Hallucinogens - Paul R. Robbins 2001-09

Whether natural or synthetic, hallucinogens, such as LSD, Peyote, Mescaline, DMT, and certain types of Mushrooms, can be very dangerous. This book explores the physical,

emotional, historical, and societal effects of hallucinogenic drug use. Names and phone numbers of organizations that can help someone with a drug problem are also included.

Romantic Relationships - Paul R. Robbins
2015-11-16

What is romantic love? Are romantic relationships valuable? Are most people romantic? How do people meet the right person? How important is physical attraction? In a question and answer format, this is a wide-ranging look at romantic relationships in the 1990s. Drawn from the body of research published in recent years about relationships, over 90 of the most-asked questions in the author's practice are answered here. Issues

covered include sexual harassment, understanding your partner, sex in the age of AIDS, the effects of divorce, handling anger, and many other matters. Written in everyday language, the answers are easily understood by all. This work provides answers to many of the most vexing problems affecting romance in the 1990s.

Unfinished Symphony, Unsolved Murders - Paul R. Robbins 2010-11-24

Syndicated columnist, Harry Ellison, who lives with Sergeant Debbie Simmons of the Washington, D. C. Metropolitan Police Department, has a penchant for becoming involved in unusual murder mysteries. But, the case that began with a telephone call from his niece, Stephanie, a doctoral student in music, may be the most bizarre case of all. Recently returned from Vienna where she was doing research on her doctoral dissertation on Franz

Schubert, Stephanie finds herself stalked by a person, unknown, while working in the Library of Congress. The person leaves her fragments of musical notation that appear to be the missing part of an unfinished Schubert composition. The music is unmistakably Schuberts in style, but is it authentic or the opening gambit in an elaborate scam? And, how do these musical fragments relate to the unexplained deaths of three renowned Schubert scholars? When Harry and Debbie begin their investigation, they encounter deception, danger, and ultimately must match wits with a diabolical killer.

The Psychology of Dreams - Paul R. Robbins
2018-04-20

Our dreams fascinate us as individuals and as a society. What do surveys report people dream about? How about the dreams of the blind? The mentally ill? What does research show about the possibility of dream telepathy? How did the ancient people view dreams? This wide-ranging book also discusses such topics as REM studies, the effects of experimental stimulation on dream content, research on dreams and creativity, symbolism, and nightmares. The book explores a number of techniques used to analyze dreams, illustrating these approaches with dream examples and case studies.

With Love, from Dad - Malcolm E. Smith 1978

A Time to Remember - Paul Robbins 2009-05

In this novel, psychologist and prolific author Paul R. Robbins takes readers back to the dark days of the Great Depression and to the outbreak of World War II to tell the love story of

Jack Jarrels and Alice Burke. Jarrels, a young college professor and writer meets Alice Burke, a promising artist, in a chance encounter during his travels through the American heartland. Their developing relationship is tested by the claustrophobic atmosphere of the small town in which Alice teaches school. Throwing life-long caution to the winds, Alice decides to cast her lot with Jack and they steal away to New York to the Bohemian life of Greenwich Village. Alice finds life in New York very stimulating and in time both of their careers flourish. As the decade ends, war breaks out in Europe. With a growing reputation as a writer and as an anti-fascist crusader, Jack is asked to serve as a foreign correspondent in France. When the German invasion crushes the allies in France, Jack is forced to flee and finds himself caught in the raging hell of the evacuation at Dunkirk. This is, indeed, a time to remember a time in which America faced existential threats and nurtured what Tom Brokaw called The Greatest

Understanding Depression, 2d ed. - Paul R. Robbins 2008-11-11

Since the publication of the first edition in 1993, there have been important developments in the understanding of depression and in the treatment approaches. This new edition reflects these new realities, giving increased emphasis to the biological foundations of depression, the development of and wide use of antidepressant drugs, the shift in the means of dispensing these drugs from mental health professionals to primary care physicians, and the development of alternative medicine approaches to treatment. Written in an easy-to-read manner, the book provides a wide-ranging picture of what is known about depressed moods and depression, from demographic, biological, and psychological aspects to methods of treatment and issues

surrounding recurrence.

Anger, Aggression and Violence - Paul R. Robbins 2000-08-05

Violence has been a part of the human condition for a long time. Evidence from the distant past of hominids shows traces of violence inflicted by other hominids. The history of our own species has more than its share of violent encounters--sometimes rising to the level of sheer brutality. Indeed, the examples of human inhumanity are so numerous and so diverse, one might entertain the thesis that violence is hardwired, as it were, into the genetic makeup of our species. The thesis underlying this book is that in order to better understand violence, it is important to examine anger and aggression and the interrelationship among the three concepts. Feelings of anger often precede aggressive and violent acts. If we learn how to control anger better, we can expect a reduction in violent acts. And aggression itself may be channeled into behaviors which can be useful rather than

destructive. This book addresses the problem of anger by using an interdisciplinary approach, drawing on research from psychology, anthropology, sociology and history as well as statistical data provided by criminologists.
