

Politics Of Prostitution Womens Movements Democratic States And The Globalisation Of Sex Commerce

The Politics of State Feminism Dorothy E. McBride 2010-10
The Politics of State Feminism addresses essential questions of women's movement activism and political change in western democracies. The authors—top gender and politics scholars—provide a comparative analysis of the effectiveness of government agencies and women's movements regarding women's policy issues—if, how, and why they form a kind of state feminism. The central research questions are examined across five issue areas in thirteen postindustrial democracies in Europe and North America from the 1960s through the early 2000s. The authors explore a range of topics drawn from contemporary theory, interactions between descriptive and substantive representation, and the place of institutions in democratic change. Using the innovative qualitative and quantitative methods employed by the Research Network on Gender Politics and the State, the authors have developed a new body of theories about the role of state feminism and how it can help further women's rights.

Designing Prostitution Policy Wagenaar, Hendrik 2017-04-26

Most discussions about approaches to regulating prostitution occur at the national level--battles, for example, between prohibition and legalization. In reality, however, the impact of prostitution is felt most keenly at the local level, and it is local measures that can have the greatest effect. This book explores various approaches to regulating prostitution and other sex work at the local level, analyzing their aims and outcomes and offering guidance on designing effective regulations through available policy instruments.

Sexual Partnering, Sexual Practices, and Health Sana Loue

2007-07-03 Sexual risk behaviors have inspired profound ideas and effective teamwork. But as the early history of AIDS demonstrates, when sexual practice is part of the equation, the same bold thinkers may be stymied, or just silent. Safe sex and

monogamy have been proposed as answers to a gamut of social problems, but there is frequently little consensus on what these terms mean. *Sexual Partnering, Sexual Practices, and Health* replaces myth and stereotype with meticulously documented findings on real people and their behaviors in their social, environmental, and individual contexts. Author Sana Loue examines the range of partnerships not only in the U.S. but also Europe and the developing world, focusing on both consenting relationships and exploitative sexual interactions: - Varieties of monogamy between consenting adults - Relationships involving multiple adult partners - Incest, pedophilia, and child marriage - Sex work, trafficking, and pornography - Fetishes and related behaviors All chapters cogently address the health issues that arise from these arrangements, concluding with implications for research, prevention, and intervention. Throughout, Loue argues for a common language across disciplines and challenges her readers—therapists, health care providers, and policymakers alike—to rethink their assumptions about clients, their health needs, and the communities they represent. "Dr. Loue's work is a truly significant scholarly contribution to a topic too often characterized by pseudo-science and ideological distortions. *Sexual Partnering, Sexual Practices, and Health*" should prove an invaluable resource for researchers and community practitioners alike in helping understand dimensions of sexual practice, and designing more effective approaches to sexual health and violence prevention." -Earl Pike, Executive Director, AIDS Taskforce of Greater Cleveland

Prostitution Policy in the Nordic Region May-Len Skilbrei
2016-04-08 There is great interest internationally in the development of prostitution policies in the Nordic countries after Sweden, Norway and Iceland have introduced general bans against buying sex whilst selling sex remains legal. In addition, there is a partial ban against buying sex in Finland. This is a different approach from that of several other European countries,

where we have seen a decriminalisation of third-party involvement in prostitution as well as to that of the USA which criminalises both the buying and selling of sexual services. Thus the Nordic countries are often treated as representatives of a 'Nordic model' of prostitution policies. In this book - the first on the subject - Skilbrei and Holmström argue that these models of policies or policy regimes tend to ignore the trajectories, contexts and consequences of the full range of approaches to prostitution, thus they are too simplistic and static. Prostitution policies in the Nordic countries are multifaceted and dynamic, and cannot be represented as following a straight path and detached from empirical contexts. Their analysis treats Nordic prostitution policies both as a product of history, of current national and Nordic debates, and of international obligations and changes in the international and national prostitution markets. Furthermore they argue that a broad understanding of the relevant context is necessary so as to place Nordic prostitution policies within broader policy concerns related to gender, class, ethnicity, sexuality, social welfare, immigration and organised crime, as well as to neoliberal forms of governance.

