Encyclopedia of Ethics - Lawrence C. Becker 2013-10-18

In this new edition, the Encyclopedia of Ethics has been substantially revised, and it has been expanded by more than 30 percent. Its intended audience remains the same: scholars, university students, and readers with a serious interest in philosophy. Its aims with respect to subject matter remain the same: coverage of ethical theory as pursued among English-speaking philosophers. Its 326 distinguished contributors (see the list of Contributors and Editors) are authorities in their fields. The Encyclopedia's content (see List of Entries) was again designed through wide consultation, and its 581 signed entries were peer reviewed.

The Ethics of the Family - Linda Oravec 2010-03-08

Our families are our first and most important ethical training grounds. But what is the family? And what are our ethical commitments to our family members and to the broader moral community? After a brief introductory chapter on basic ethical concepts and theories, the essays in this volume provide readers with ethical analyses of issues ranging from same-sex marriage to a controversial proposal to "license" parents. The chapters cover love, sex, marriage, parents and children, the relationship between the family and the larger moral community, and the influence of emerging technologies on the ethical issues inherent in family life. The volume is intended to open up this exciting territory in applied ethics to those interested in philosophy, family studies, social work, and to anyone who wants a deeper understanding of the ethical forces at work in this most basic social institution.

Deviant Sex and Buddhism - Wadinagala Pannaloka 2022-11-08

Deviant Sex and Buddhism discusses deviant sexual practices recorded in Pali Sutta and Vinaya texts categorizing into normal, pathological and sociological. In Buddhist spirituality and philosophy, like in other religions, sex within the institution of marriage is admissible, while all other forms of sexual practices are immoral and denounced. A sexual act violating the norms of chastity and celibacy within the Buddhist community comes to be identified as a deviant sexual act. At the backdrop this positioning, this volume engages one in a deep study of what were sensuality and sexuality in early Buddhism, Buddhist attitude to human body, and the definition of celibacy, chastity and normal deviant sexual behaviour along with the nuances of the other two forms of deviant sexual behaviour, i.e. pathological and sociological. Going by the Buddhist philosophy, any deviant sexual behaviour is connected with the issue of human suffering. Twofold sexual conformity - complete sexual abstinence and sex only with one's own spouse - is emphasized while decrying all non-conforming sexual practices and deciding on a range for sexual acts including homosexual relationship. This scholarly work should invigorate the interests of many researchers and academicians to take up further studies and researches on the topic, which has not yet been exposed to the literary world at

length.

Just Love - Margaret Farley 2008-02-15

Winner of the 2008 Grawemeyer Award in Religion This long-awaited book by one of American Christianity's foremost ethicists proposes a framework for sexual ethics whereby justice is the criterion for all loving, including love that is related to sexual activity and relationships. It begins with historical and cross-cultural explorations, then addresses the large questions of embodiment, gender, and sexuality, and finally delineates the justice framework for sexual ethics. Though Just Love's particular focus is Christian sexual ethics, Farley's framework is broad enough to have relevance for multiple traditions. Also covered are specific issues in sexual ethics, including same-sex relationships, marriage and family, divorce and second marriage.

Sexual Harassment - Linda LeMoncheck 2000-01-01

The question of what constitutes sexual harassment—from suggestive remarks to outright threats, from off-color jokes to lewd posters on office walls—is contentious, as is the question of how to address sexual harassment. Do all instances of sexual harassment constitute sex discrimination? Are some instances merely sexual attraction gone wrong? Do social policies aimed at eliminating sexual harassment in the workplace violate freedom of expression or do they make working relationships possible between women and men? In this uncompromising yet respectful debate, two philosophers of widely divergent views present clear arguments and then respond directly to each other's reasoning. LeMoncheck argues for a feminist perspective on sexual harassment that is sensitive to the politics of gender. Hajdin contends that this perspective is both morally confusing and legally problematic, and that sexual harassment can be better addressed by traditional moral and legal categories.

Sex - Irving Singer 2004

In the first edition of *Sex: A Philosophical Primer*, Singer offered a new conception of sex, locating it within a spectrum that also includes love and compassion. He suggested that this conception improves upon the work of theorists who tend to relegate sex, love, and compassion to separate and distinct compartments. Singer further argues that sex in human beings is normally--perhaps always in some degree--a composite of the appetitive and the interpersonal, a view that becomes the basis for his later remarks about the relative value of individual sex acts, as well as their place within the aesthetic and moral dimensions of human nature. In the present, expanded edition, Singer supplements the 2001 chapters with a timely and stimulating essay that focuses upon marriage, particularly same-sex marriage. Singer maintains that questions about sex are fundamental in all thinking about the marital condition, and addresses the problem of same-sex legitimization and rights to material benefits by analyzing the nature of marriage, union, and family in their relation to sexuality and love. For first-time and seasoned readers alike, Singer's lucid new reflections will clarify current and emerging issues in the philosophy of sex. Irving Singer is professor of philosophy at Massachusetts Institute of Technology and the author of many books, among them *Explorations in Love and Sex*, *Feeling and Imagination*, and his trilogies *Meaning in Life* and *The Nature of Love*.

