Sex Crime Terry Thomas 2015-11-19 Sex Crime, Third edition offers a comprehensive and integrative introduction to sex crime, written by an expert in the field. The third edition has been fully expanded and updated to include further coverage of a range of critical topics, including child sexual exploitation, child pornography, female sex offenders, treatment approaches such as the 'Good Lives Model' and the European Convention on Human Rights. Delving into and beyond the news headlines about sexual crimes that seem to appear on our screens and in our newspapers almost every day, this third edition draws on a range of high profile case studies, such as Vanessa George, Stuart Hall, Jimmy Savile and Operation Yewtree and also offers a review of all relevant legislation. This new edition also includes an analysis of possible causes of sex offending, as well as public and professional responses to sex crime. Including an examination of the policing of sexual crime; the prosecution of the accused; the sentencing and punishment of sexual offenders; and 'public protection' measures, this new edition covers all of the key aspects of sex crime and how it is dealt with. Wide-ranging and authoritative, Sex Crime, Third edition presents a complex area in a straightforward and understandable manner. Thomas guides the reader through the range of policies and law which have accumulated over the years, making this essential reading for academics and students engaged in the study of sex crime, sexual violence and the treatment of sex offenders. It will also be of great interest to criminal justice practitioners.

What Causes the Child Penalty? Martin Eckhoff Andresen 2019 Women experience significant reductions in labor market income following the birth of children, while their male partners experience no such income drops. This "relative child penalty" has been well documented and accounts for a significant amount of the gender income gap. In this paper we do two things. First, we use a simple household model to better understand the potential mechanisms driving the child penalty, which include gender norms around child care, female preferences for child care, efficient specialization within households, and the biological cost of giving birth. The model, combined with the estimated child penalties for heterosexual and same sex couples, suggests that the child penalty experienced by women in heterosexual couples is primarily explained by female preferences for child care and gender norms, with a smaller contribution due to the biological costs of giving birth. Second, we provide causal estimates on the impact of two family policies aimed at reducing the relative child penalty: paternity leave and subsidized early child care. Our precise and robust regression discontinuity results show no significant impact of paternity leave use on the relative child penalty. Early subsidized care seems to have more promise as a policy tool for affecting child penalties, as we find a 25% reduction in child penalties per year of child care use from a large Norwegian reform that expanded access to child care.

Young People's Views on Sex Education Dr Lynda Measor 2012-11-12 Based on observation of sex education programmes and in-depth interviews with young people, the authors aim to understand more about adolescent's attitudes to sexuality and their sexual behaviour in order to develop policies which will meet their needs more appropriately and effectively. Issues covered in this interesting and accessible book include the ways adolescent informal culture affects sex education programmes and practice; the impact of gender inequality on sex education and safer sex behaviours; legislation and policy frameworks which effect sex education policies; the way young people see legislation and evaluate sex education programmes; and the impact health professionals can have in school sex education. The authors contend that the insights into the values and views that young people bring to bear on the sex education they receive should have an important role to play in the development of policy and practice of those involved in sex education work.

Horny and Hormonal Nick Luxmoore 2016 Ellis's mother is angry because he's been watching porn. Sheron says she hates her body. Mitchell's upset because Jack doesn't want to have sex with him... Sex affects everything. It may not be the single most important thing in a young person's life, but it's always important and a crucial means by which young people try to understand themselves, whether they're in sexual relationships, on the brink of sexual relationships or watching from afar. Yet sex and sexuality are subjects that many adults (including parents, counsellors, teachers and other professionals) are wary of talking about with young people. This book is about helping young people feel less anxious about sex and sexuality. It's also about helping professionals feel more confident. Weaving case material with theory and discussion, Nick Luxmoore describes vividly the dilemmas faced by so many young people and suggests ways of supporting them effectively at such a crucial and sensitive time in their lives.

Gender, Sex and Children's Play Jacky Kilvington 2016-08-11 Does gender, sex and sexuality influence children's play, and their learning? Can/should professionals try to influence children's gender and sexual concepts? Can/should professionals try to prevent gender stereotyping? These and other questions are explored in a lively and thought-provoking text that looks at why and how children inhabit or develop their gender and sexuality. Written in an approachable way and illustrated with case studies and linked to current research and theory, the book helps students, teachers and playworkers understand the debates about biology versus culture and social learning and how these impact on children's expression of gender and sexuality. Engaging the reader in a thorough reflection of their own views and approaches to the gendered and sexualized behaviour

of children at play, this text is an invaluable guide for all those interested in the importance of play, gender and sexuality and how they relate to children's lives. Topics include: play and the behaviour of boys and girls within particular social contexts; play and girls' and boys' sexual behaviour and their associated feelings; play and children's self-concepts and expectations; the professional adult workers' role and the manifestation of genderized and/or sexualized play behaviour both in and outside a setting.