Taking the crime out of sex work Abel, Gillian 2010-05-19 New Zealand was the first country in the world to decriminalise all sectors of sex work. This book provides an in-depth look at New Zealand's experience of decriminalisation. It provides first-hand views and experiences of this policy from the point of view of those involved in the sex industry, as well as people involved in developing, implementing, researching and reviewing the policies. Presenting an example of radical legal reform in an area of current policy debate it will be of interest to academics, researchers and postgraduates as well as policy makers and activists.

International Approaches to Prostitution Gangoli, Geetanjali 2006-05-31 What is to be done about prostitution? Is it work or is it violence? Are women involved in prostitution offenders or

victims? Is prostitution a private or a political issue? The answers to these questions vary depending on many factors, including where in the world you live. This book provides a valuable, detailed international comparison of the laws, policies and interventions in eight countries across Europe (England and Wales, France, Sweden and Moldova) and Asia (India, Pakistan, Thailand and Taiwan). The countries were chosen because of their contrasting social policy and legislative frameworks. Specific topics covered include national social and historical contexts in relation to prostitution; legal frameworks - with discussion of existing laws and policies and debates around legislation and decriminalisation; key issues faced - particularly relating to reasons for entering prostitution and analysis of policies and interventions. The case studies are brought to life by giving voice to the experiences of women involved in prostitution themselves together with the personal reflections of the authors. Aimed at a wide audience of students, academics, policy makers and practitioners, this book makes an important contribution to academic and policy debates in the fields of criminology, law, social policy, women's studies, sociology, politics and international relations.

Zemiology and Human Trafficking Avi Boukli 2023-12-05

Following the rise of the zemiological movement, the concept of social harm has attracted a great deal of scholarly attention. Using this perspective, a number of scholars have sought to remove the constraining brackets surrounding criminological investigation in order to broaden its legitimate parameters of study and incorporate a wider range of un-criminalized and hidden harms. This book expands the literature on social harm by applying the concept of zemia to human trafficking investigations in Europe, North America, and Africa. This book draws attention not only to various structurally imbedded harms, but also to the wider consequences of such harms. Drawing on a range of international legal cases on trafficking, this book offers a new

direction in criminological and zemiological thinking and a reimagining of criminal justice responses to harm.

Engendering Human Security Thanh-Dam Truong 2006 Publisher description

Sex and the contract Vincenzo Zeno-Zencovich 2015-10-01

The Politics of Prostitution Joyce Outshoorn 2004-01-08 The most effective way to deal with prostitution has always been hotly debated by governments and women's movements alike.

Feminists want it abolished or regulated as sex work; governments have to safeguard public health and order. This book, first published in 2004, shows how women's movements in Western Europe, North America and Australia have affected politics on prostitution and trafficking of women since the 1970s, asking what made them successful in some countries but a failure in others. It also assesses whether government institutions to advance the status of women - so-called women's policy agencies - have played a key role in achieving policy outcomes favourable to movement demands. Written by an international team of experts and based on original sources, all chapters follow the same framework to ensure comparability. The final chapter offers an overall comparison identifying what makes women's movements successful and women's agencies effective, presenting the case for 'state feminism'.

Governing Guns, Preventing Plunder Asif Efrat 2012-07-19 From

human trafficking to the smuggling of small arms to the looting of antiquities, illicit trade poses significant threats to international order. So why is it so difficult to establish international cooperation against illicit trade? *Governing Guns, Preventing Plunder* offers a novel, thought-provoking answer to this crucial question. Conventional wisdom holds that criminal groups are the biggest obstacle to efforts to suppress illicit trade. Contrarily, Asif Efrat explains how legitimate actors, such as museums that acquire looted antiquities, seek to hinder these regulatory efforts. Yet such attempts to evade regulation fuel international political conflicts between governments demanding action against illicit trade and others that are reluctant to cooperate. The book offers a framework for understanding the domestic origins of these conflicts and how the distribution of power shapes their outcome. Through this framework, Efrat explains why the interests of governments vary across countries, trades, and time. In a fascinating empirical analysis, he solves a variety of puzzles: Why is the international regulation of small arms much weaker than international drug control? What led the United States and Britain to oppose the efforts against the plunder of antiquities, and why did they ultimately join these efforts? How did American pressure motivate Israel to tackle sex trafficking? Efrat's findings will change the way we think about illicit trade, offering valuable insights to scholars, activists, and policymakers.

