Pride: The Story of Harvey Milk and the Rainbow Flag - Rob Sanders
2018-04-10

JUNIOR LIBRARY GUILD SELECTION • Celebrate Pride and its iconic rainbow flag--a symbol of inclusion and acceptance around the world--with the very first picture book to tell its remarkable and inspiring history! "Pride is a beacon of (technicolor) light." --Entertainment Weekly
In this deeply moving and empowering true story, young readers will trace the life of the Gay Pride Flag, from its beginnings in 1978 with social activist Harvey Milk and designer Gilbert Baker to its spanning of the globe and its role in today's world. Award-winning author Rob Sanders's stirring text, and acclaimed illustrator Steven Salerno's evocative images, combine to tell this remarkable - and undertold - story. A story of love, hope, equality, and pride.

Queering Families of Origin - Chiara Bertone 2016-04-14

This book provides an original insight into how families of origin of Gay, Lesbian, Bisexual and Transgender (GLBT) people are involved in negotiating meanings and experiences of sexuality and intimacy, an underexplored dimension of queer family life. Delving into the perspectives of families of origin and showing the complexity and heterogeneity of the ways people with their different gender and sexual identities "do" families across generations, it contributes to queering the very distinction between families of origin and families of choice and questions the (hetero)normative assumptions about forms and boundaries of family this distinction rests upon. A focus on marginal contexts, such as Southern Europe, and on marginal subjects, like bisexuals or black lesbians, is proposed as a way to challenge the universality of privileged narratives within heteronormativity, homonormativity and anglocentrism, and to reveal unexpected resources families of origin use to make sense of GLBT identities and lived experiences. The book poses a crucial question: how can alliances along family ties develop on the basis of shared stories of family diversity and marginalised identities, rather than of loving (and normative) support to GLBT people in need and an advocacy in their name from a position of heterosexual privilege? This book was originally published in *Journal of GLBT Family Studies*.

Legal Recognition of Same-Sex Partnerships - Robert Wintemute
2001-10-13

In this book an international team of scholars examines both theoretical issues and the wide variety of legal developments in various countries.

Jesus and the Shamanic Tradition of Same-Sex Love - Will Roscoe
2013

"Originally published by Suspect Thoughts Press, 2004; Updated by the author and re-released by Lethe Press, 2013."

Same-Sex Cultures and Sexualities - Jennifer Robertson 2008-04-15
This book demonstrates the centrality of sex, gender, and sexuality to theories of human behaviors and practices. Moves beyond other "lesbian and gay studies" readers by presenting a broader view of the significance of studying same-sex cultures and sexualities across cultures. Offers readings from all four subfields of anthropology: cultural, biological, linguistic, and archaeological (along with historical and applied anthropology). Includes discussion of biotechnology and bioethics, health and illness, language, ethnicity, identity, politics, post-colonialism, kinship, development, and policymaking.

Defenders of Same-Sex Courtship - Abdul Robinson 2015-07-26

Defenders of Same-Sex Courtship is a regal regime of openly gay

AVENGERS that facilitate and promote the upliftment of homosexuality. These defenders are volatile, voguish and vengeful. Their forte is rationing out catastrophic punishment to those that oppose same-sex marriage, same-sex adoption and same-sex courting. Carla, a transgendered mastermind, is the founder and commander-in-chief of this LGBT coalition. She's a vicious yet virtuous vixen that has trained her affiliates to neutralize and torture those that think it's cool, cute, humane and gangster-like to bully openly gay people. The gay community is smitten with Carla for gracefully assembling a makeshift police force that's exclusively designed to serve, protect and pamper all homosexuals.

Equal Rites - Kittredge Cherry 1995-01-01

Equal Rites is a much-needed collection of worship services, ceremonies, and celebrations that is attuned to the unique needs of sexual minorities. The selections, written primarily by lesbians and gay men, include rites of spiritual beginnings, healing, blessings, holy communion, and pride and empowerment. Also included are funeral memorial services and seasonal and holiday rites for couples. More than a collection, Equal Rites can also serve as a reference book for creating unique and meaningful worship services that address significant aspects of lesbian and gay spirituality.

Legalizing Gay Marriage - Michael Mello 2008-11-20

Lessons from the first states to grapple with gay marriage legislation.

