**Growth and Inequality in Pakistan** - Keith Griffin 1972-06-18

*Mikey Discovers His Super Power* - Lorena Dolinar 2019-05-15

Mikey is a boy who worries a lot. He has trouble enjoying life, and spends his days playing games on his tablet and ignoring the world. Eventually, his mom takes away his tablet, and Mikey doesn't know what to do. He feels bad about himself, and cries alone in his room. However, his friend Nia knows how to help him. She has a superpower, and Mikey does too—it's a superpower that everybody has! This superpower is mindfulness, which means being present in the moment by taking deep breaths and allowing thoughts and feelings to come and go like the wind. Nia shows Mikey an easy way to practice mindfulness, and his life changes forever. In this heartwarming and informational book, Lorena Dolinar helps parents and teachers alike teach children the power and importance of mindfulness. It introduces readers to what mindfulness is and why it is important to develop a regular practice. Through the example of Mikey, Dolinar shows us how tapping into this natural "superpower" is the key to living a healthy and extraordinary life.

**The Smiths - The Day I Was There** - Richard Houghton 2019-10-03

The Smiths are one of the most important bands to emerge from the British independent music scene of the 1980s. All four of their studio albums reached the top five of the UK Albums Chart, including Meat Is Murder which hit number one.

**The Distribution of Income in China** - Keith Griffin 2016-07-27

Based on original data obtained from a purpose-designed nationwide household sample survey, the volume contains studies of the overall distribution of income, inequality and poverty in rural areas, wage employment in rural industries, urban wage inequalities, and the relationship between education and income. An appendix describes the household sample survey.

**Implementing a Human Development Strategy** - Keith Griffin 1994-11-12

'Readers will find in these pages a very lucid, creative, and highly readable version of many of the ideas that have taken shape through the medium of the Human Development Reports during the last four years. Busy policy makers all over the world will find this an indispensable primer.' - Mahbub ul Haq, from the preface. This book introduces the basic concepts of human development and presents policy guidelines for implementing a human development strategy in developing countries. Human development is seen both as an end in itself and as a means to increase the capabilities of people. The role of the state, the market and of people's participation in such a strategy are described. Specific chapters discuss the structure of incentives, allocation of public sector resources, structural reforms, the relationship of human development to environmental issues and finance and administration.

[Alternative Strategies for Economic Development](#) - Keith Griffin 1999-06-30

The question of alternative strategies for economic development is the subject of great controversy and intense debate amongst practitioners and academics concerned with economic and social progress in the Third World. The core of this book is an analysis of the six most widely adopted strategies of development namely monetarism, the open economy, industrialisation, the green revolution or agriculture-led development, redistributive strategies of development and socialist strategies.

[Macroeconomic Reform and Employment](#) - Keith B. Griffin 1996

[World Hunger And The World Economy](#) - Keith Griffin 1987-07-14

Written in a style that makes it accessible to everyone interested in development studies, not just to economists, the focus of this collection of essays is on hunger, poverty and inequality. Much of the content of the book is based on the author's first-hand experience in, for example, Ethiopia and China, and his views on foreign aid and the debt crisis will make controversial and provocative reading.

[Studies in Development Strategy and Systemic Transformation](#) - K. Griffin 2000-05-15

Studies in Development Strategy and Systemic Transformation contains eleven essays by Keith Griffin on many of the contemporary leading issues in economic development. Topics covered include the role of culture in long-term economic growth, globalization and economic governance, human development, and the effects of the distribution of productive wealth on the pace of development. There are also discussions of alternative reform strategies in the transition economies and of an investment-led strategy of structural adjustment in Sub-Saharan Africa.

**The Transition to Egalitarian Development** - Keith B. Griffin 1981

This book is concerned with the economic aspects of the transition to egalitarian development. The point of departure is the heterogeneity of the poor. It is shown that this makes it difficult for governments to design policies which benefit some groups of the poor without harming others. Moreover, once a redistribution of income has occurred, a series of acute disequilibria are created. The most obvious symptom will be considerable excess demand for wage goods and especially for food. An analysis of the contemporary experience of Chile, Cuba and China illustrates the difficulties that can arise and the policies that can be used to overcome them.

**Economic Reform in Vietnam** - Keith Griffin 2016-01-20

Vietnam, along with China, stands out as a rare success story among transition economics. This

authoritative study of the reform process since 1989 pays particular attention to the way the macroeconomics framework can contribute to an environment that encourages human development and helps to reduce poverty. Thus there are chapters on macroeconomics reforms, international trade policies, the role of the state, rural development, education and health, environmental issues and poverty and gender inequality. Although areas of weakness are indicated, emphasis is placed on the success Vietnam has experienced compared to other transition economies. The lessons of both the successes and failures of the reform process for policymakers elsewhere are outlined.

**Growth and Equality in Rural China** - Keith B. Griffin 1981

Governing the Ungovernable - Ishrat Husain 2018

Pakistan, since its independence in 1947, had to face tumultuous years for the first four decades. Despite the many challenges, both internal and external, the country was able to register a 6 per cent average annual growth rate during the first forty years of its existence. The country was ahead of India and Bangladesh in all economic and social indicators. Since 1990, the country has fallen behind its neighbouring countries and has had a decline in the growth rate. This book attempts to examine the reasons behind this slowdown, the volatile and inequitable growth of the last twenty-five years, and through a process of theoretical and empirical evidence argues that the most powerful explanatory hypothesis lies in the decay of institutions of governance. It also suggests a selective and incremental approach of restructuring some key public institutions that pertain to accountability, transparency, security, economic growth, and equity.

Mother Rising - Yana Cortlund 2012-05-09

Different from a baby shower, where gifts are lavished upon the soon-to-be-born child, a blessingway ceremony honors the mother-to-be and creates a circle of support that will cradle her as she prepares to give birth. Surrounded by the most important women in her life, she can explore the challenges and joys that lie before her, gaining a sense of power and confidence that will help her rise to motherhood. MOTHER RISING shows women how to organize and personalize a blessingway for the expecting friends and family-an experience that will give the mother-to-be the best possible gifts of deep happiness, serenity, and abundance of love. A resource for planning and hosting a blessingway ceremony-a woman-centered celebration of the journey into motherhood. Ideal gift for or from an expectant mother who wants a more meaningful and transformational experience than the traditional, gift-focused baby shower. Outlines the five stages of the blessingway ritual, from establishing a safe and sacred space to honoring and pampering the mother-to-be. Finalist in both the 2004 Independent Publisher Book Awards and Foreword magazine's Book of the Year Awards. Features sidebars, inspirational quotations, resources, and checklists.