European Politics Klaus H Goetz 2013-09-13 This book arises out of a specially commissioned issue of *West European Politics* marking the journal's 30th anniversary. It examines the profound changes in the European political landscape over the last three decades, including the fall of Communism; progressive European integration; territorial restructuring; public sector reforms at European, national, regional and local levels; changes in democratic participation, protest, elections, political communication, political parties and party competition; and challenges to the welfare state. The book also discusses how

political science has responded to these changes in terms of its substantive focus, concepts, methods and theories. Many of the 17 contributions included identify important challenges for the future, including those stemming from EU integration, the reduced electoral accountability of politicians, the problematic legitimation of party government and the sharpening of the edges of the state. Contributors include K. A. Anderson, F. C. Castles, C. Crouch, M. Egeberg, M. Ferrera, H. Goetz, L. Hooghe, E. M. Immergut, R. F. Inglehart, M. Keating, H.-D. Klingemann, H. Kriesi, M. Lodge, J. Lovenduski, P. Mair, G. Marks, Y. Mény, L. Morlino, H. Obinger, V. A. Schmidt, P. C. Schmitter, and G. Smith. This book was published as a special issue of *West European Politics*.

Morality Politics in a Secular Age Eva-Maria Euchner 2019-05-02

"Euchner's carefully researched and cogently argued study of morality politics in Europe adds an outstanding piece of research to the ever growing literature on religion and politics. Its combination of quantitative and qualitative comparative analysis involving a novel data set and cross-policy perspectives demonstrates persuasively the role of religion as a resource for political action even in secularized societies." —Michael Minkenberg, Viadrina European University, Germany "Building upon the dichotomy between the "secular" and "religious" worlds of European morality politics, Dr. Euchner plumbs the empirical depths of four nations to unearth a compelling theoretical explanation for when value-laden conflicts surface in parliaments with a strong secular-religious party cleavage. This singularly important volume belongs in the institutional libraries and bibliographic collections of every serious student of public policy analysis, especially those of us who focus on morality policy." —Raymond Tatalovich, Loyola University Chicago, USA This book introduces a new theoretical framework from which to understand religion and morality politics in Europe. This framework provides a first—and rather provocative—answer to

the general debate on how religion influences policy-making processes. Specifically, the book argues that religion is more a strategic resource for political parties than a fundamental normative doctrine shaping political parties' policy-making behavior in a systematic and coherent way. The framework proposes a mechanism (i.e. wedge issue competition) that can be used to identify and explain the conditions under which issues related to religious values rise and fall in parliaments of the religious world in Europe and what consequences we may expect in terms of policy reforms.

Gendering the State in the Age of Globalization Melissa Hausman, Professor of Political Science, Carleton University 2007-04-26 Gendering the State is a ground-breaking collection of studies that examines the efforts of women in countries all over the world to frame public policy debates on nationally critical issues in gendered terms. The overall study is grouped into three distinct patterns of state change: state downsizing—particularly in social policy areas (Canada, Finland, the Netherlands, the United States, and Spain); expansion of state activities into previously less-regulated areas (Austria, France, Germany, and Sweden); and transformation—often constitutionally based—of representative structures (Australia, Belgium, Italy, Japan, and the United Kingdom). Examination of these patterns reveals the impact of the changes in state structures and national priorities on the effectiveness and ability of women's movement actors in achieving their goals.

Nordic Criminal Justice in a Global Context Mikkel Jarle Christensen 2022-10-18 This book critically investigates Nordic criminal justice as a global role model. Not taking this role for granted, the chapters of the book analyze how Nordic approaches to criminal justice were folded into global contexts, and how patterns of promotion were built around perceptions that these approaches also had a particular value for other criminal justice systems. Specific actors, both internal and external to the region

itself, have branded Nordic criminal justice as a form of 'penal exceptionalism' associated with human rights, universalistic welfare, and social cohesion. The book shows how building and using the brand of Nordic criminal justice allowed stakeholders to champion specific forms of crime control across a variety of criminal justice areas in both domestic and international settings. The book will be of interest to scholars and students of criminal justice, international law and justice, Nordic and Scandinavian studies, and more widely to the social sciences and humanities.