Another Mother Tongue - Judy Grahn 1990

Examines the life styles of gay men and women and discusses the role of gay culture in mainstream society.

Gays, Lesbians, and Bisexuals in History -

Presents information on the history of gays, lesbians, and bisexuals.

Discusses gay pride symbols, gay rights, and same-sex marriage.

Gay & Lesbian History for Kids - Jerome Pohlen 2015-10-01

Part of the popular For Kids series, this book puts the historic struggle for LGBT equality into perspective. Given today's news, it would be easy to get the impression that the campaign for LGBT equality is a recent development, but it is only the final act in a struggle that started more than a century ago. This timely resource helps put recent events into context for kids ages nine and up. After a brief history up to 1900, each chapter discusses an era in the struggle for LGBT civil rights from the 1920s to today. The history is told through personal stories and firsthand accounts of the movement's key events like the 1950s "Lavender Scare," the Stonewall Inn uprising, and the AIDS crisis. Readers will learn about civil rights mavericks, like Dr. Magnus Hirschfeld, founder of the first gay rights organization; Phyllis Lyon and Del Martin, who turned the Daughters of Bilitis from a lesbian social club into a powerhouse for LGBT freedom; and Harvey Milk, the first out candidate to win a seat on the San Francisco Board of Supervisors. Also chronicled are the historic contributions of famous LGBT individuals, and 21 activities enliven the history. Kids can write a free verse poem like Walt Whitman, learn the Madison line dance, design an AIDS quilt panel, and write a song parody to learn about the spirited ways in which the LGBT community has pushed for positive social change.

International LGBTQ+ Literature for Children and Young Adults - B.J. Epstein 2021-08-17

This edited collection explores LGBTQ+ literature for young readers around the world, and connects this literature to greater societal, political, linguistic, historical, and cultural concerns. It brings together contributions from across the academic and activist spectra, looking at

picture books, middle-grade books and young adult novels to explore what is at stake when we write (or do not write) about LGBTQ+ topics for young readers. The topics include the representation of sexualities and gender identities; depictions of queer families; censorship; links between culture, language and sexuality/gender; translation of LGBTQ+ literature for young readers; and self-publishing. It is the first collection to expand the study of LGBTQ+ literature for young readers beyond the English-speaking world and to draw cross-cultural comparisons.

Gay and Lesbian Subculture in Urban China - Loretta Wing Wah Ho
2009-09-10

This book contributes to a critical understanding of how Chinese same-sex identity in urban China is variously imagined; how it is transformed; and how it presents its resistances as China continues to open up to global power relations. Equally important, the book will 1) sharpen knowledge of China's recent socio-economic change and political agenda, 2) build a greater awareness of Chinese cultural, sexual and ethical values and 3) offer new perspectives on 'Chineseness' and Chinese same-sex identity. Uniquely, it explores the emergence of Chinese same-sex identity through understanding the everyday, lived same-sex experience, amid China's opening up to cultural, sexual and economic globalisation. This understanding is based on a culturally sensitive framework which accommodates the diverse and sometimes paradoxical articulation of same-sex identity in urban China. It comes to the conclusion that same-sex identity in China is articulated in a paradoxical way: open and decentred, but at the same time, nationalist and conforming to state control. This book will be of interest to scholars and students in Chinese studies, Gender Studies, sexuality and cultural studies.

Cassell's Encyclopedia of Queer Myth, Symbol, and Spirit - Randy P. Conner 1997

Did you know that in medieval French folklore a person might change sex by passing under a rainbow? Or that same-sex unions have been celebrated by peoples of the ancient Mediterranean, Africa, China, and indigenous America? Or that Sappho, da Vinci, Emily Dickinson, Nijinsky, Benjamin Britten, Mishima, Adrienne Rich, Audre Lorde, Keith Haring, Boy George, and Derek Jarman number among those who have explored the spiritual dimension of gender and sexuality in their works? While the terms many of us employ today to identify ourselves - 'queer', 'lesbian', 'gay', 'bisexual', 'transgendered' - differ markedly from those of peoples of other times and places, we are nevertheless the bearers of a rich spiritual history that has been ignored or suppressed, a history encoded in sacred texts as well as in works of art, music, dance and other media. Drawing upon religion, mythology, folklore, anthropology, history and the arts, the Encyclopedia is a cornucopia of queer spirituality, containing over 1,500 alphabetically arranged entries from Aakulujuusi to Zeus.

