/her own unique language which is foreign to most humans because it is more energetically based then verbally based. So wouldn't it make sense to learn our dog's language of energy- which is very clear, very consistent and honest in order for us to enjoy a two way form of communication and be In Sync™ with one another. In this book you will discover: •How to embody the 6 Secret qualities every dog knows and respects in an Authentic Leader •The primary form of communication of every dog (it's not what you think) •Why silence is the universal language that creates the deepest bond between humans and dogs •The inner alignment that every dog knows that they want to teach humans to build better relationships and a better world •How easy it is to be In Sync™ with your dog •How much more effective you will be in your life by training your dog with the In Sync™ Method Every book owner will receive a 10% discount on the Walk In Sync™ Humane Dog Walking and Training System.

Ten Natural Steps to Training the Family Dog - Matthew P. Duffy 2011-01-21

If you are an average dog owner looking for answers to your dog-training needs, then it's time to take the Ten Natural Steps to Training the Family Dog. Whether you've finally taken the plunge and adopted a puppy or dog, but have no idea how to train it or make it a member of your family, or whether you have a dog that has been unruly for months or years, this is the book for you! Thousands of people just like you have gone to Matthew Duffy, a 30-year veteran dog trainer, for help. And just as they were able to take control of their dog using Matthew's techniques in Ten Natural Steps to Training the Family Dog, you will too! This straightforward book, which is centered around positive reinforcement, teaches you the techniques and step-by-step instruction you need to effectively and quickly train your dog. The training techniques outlined in the book apply equally well to all breed types and ages. In Ten Natural Steps to Training the Family Dog, Matthew teaches you:

- how to transform a rambunctious dog into a composed family member without the use of negative emotion;
- how to develop self-control in your dog without the use of formal commands;
- how to manage your dog's behavior when challenged by distractions;
- how to teach the five basic formal commands, step by step;
- how to better understand the way your dog thinks;
- and •the basic principles of shaping your dogs behavior.

A Message from Matthew "The head of the average family I deal with often falls short on enough time to comfortably manage all the aspects of pack living: too little time for the kids and spouse, even less time for himself or herself, and next to no time for the dog. In our amped-up American lifestyle, we have so much on our daily plate that there is little room left for any additional challenge, like owning a dog. How sad it would be to miss out on such a rewarding and ancient relationship. This has been my job over the past three decades: helping families minimize the challenge of dog ownership so that it fits on their daily plate. Honestly, with a few environmental controls and the right kind of relationship development, anyone can enjoy a canine companion as the first breeders intended: an animal uniquely developed to live among people."