The Oxford Handbook of the History of Crime and Criminal Justice Paul Knepper 2016

"The historical study of crime has become a rapidly expanding area of both social history and criminology during the past few decades. Indeed, the history of crime is more relevant than ever for scholars seeking to address contemporary issues in criminology and criminal justice, and for historians trying to understand the nature of crime and criminal justice in past societies. The Oxford Handbook of the History of Crime and Criminal Justice provides a systematic and comprehensive examination of recent developments across both fields. The aim is to further exchange between scholars working on crime and criminal justice from different disciplines. The chapters examine existing research, explain ongoing debates and controversies, and point to new areas of interest, covering topics such as crime in its social context, criminal law and courts, police and policing, and the rise of criminology as a field. This handbook also analyzes some of the most pressing criminological issues of our time, including drug trafficking, terrorism, and the intersections of gender, race, and class in the context of crime and punishment. The definitive volume on the history of crime, The Oxford Handbook of the History of Crime and Criminal Justice is an invaluable resource for students and scholars of criminology, criminal justice, and legal history"--Jacket.

Prostitution, Politics & Policy Roger Matthews 2008-01-18

Prostitution has become an extremely topical issue in recent years and attention has focused both on the situation of female prostitutes and the adequacy of existing forms of regulation. *Prostitution, Politics & Policy* brings together the main debates and issues associated with prostitution in order to examine the range of policy options that are available. Governments in different parts of the world have been struggling to develop constructive policies to deal with prostitution – as, for example, the British Home Office recently instigated a £1.5 million programme to help address the perceived problems of prostitution. In the context of this struggle, and amidst the publication of various policy documents, *Prostitution, Politics & Policy* develops a fresh approach to understanding this issue, while presenting a range of what are seen as progressive and radical policy proposals. Much of the debate around prostitution has been polarized between liberals – who want prostitution decriminalized, normalized and humanized – and conservatives – who have argued that prostitution should be abolished. But, drawing on a wide range of international literature, and providing an overview that is both accessible to students and relevant to policy makers and practitioners, Roger Matthews proposes a form of radical realism that is irreducible to either of these two positions.

Sexuality, Human Rights, and Public Policy Chima J. Korieh
2019-11-30 *Sexuality, Human Rights, and Public Policy* explores the intersection of public policy, human rights, and sexuality as they relate to inclusion and exclusion across diverse cultural settings. It examines how knowledge is formed and experienced at the intersections of culture, sexuality, race, and other axes of identity. This volume engages an array of questions including how public policy shapes the conceptualization of sexuality and rights and by extension the phenomena of inclusion and exclusion in contemporary society across the world. By evaluating how public discourse is employed to re-inscribe differences of gender, sexuality, and rights of citizens, this book provides a comparative analysis of how these processes and dynamics resemble each other or differ cross-culturally. This book demonstrates that in the realm of sexualities, approached from the ideal of human rights as a predominantly Western notion is increasingly challenged by diverse views and new interpretations of human rights in non-Western societies such as Africa and the Middle East.

The Cultural Politics of European Prostitution Reform
Greggor Mattson 2016-01-28 *The Cultural Politics of European Prostitution Reform* traces case studies of four European Union countries to reveal the way anxieties over globalization translates into policies to recognize sex workers in some countries, punish prostitutes' clients in others, and protect victims of human trafficking in them all.

Women and Transformation in Russia Aino Saarinen
2013-11-26 This book looks at Russian women's mobilization and agency during the two periods of transformation, the turn of the

19th-20th century and the 20th - 21st century. Bringing together the parallels between the two great transformations, it focuses on both the continuities and breaks and, importantly, it shows them from the grassroots point of view, emphasizing the local factor. Chapters show the international and transnational aspects of Russian women's agency of different spheres and different historical periods. The book goes on to raise new research questions such as the evaluation and comparison of Soviet society and contemporary Russia from the point of view of gender and women's possibilities in society.