Homo History - Erin McHugh 2007

From the Old Testament to the New World Order, the centuries have not always championed homosexuality. But the past has also been checkered with surprising liberal periods. From ancient Rome to gay pride, here is a time capsule of gay history, presented in quick, short takes. Strange, fascinating, and historically revealing!

New Approaches in History and Theology to Same-Sex Love and Desire - Mark D. Chapman 2018-02-15

This book offers a range of interdisciplinary evaluations of the history of same-sex relationships in the Church as they have been understood in different periods and contexts. The relationships between diverse forms of religious and sexual identities have been widely contested in the media since the rise of the lesbian and gay liberation movement in the 1970s. One of the key images that often appears in public debate is that of 'lesbians and gays in the Church' as a significant 'problem'. Research over the past forty years or so into queer theology and the history of

same-sex desire has shown that such issues have played an important role in the story of Christianity over many centuries. The contributors to this volume have all been inspired by the challenges of such revisionist study to explore religion and same-sex desire as a field of opportunity for investigation and debate. They uncover some of the hidden histories of the Church and its theologies: they tell sometimes unexpected stories, many of which invite serious further study. It is quite clear through history that some in the churches have been at the vanguard of legislative and social change. Similarly, some churches have offered safe queer spaces. Overall, these essays offer new interpretations and original research into the history of sexuality that helps inform the contemporary debate in the churches as well as in the academy.

Forbidden Hieroglyphs - Cecil Goran 2013-05-08

Egyptologists, a conservative cadre to be sure, have for centuries purposefully hidden the gayest, most deviant symbols of the ancients by virtue of their startlingly explicit nature. The symbols showcased in this volume are all genuine, and their meanings, while shocking, are instantly decipherable to modern-day homosexuals. Indeed, the more history has passed, the more gays want the same things. Finally, homosexuals can do away with the 26 letters of the English alphabet and embrace a richly nuanced, wholly gay language with 66 characters.

Wallowing in Sex - Elana Levine 2007-01-09

DIVA cultural history of sexual content in television shows and TV advertising during the 1970s./div

"Sex Camp" - Brian McNaught 2005-01-14

Thirty-two strangers arrive at a Church-owned retreat facility on Saturday to work with some of the best trainers in the field of sexuality. They're told that by the end of the week, they'll know more about sex than ninety percent of the population. What they go home with on the following Saturday is a lot more than they anticipated or were promised. Besides laughing, crying, swearing, and cheering through films and intimate discussions about sexual values, body image, self-pleasuring, gender identity, sexual orientation, seduction, abuse, theology, and turn ons, they faced off with each other around an altar in the woods, under blankets and star-filled skies, bare-assed in the water, and with hands joined singing in a circle. Most everyone goes home forever changed. That is, if they make it through the week. The Annual Workshop on Sexuality at Thornfield was called the world's best kept secret. Now you're in on it.

Gay American Autobiography - David Bergman 2009

In the first anthology to survey the full range of gay men's autobiographical writing from Walt Whitman to the present, *Gay American Autobiography* draws excerpts from letters, journals, oral histories, memoirs, and autobiographies to provide examples of the best life writing over the last century and a half. Volume editor David Bergman guides the reader chronologically through selected writings that give voice to every generation of gay writers since the nineteenth century, including a diverse array of American men of African, European, Jewish, Asian, and Latino heritage. Documenting a range of life experiences that encompass tattoo artists and academics, composers and drag queens, hustlers and clerks, it contains accounts of turn-of-the-century transvestites, gay rights activists, men battling AIDS, and soldiers attempting to come out in the army. Each selection provides important insight on the wide spectrum of ways gay men have defined and lived their lives, highlighting how self-awareness changes an author's experience. The volume includes an introduction by Bergman and headnotes for each of the nearly forty entries. Bringing many out-of-print and hard-to-find works to new readers, this challenging and comprehensive anthology chronicles American gay history and life struggles over the course of the past 150 years. Finalist, Lambda Book Award for LGBT Anthology, Lambda Literary Foundation