Writing from different disciplinary traditions and about a range of international contexts, the contributors explore the role of sexuality in children's and adolescents' everyday experiences of identity, family, school, neighborhood, religion, and popular media.

The model is introduced by clearly explaining the theory, the setting, the role of the therapist, and the work with the parents. In addition, the book offers a full section dedicated to practical applications of the model, replete with illustrative case studies and detailed therapeutic art-based interventions covering leadership, movement, collaborative and solitary work, and parent-child exercises. Intended for art therapists, students, parent-child psychotherapists, and other therapists interested in expanding their knowledge in the field, Regev and Snir provide a definition and conceptualization of a short-term treatment model with the potential to have comprehensive effects leading to positive change.

A World Made Sexy Paul Rutherford 2007-01-01 " Eroticism is a constant presence in modern society, encompassing almost every aspect of our daily lives. It is a product of one of the major commercial and political enterprises of the twentieth and twenty-first centuries: the cultivation of desire □ desire for sex, desire for wealth, desire for entertainment. Paul Rutherford's *A World Made Sexy* looks at modern civilization's ongoing project to manufacture and encourage public wants, building a utopia where just about everyone (who is affluent) dreams, plays, and, of course, shops. *A World Made Sexy* uses museum exhibitions, art, books, magazines, films, and television to examine the rise and purpose of eroticism, first in America but soon across the affluent world. Starting with a brief foray into the representation of history as past pornography, Rutherford explores a sexual liberation movement shaped by the ideas of Marx and Freud, the erotic styles of Salvador Dali and pop art, the pioneering use of publicity as erotica by Playboy and other products, and the growing concerns of cultural critics over the emergence of a regime of stimulation. In one case study, Rutherford pairs James Bond and Madonna in order to examine the link between eroticism and aggression. He further details how television advertising after 1980 constructed a theatre of the libido to entice the buying public, and concludes by situating the Eros project in the wider context of Michel Foucault's account of the administration of life, and specifically sexuality, during the modern era. *A World Made Sexy* is about power and pleasure, emancipation and domination, and the relationship between the personal passions and social controls that have crafted desire. "

At Memory's Edge James Edward Young 2000-01-01 How should Germany commemorate the mass murder of Jews once committed in its name? In 1997, James E. Young was invited to join a German commission appointed to find an appropriate design for a national memorial in Berlin to the European Jews killed in World War II. As the only foreigner and only Jew on the panel, Young gained a unique perspective on Germany's fraught efforts to memorialize the Holocaust. In this book, he tells for the first time the inside story of Germany's national Holocaust memorial and his own role in it. In exploring Germany's memorial crisis, Young also asks the more general question of how a generation of contemporary artists can remember an event like the Holocaust, which it never knew directly. Young examines the works of a number of vanguard artists in America and Europe-- including Art Spiegelman, Shimon Attie, David Levinthal, and Rachel Whiteread--all born after the Holocaust but indelibly shaped by its memory as passed down through memoirs, film, photographs, and museums. In the context of the moral and aesthetic questions raised by these avant-garde projects, Young offers fascinating insights into the controversy surrounding Berlin's newly opened

The Sexual Trafficking in Children Daniel S. Campagna 1988 This book provides practical information on offenses and offenders in child sexual trafficking, including child pornography, juvenile prostitution, procuring, pedophilia, sex tourism, indenturing, and sex rings. The information is based on 5 years of field research through interviews with victims, offenders, and agency practitioners; field observations; and case studies from police and social service files. Chapters on offenders and victims define the major terms, describe the various markets, and survey types of child sexual exploiters, with particular attention to pedophilia. Four aspects of child sexual trafficking are then examined in detail : hustling, pimping, child pornography, and the international child sex trade. Chapters on ways to counter child sexual trafficking include a weighing of the prospects for reform through State and Federal statutes and judicial advocacy, alternative sentencing, and improvement in the quality of relevant professional services. An examination of the victimization cycle addresses types of exploitive parents, with attention to the role of dysfunctional families in the sexual victimization of their children. The discussion of victim advocacy reviews victim treatment, federal child sexual exploitation task forces, police-social worker teams, and case preparation. (NCJRS, modified).