Gender and American Politics Sue Tolleson-Rinehart

Now updated and expanded, the book presents a full complement of empirical studies of real and imagined gender gaps. The Discursive Politics of Gender Equality Emanuela Lombardo

2009-06-02 This book explores the discursive constructions of gender equality and the implications of these understandings in a broad range of policy fields. Using gender equality as a prime example, a number of internationally renowned scholars offer a new vocabulary to identify and study processes of the reduction, amplification, shifting or freezing of meaning. The main aim of the book is to understand the dynamics and to reflect on the consequences of such discursive politics in recent policy making on gender equality. It explores both the potential opportunities that are opened up for the promotion of equality through discursive politics, and the limitations they impose. Distinctive features of the volume include: chapters covering a range of case

studies in Europe, the USA, and the Asia region, tackling contemporary political debates on equality new insights of relevance to public policy practices such as gender mainstreaming, with theorizing on intersecting inequalities The Discursive Politics of Gender Equality will be of interest to students and scholars, of political science, public policy, comparative politics, gender and women studies.

The Oxford Handbook of the Economics of Prostitution Scott Cunningham 2016 "A study of the economics of sex work"--
[Criminalising the Purchase of Sex](#) Jay Levy 2014-09-15 In an attempt to abolish prostitution, Sweden criminalised the purchase of sex in 1999, while simultaneously decriminalising its sale. In so doing, it set itself apart from other European states, promoting itself as the pioneer of a radical approach to prostitution. What has come to be referred to as 'the Swedish model' has been enormously influential, and has since been adopted and proposed by other countries. This book establishes the outcomes of this law - and the law's justifying narratives - for the dynamics of Swedish sex work, and upon the lives of sex workers. Drawing on recent fieldwork undertaken in Sweden over several years, including qualitative interviewing and participant observation, Jay Levy argues that far from being a law to be emulated, the Swedish model has had many detrimental impacts, and has failed to demonstrably decrease levels of prostitution. *Criminalising the Purchase of Sex: Lessons from Sweden* utilises a wealth of respondent testimony and secondary research to redress the current lack of primary academic research and to contribute to academic discussion on this politically-charged and internationally relevant topic. This original and timely work will be of interest to sex worker rights organisations, policy makers and politicians, as well as researchers, academics and students across a number of related disciplines, including law, sociology, criminology, human geography and gender studies.

Contemporary Women's Movements in Hungary Katalin Fábíán

2009-10-14 As the first and only book in any language on contemporary women's movements in Hungary, this groundbreaking study focuses on the role of women's activism in a society where women are not yet adequately represented by established parties and political institutions. Drawing on eyewitness accounts of meetings and protests, as well as first-person interviews with leading female activists, Katalin Fábíán examines the interactions between women's groups in Hungary and studies the unique brand of democracy they have forged in postcommunist Eastern Europe. Through her analysis, she demonstrates how democratization and globalization—with their attendant range of challenges and opportunities—have led women to redefine public-private divides.

Gender, Equality and Social Justice Sharron FitzGerald

2022-09-19 This book addresses a gap in both contemporary theorising and empirical analysis of the European Union's (EU) law and policy frameworks on migration, sex work and anti trafficking. Drawing on the authors' previous research on these policies and with their practical experience of engaging with various EU institutions in law and policy-making fora around gender, equality and justice, the work examines the processes involved in constructing and enacting policy frameworks and legal interventions on these issues, within a feminist analytical framework. The authors map how EU agenda-setting operates, and detail the roles that various EU institutions, external groups and actors, including non-governmental organisations, play in promoting or blocking policy on these three issues. The book draws on feminist theorising on gender, policy-making and social justice to develop a general theoretical framework to help us understand how and why a consensus has seemingly been achieved at EU level on what constitutes gender equality in these

three policy areas. The book presents a valuable resource for academics, researchers and policy makers in Law, Migration, EU policy making and Gender Studies.

Deeds and Words Rosie Campbell 2014-08-28 How does feminism shake up political science, the study of politics and electoral politics? What difference do feminist political scientists and politicians make to political institutions, policy processes and outcomes? The scholarship and activism of pioneering feminist political scientist Professor Joni Lovenduski helped establish these questions on the political science agenda. This book

addresses key themes in Lovenduski's seminal work. State-of-the-art chapters by leading scholars cover gender and parties; elected institutions and the state; quotas and recruitment; public opinion and women's interests. Vignettes by prominent politicians and practitioners, including Dame Anne Begg MP, Baroness Gould, Deborah Mattinson, and the Rt Hon Theresa May, bring the academic analysis to life. *Deeds and Words* reveals the impact of feminist interventions on politics in the round. Its groundbreaking assessment of feminist scholarship and politics offers an appraisal of, and fitting tribute to, Lovenduski's own contribution to gender studies and feminist politics.

