[Politics: A Very Short Introduction - Kenneth Minogue 2000-02-24](#)

In this provocative but balanced essay, Kenneth Minogue discusses the development of politics from the ancient world to the twentieth century. He prompts us to consider why political systems evolve, how politics offers both power and order in our society, whether democracy is always a good thing, and what future politics may have in the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Campaigning for Hearts and Minds - Ted Brader 2020-07-08

It is common knowledge that televised political ads are meant to appeal to voters' emotions, yet little is known about how or if these tactics actually work. Ted Brader's innovative book is the first scientific study to examine the effects that these emotional appeals in political advertising have on voter decision-making. At the heart of this book are ingenious experiments, conducted by Brader during an election, with truly eye-opening results that upset conventional wisdom. They show, for example, that simply changing the music or imagery of ads while retaining the same text provokes completely different responses. He reveals that politically informed citizens are more easily manipulated by emotional

appeals than less-involved citizens and that positive "enthusiasm ads" are in fact more polarizing than negative "fear ads." Black-and-white video images are ten times more likely to signal an appeal to fear or anger than one of enthusiasm or pride, and the emotional appeal triumphs over the logical appeal in nearly three-quarters of all political ads. Brader backs up these surprising findings with an unprecedented survey of emotional appeals in contemporary political campaigns. Politicians do set out to campaign for the hearts and minds of voters, and, for better or for worse, it is primarily through hearts that minds are won. Campaigning for Hearts and Minds will be indispensable for anyone wishing to understand how American politics is influenced by advertising today.

The Enchantments of Mammon - Eugene McCarragher 2019

Eugene McCarragher challenges the conventional view of capitalism as a force for disenchantment. From Puritan and evangelical valorizations of profit to the heavenly Fordist city, the mystically animated corporation, and the deification of the market, capitalism has hijacked our intrinsic longing for divinity, laying hold to our souls.

A Democratic Theory of Judgment - Linda M. G. Zerilli 2016-12-12

Democracy and the problem of judgment -- Judging at the "end of reasons": rethinking the aesthetic turn -- Historicism, judgment, and the limits of liberalism: the case of Leo Strauss -- Objectivity, judgment, and freedom: rereading Arendt's "Truth and politics"--Value pluralism and the "burdens of judgment": John Rawls's political liberalism -- Relativism and

the new universalism: feminists claim the right to judge -- From willing to judging: Arendt, Habermas, and the question of '68 -- What on earth is a "form of life"? Judging "alien" cultures according to Peter Winch -- The turn to affect and the problem of judgment: making political sense of the nonconceptual -- Conclusion: judging as a democratic world-building practice

Modern Philosophy - Roger Scruton 2012-11-26

Roger Scruton is one of the most widely respected philosophers of our time, whose often provocative views never fail to simulate debate. In *Modern Philosophy* he turns his attention to the whole of the field, from the philosophy of logic to aesthetics, and in so doing provides us with an essential and comprehensive guide to modern thinking.

The Jewish Revolutionary Spirit - E. Michael Jones 2008

Spanning over 2,000 years, this study looks at the complex relationship between Jewish and Catholic thought from a social and historical perspective. Examining different significant moments for both religions throughout the centuries, this book analyzes and explains the conflicts that have arisen between the two religions since their beginnings.

The Slaughter of Cities - E. Michael Jones 2004

In his meticulously documented book, Jones focuses on four cities to prove that urban renewal over the past decades had more to do with ethnicity than it ever had to do with design, hygiene, or urban blight.

Dionysos Rising - E. Michael Jones 1994

The Government of Desire - Miguel de Beistegui 2018-05-04

Liberalism, Miguel de Beistegui argues in *The Government of Desire*, is best described as a technique of government directed towards the self, with desire as its central mechanism. Whether as economic interest, sexual drive, or the basic longing for recognition, desire is accepted as a core component of our modern self-identities, and something we ought to cultivate. But this has not been true in all times and all places. For centuries, as far back as late antiquity and early Christianity, philosophers believed that desire was an impulse that needed to be suppressed in order for the good life, whether personal or collective,

ethical or political, to flourish. Though we now take it for granted, desire as a constitutive dimension of human nature and a positive force required a radical transformation, which coincided with the emergence of liberalism. By critically exploring Foucault's claim that Western civilization is a civilization of desire, de Beistegui crafts a provocative and original genealogy of this shift in thinking. He shows how the relationship between identity, desire, and government has been harnessed and transformed in the modern world, shaping our relations with others and ourselves, and establishing desire as an essential driving force for the constitution of a new and better social order. But is it? *The Government of Desire* argues that this is precisely what a contemporary politics of resistance must seek to overcome. By questioning the supposed universality of a politics based on recognition and the economic satisfaction of desire, de Beistegui raises the crucial question of how we can manage to be less governed today, and explores contemporary forms of counter-conduct. Drawing on a host of thinkers from philosophy, political theory, and psychoanalysis, and concluding with a call for a sovereign and anarchic form of desire, *The Government of Desire* is a groundbreaking account of our freedom and unfreedom, of what makes us both governed and ungovernable.