Marital and Sexual Ethics in Islamic Law - Roshan Iqbal 2023

Roshan Iqbal traces the intellectual legacy of the exegesis of Qur'an 4:24, which is used as the proof text for the permissibility of mut'a (temporary marriage) and asks if the use of verse 4.24 for the permissibility of mut'a marriage is justified within the rules and regulations of Qur'anic hermeneutics. Iqbal examines seventeen Qur'an commentaries, the chronological span of which extends from the first extant commentary to the present day in three major Islamicate languages. Iqbal concludes that doctrinal self-identity, rather than strictly philological analyses, shaped the interpretation of this verse. As Western academia's first comprehensive work concerning the intellectual history of mut'a marriage and sexual ethics, this work illustrates the power of sectarian influences on how scholars have interpreted verse 4:24. This book is the only work in English that includes a plurality of voices from minor schools (Ibadi, Ashari, Zaidi, and Ismaili) largely neglected by Western scholars, alongside major schools, and draws from all available sub-genres of exegesis. Further, by revealing ambiguities in the interpretation of mut'a, this work challenges accepted sexual ethics in Islamic thought--as presented by most classical and many modern Muslim scholars--and thus opens up space to theorize Islamic sexual ethics anew and contribute to this crucial conversation from the perspective of Muslim feminism.

Love, Drugs, Art, Religion - Brian R. Clack 2016-05-13

In this original and far-reaching contribution to the philosophy of religion, Brian R. Clack examines the manner in which religious belief emerges from the turbulence and anxiety of human existence. Taking his cue from Freud's suggestion that human life is so hard to bear that it requires nothing short of cultural and psychological palliative care, Clack explores each of the 'palliative measures' Freud catalogues - intoxicants, religion, art and love - and evaluates their role in the mitigation of suffering and the provision of the assistance required for an endurable life. This examination provides the context for an investigation into the meaning and function of religious belief when considered as a palliative. Clack initially subjects religion to ferocious critique, defending the psychoanalytic judgment that religious beliefs operate as wish-fulfilling illusions, but then elaborates a revised understanding of religion, one in which comforting illusions are banished and in which religious belief faces up to reality and reconciles us both to the pains and disappointments of existence and to our nullity and inevitable annihilation. In this genuinely interdisciplinary work, Clack breaks new ground by using detailed explorations of the phenomena of drug-use, romantic love and the enjoyment of art in order to throw light on the meaning and nature of religion. This book will be vital reading for anyone concerned with the fundamental questions of religious belief, the psychoanalytic approach to culture, or simply the unavoidable existential problems lying at the very heart of human life.

The A to Z of Ethics - Harry J. Gensler 2010-02-12

Harry J. Gensler and Earl W. Spurgin tackle such issues as abortion, capital punishment, stem cell research, and terrorism while also explaining key theories like utilitarianism, natural law, social contract, and virtue ethics. Sex, Love, and Friendship - Adrienne Leigh McEvoy 2011-08

The joke is that all the prostitutes go on vacation when the philosophers come to town. The reason that the other conventioners do it; philosophers just talk about it. And talk about sex and love, and friendship is what the contributors to this volume do! They talk and argue, split hairs and clarify, all trying to advance our understanding of this most interesting practice of the human species. Some of the best minds on three continents, from four nations, and eighteen of the United States discuss such topics as adultery, commitment, cross dressing, gender politics, date rape, family, friendship, friends as lovers, gayness, love, marital pluralism, marriage, prostitution, religiously motivated anti-queer sentiments, same sex marriage, seduction, and self-respect. Rather than preach, participants probe our attitudes and practices involving these issues with the aim of better understanding the broad range of sexual practices of our species. The result is a collection of stimulating essays that can enliven class discussions as well as provide guidance for the sexually perplexed. The work is accessible to readers from high school through college and beyond.

The Meaning of Marriage - Robert P. George 2014

The movement for same-sex marriage has triggered an unprecedented crisis in the social norms and laws governing marriage. All great civilizations have sought to unite, in the institution of marriage, the goods of sexual intimacy, childbearing and childrearing, and life-long love between adults. But the last five decades have witnessed the erosion of marriage as a public institution in the developed world. The separation of the goods previously united in marriage has led thoughtful people to question why marriage should be denied to homosexuals.

Expanding and Restricting the Erotic - 2020-06-08

The contributors in *Expanding and Restricting the Erotic* offer a multidisciplinary perspective on the ways in which what is considered acceptable within the realm of the erotic has altered over time to the current situation where the erotic is being both expanded and restricted.