Civil Society and Gender Justice Karen Hagemann 2008-10-01

Civil society and civic engagement have increasingly become topics of discussion at the national and international level. The editors of this volume ask, does the concept of "civil society" include gender equality and gender justice? Or, to frame the question differently, is civil society a feminist concept?

Conversely, does feminism need the concept of civil society? This important volume offers both a revised gendered history of civil society and a program for making it more egalitarian in the future. An interdisciplinary group of internationally known authors investigates the relationship between public and private in the discourses and practices of civil societies; the significance of the family for the project of civil society; the relation between civil society, the state, and different forms of citizenship; and the complex connection between civil society, gendered forms of protest and nongovernmental movements. While often critical of historical instantiations of civil society, all the authors nonetheless take seriously the potential inherent in civil society, particularly as it comes to influence global politics. They demand, however, an expansion of both the concept and project of civil society in order to make its political opportunities available to all. *Global Feminism* Myra Marx Ferree 2006-07 Explores the social and political developments that have energized movements of

global feminism Increasingly feminists around the world have successfully campaigned for recognition of women's full personhood and empowerment. Global Feminism explores the social and political developments that have energized this movement. Drawn from an international group of scholars and activists, the authors of these original essays assess both the opportunities that transnationalism has created and the tensions it has inadvertently fostered. By focusing on both the local and global struggles of today's feminist activists this important volume reveals much about women's changing rights, treatment and impact in the global world. Contributors: Melinda Adams, Aida Bagic, Yakin Ertürk, Myra Marx Ferree, Amy G. Mazur, Dorothy E. McBride, Hilikka Pietilä, Tetyana Pudrovska, Margaret Snyder, Sarah Swider, Aili Mari Tripp, Nira Yuval-Davis.

Sexual Politics in Contemporary Europe Sharron FitzGerald

2022-02-01 The legal regulation of gender and sexuality has undergone dramatic changes throughout Europe in the last 40 years and this has shaped what it means to be a European citizen. Drawing on a range of interdisciplinary research, this book uses the discourses around current European sexual politics as an entry point to interrogate how, and with what effect, the EU and its Member States harness issues of gender and sexuality to support issues of higher political importance. It takes recent and ongoing political debates and legislative changes around prostitution and sexual assault as a focus. Using four national case studies: Poland, Germany, Sweden and Italy it illuminates how the EU's desire for increased harmonisation across the Union around gender and sexuality norms and values operates differently and with specific effects across Member States. The book's structure provides a detailed map of how and why contemporary European sexual politics is changing, and how this contributes to establishing European norms and values in developments in law and policy around prostitution and sexual assault. By examining how and why the EU and its Member States

implement their policies in these two policy areas we can begin to illuminate how contemporary European sexual politics serve some groups' interests while marginalizing 'Others'.

Global Human Trafficking Molly Dragiewicz 2014-12-05

Human trafficking has moved from relative obscurity to a major area of research, policy and teaching over the past ten years. Research has sprung from criminology, public policy, women's and gender studies, sociology, anthropology, and law, but has been somewhat hindered by the failure of scholars to engage beyond their own disciplines and favoured methodologies. Recent research has begun to improve efforts to understand the causes of the problem, the experiences of victims, policy efforts, and their consequences in specific cultural and historical contexts. *Global Human Trafficking: Critical issues and contexts* foregrounds recent empirical work on human trafficking from an interdisciplinary, critical perspective. The collection includes classroom-friendly features, such as introductory chapters that provide essential background for understanding the trafficking literature, textboxes explaining key concepts, discussion questions for each chapter, and lists of additional resources, including films, websites, and additional readings for each chapter. The authors include both eminent and emerging scholars from around the world, drawn from law, anthropology, criminology, sociology, cultural studies, and political science and the book will be useful for undergraduate and graduate courses in these areas, as well as for scholars interested in trafficking.