Adam and Eve After the Pill - Mary Eberstadt 2012-02-02

Secular and religious thinkers agree: the sexual revolution is one of the most important milestones in human history. Perhaps nothing has changed life for so many, so fast, as the severing of sex and procreation. But what has been the result? This ground-breaking book by noted essayist and author Mary Eberstadt contends that sexual freedom has paradoxically produced widespread discontent. Drawing on sociologists Pitirim Sorokin, Carle Zimmerman, and others; philosopher G.E.M. Anscombe and novelist Tom Wolfe; and a host of feminists, food writers, musicians, and other voices from across today's popular culture, Eberstadt makes her contrarian case with an impressive array of evidence. Her chapters range across academic disciplines and include supporting evidence from contemporary literature and music, women's studies, college memoirs, dietary guides, advertisements, television

shows, and films. Adam and Eve after the Pill examines as no book has before the seismic social changes caused by the sexual revolution. In examining human behavior in the post-liberation world, Eberstadt provocatively asks: Is food the new sex? Is pornography the new tobacco? Adam and Eve after the Pill will change the way readers view the paradoxical impact of the sexual revolution on ideas, morals, and humanity itself.

Talking with Female Serial Killers - A chilling study of the most evil women in the world - Christopher Berry-Dee 2018-05-17

Christopher Berry-Dee, criminologist and bestselling author of books about the serial killers Aileen Wuornos and Joanne Dennehy, turns his uncompromising gaze upon women who not only kill, but kill repeatedly. Because female murderers, and especially serial murderers, are so rare compared with their male counterparts, this new study will surprise as well as shock, particularly in the cases of women like Beverley Allitt, who kill children, and Janie Lou Gibbs, who killed her three sons and a grandson, as well as her husband. Here too are women who kill under the influence of their male partners, such as Myra Hindley and Rosemary West, and whose lack of remorse for their actions is nothing short of chilling. But the author also turns his forensic gaze on female killers who were themselves victims, like Aileen Wuornos, whose killing spree, for which she was executed, can be traced directly to her treatment at the hands of men. Christopher Berry-Dee has no equal as the author of hard-hitting studies of the killers who often walk among us undetected for many years, and who in so many cases seem to be acting entirely against their natures.

Sexuality and Socialism - Sherry Wolf 2017-01-15

Sexuality and Socialism is a remarkably accessible analysis of many of the most challenging questions for those concerned with full equality for lesbian, gay, bisexual, and transgender (LGBT) people. Inside are essays on the roots of LGBT oppression, the construction of sexual and gender identities, the history of the gay movement, and how to unite the oppressed and exploited to win sexual liberation for all. Sherry Wolf analyzes different theories about oppression—including those of

Marxism, postmodernism, identity politics, and queer theory—and challenges myths about genes, gender, and sexuality. “Sexuality and Socialism is the most intelligent and enlightened discussion on sexuality to come from the Left in a long time. No other work that comes to my mind explains the history of sexuality and sexual repression in the United States as comprehensively and compellingly.”—Ron Jacobs, Dissident Voice “Sherry Wolf: Lesbian, Activist, Communist & Badass-ist... spoke to a pre-National Equality March rally. She. Blew. It. Up.”—Austin Chronicle “Sherry speaks with such eloquence and plain common sense that I can't help but want to know more about her ideas and convictions.”—Derek Washington, “In the LV” radio host, Director of LGBT Outreach, Clark County Democratic Black Caucus “The icons of the new generation of activists are people like Lady Gaga, Dustin Lance Black, Judy Shephard, Lt. Daniel Choi (ret.) and Sherry Wolf (author of *Sexuality and Socialism*).”—Don Gorton, Join the Impact Board Member “Surprisingly funny, very readable and a fitting tome for a new movement in these troubled times.”—Dave Zirin for Progressive's Best Books of 2009 “‘What humans have constructed they can tear down.’ This is the powerful insight of this rare book that is at once politically important, theoretically and historically sophisticated, and clearly written. *Sexuality and Socialism* is enlivened in its engagement with a number of controversies, including those over the alleged biological determination of homosexuality, the myth of Black homophobia, and the consequences of postmodernist theories for the politics of gay liberation. Above all else, Wolf puts forward a cogent defense of the Marxist tradition—long and wrongly reviled as homophobic in itself—as a way to explain how LGBT oppression arose and what we can do to put it to bed.”—Dana Cloud, University of Texas at Austin Sherry Wolf is the associate editor of the *International Socialist Review*. She was on the executive committee of the National Equality March Oct. 11, 2009 and has written for publications including the *Nation*, *MRZine*, *Counterpunch*, *Dissident Voice*, and *Socialist Worker* and speaks frequently across the country on the struggle for LGBT liberation as well as a wide range of social and economic justice issue.

A Hypersexual Society - K. Kammeyer 2008-11-10

As many can attest, the prevalence of sexual imagery has increased in modern society over the past half century. In this timely new study, Kenneth Kammeyer traces the historical development of sexual imagery in America and society's preoccupation with it, all within a firm theoretical and sociological framework.

Catholics and the Jew Taboo - E. Michael Jones 2018-06-14

For more than 50 years now, from the breaking of the Production Code in 1965 to the Irish abortion referendum of 2018, the Catholic Church has lost every single battle in the culture wars. Archbishop Charles Chaput took note of this in a recent speech, in which he identified the enemies of the moral and social order as "secularizing activists." Sun Tzu once said if you don't know who you are and who your enemy is, you will lose every battle. The record of the Church has proven Sun Tzu right. Now it's time for a different approach. It's time to break the Jew Taboo.

How Joking about Life Turned Life Into a Joke - E. Michael Jones 2020-03-02

Stand-up comedy became conscious of itself in the early 1980s when Martin Scorsese directed *The King of Comedy*, which he found so unpleasant and disturbing that he struggled through the filming and avoided seeing it in the theater. Today reviewers of *Joker* claim that director Todd Phillips' appropriation of Scorsese's material makes Scorsese look empathetic by comparison. The nihilism of modern stand-up comedy saturates *Joker*, which is the unfunny culmination of years of attack on societal mores, morals, and the sacred that leaves people isolated, alienated, and prone to porn and violence, causing the claim that we live in a clown world. *How Joking About Life Turned Life Into A Joke*, traces and explains how and why we came to this juncture, and what can be done to counteract it.

Libido Dominandi - E. Michael Jones 2000

"Unlike the standard version of a sexual revolution, *Libido Dominandi* shows how sexual liberation was from its inception a form of control. The logic is clear enough: Those who wished to liberate man from the moral order needed to impose social controls as soon as they succeeded

because liberated libido inevitably led to anarchy.

Degenerate Moderns - E. Michael Jones 1993

In this groundbreaking new book, Jones shows how some of the major determining leaders in modern thought and culture have rationalized their own immoral behavior and projected it onto a universal canvas. The main thesis of this book is that, in the intellectual life, there are only two ultimate alternatives: either the thinker conforms desire to truth or he conforms truth to desire. In the last one hundred years, the western cultural elite embarked upon a project which entailed the reversal of the values of the intellectual life so that truth would be subjected to desire as the final criterion of intellectual value. In looking at recent biographies of such major moderns as Freud, Kinsey, Keynes, Margaret Mead, Picasso, and others, there is a remarkable similarity between their lives and thought. After becoming involved in sexual license early on, they invariably chose an ideology or art form which subordinated reality to the exigencies of their sexual misbehavior.

The Oxford Handbook of Pierre Bourdieu - Thomas Medvetz 2018

Pierre Bourdieu was one of the most influential social thinkers of the past half-century, known for both his theoretical and methodological contributions and his wide-ranging empirical investigations into colonial power in Algeria, the educational system in France, the forms of state power, and the history of artistic and scientific fields-among many other topics. Despite the depth and breadth of his influence, however, Bourdieu's legacy has yet to be assessed in a comprehensive manner. *The Oxford Handbook of Pierre Bourdieu* fills this gap by offering a sweeping overview of Bourdieu's impact on the social sciences and humanities. Thomas Medvetz and Jeffrey J. Sallaz have gathered a diverse array of leading scholars who place Bourdieu's work in the wider scope of intellectual history, trace the development of his thought, offer original interpretations and critical engagement, and discuss the likely impact of his ideas on future social research. The Handbook highlights Bourdieu's contributions to established areas of research-including the study of markets, the law, cultural production, and politics-and illustrates how his concepts have generated new fields and objects of study.

The Global Sexual Revolution - Gabriele Kuby 2019-10-24

This is the standard work on The Global Sexual Revolution. First published in 2012, it is translated into 15 languages and updated for this

edition. The new ideology of gender denies the binary structure of human existence as man and woman and overthrows moral limitations of sexuality. This destroys marriage and family as the foundation of culture.
