journal aims to examine the emergence of the “geographic,” a new but for the most part latent paradigm in design today—to articulate it and to bring it to bear effectively on the social role of design. Although much of the analysis of this context in architecture, landscape, and urbanism derives from social anthropology, human geography, and economics, the journal aims to extend these arguments to the impact of global changes on the spatial dimension, whether in terms of the emergence of global spatial networks, global cities, or nomadic practices, and how these inform design practices today. Through essays and design projects, the journal aims to identify the relationship between the very small and the very large, and intends to open up discussions on the expanded role of the designer, with an emphasis on disciplinary reframings, repositionings, and attitudes.

Rapport Emily Alison 2020-07-30 'Laurence Alison is one of my academic heroes. He does what every writer longs to do. He makes the difficult clear - without losing his rigour.' Malcolm Gladwell 'They are quietly revolutionising the study and practice of interrogation... Their findings are changing the way law enforcement and security agencies approach the delicate and vital task of gathering human intelligence.' Guardian Get what

you want from even the most difficult characters All of us have to deal with difficult people. Whether we're asking our neighbour to move a fence or our boss for a pay rise, we can struggle to avoid arguments and get what we want. Laurence and Emily Alison are world leaders in forensic psychology, and they specialise in the most difficult interactions imaginable: criminal interrogations. They advise and train the police, security agencies, the FBI and the CIA on how to deal with extremely dangerous suspects when the stakes are high. After 30 years' work - and unprecedented access to 2,000 hours of terrorist interrogations - they have developed a ground-breaking model of interpersonal communication. This deceptively simple approach to handling any encounter works as well for teenagers as it does for terrorists. Now it's time to share it with the world. Rapport reveals that every interaction follows four styles: Control (the lion), Capitulate (the mouse), Confront (the Tyrannosaur) and Co-operate (the monkey). As soon as you understand these styles and your own goals you can shape any conversation at will. And you'll be closer to the real secret: how to create instant rapport.

Sexual Sabotage Judith A. Reisman 2010 Claims that "During World War II and the decades that followed, Kinsey and his Indiana cohorts sabotaged our nation by entering our libraries and schools as 'sex educators' -- ridiculing marriage, fidelity, and chastity. They preached widespread sexual experimentation, succeeded in nationwide fraud campaigns, and gutted the tough laws that kept pornography and predators at bay.' The author suggests countermeasures.

The Texas Homestead Hoax Harvella Jones 2005-04 Step into the shoes of a black woman while she takes you through a legal hellhole that has lasted more than thirteen years. The Odyssey began in 1988 when she moved to Kingwood, Texas, approximately 23 miles from Houston. What started as a fairy tale ended up as a realty nightmare, having unknowingly bought into a planned community with foreclosable maintenance fees, her family and she had no idea what was ahead. At closing, she thought they had protected their property. Find out how Texas' dirty little secret began and how the judges, Community Associations Institute (CAI) attorneys, constable and even HUD are involved in the cover-up in this cottage industry; and it is just not in Texas. The author, Harvella Jones, President of The Texas Homeowner's Advocate Group, co-founded with her husband Johnnie, in 1996, will give you a bird's eye view of what it was like to lose her homestead after a five-year intense battle to save it and fight to save her mind as well as her life after stress threatened to take both. It promises to be one of the best documentaries you will ever read from a pro se litigant in the Texas judicial System trying to save a home from a homeowner association foreclosure. History of Ritchie County Minnie Kendall Lowther 1911

The Man with Candy Jack Olsen 2008-06-30 The mass murder of almost thirty young boys in Houston may well have been the most heinous crime of the century. How could such a series of murders go undetected for almost three years before being exposed? *The Man with the Candy* is a brilliant investigative journalist's story of the crime and the answer to that question. The night David Hilligiest didn't come home was both like and unlike other nights when other Houston boys disappeared between the years 1971

and 1973. At three in the morning the police were called, but they just said that boys were running away from the best of homes nowadays and that they'd list David as a runaway. No, there would be no official search for the youngster. Aghast, the Hilligiests, in the months that followed, hired their own detective, put up posters, even sought the aid of clairvoyants. But David never did come home again because, along with at least twenty-six other Houston boys, he had been murdered and buried by the homosexual owner of a candy factory, the mass murderer of the century, Dean Corll, according to his two teenage confessed accomplices, Elmer Wayne Henley, Jr., and David Brooks. Many of the young boys had not even been reported as missing, and the fact that they were dead would probably never have come to light had not one of the murderers confessed. For in Houston, where in a typical year the total number of murders is twice that of London despite the fact that London is six times as large and far more densely populated, missing persons and violence are likely to be considered commonplace. In the months before the trial of Henley and Brooks, Jack Olsen interviewed and probed for answers about the criminals, the victims and the city itself, which remained for the most part silent, angry and defensive. The result is a classic of true crime reportage.

Twelve Years A Slave, Illustrated Edition Solomon Northup
2014-04-08 Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Mapping and Sequencing the Human Genome National Research Council 1988-01-01 There is growing enthusiasm in the scientific community about the prospect of mapping and sequencing the human genome, a monumental project that will have far-reaching consequences for medicine, biology, technology, and other fields. But how will such an effort be organized and funded? How will we develop the new technologies that are needed? What new legal, social, and ethical questions will be raised? Mapping and Sequencing the Human Genome is a blueprint for this proposed project. The authors offer a highly readable explanation of the technical aspects of genetic mapping and sequencing, and they recommend specific interim and long-range research goals, organizational strategies, and funding levels. They also outline some of the legal and social questions that might arise and urge their early consideration by policymakers.

various periods in Sierra Leone's history from the fifteenth century to the end of its civil war in 2002. It entails the history of Sierra Leone from its days as a slave harbor through to its founding as a home for free slaves, and toward its political independence and civil war. In 1462, the country was discovered by a Portuguese explorer, Pedro de Sintra, who named it Serra Lyoa (Lion Mountains). Sierra Leone later became a lucrative hub for the Transatlantic Slave Trade. At the end of slavery in England, Freetown was selected as a home for the Black Poor, free slaves in England after the Somerset ruling. The Black Poor were joined by the Nova Scotians, American slaves who supported or fought with the British during the American Revolution. The Maroons, rebellious slaves from Jamaica, arrived in 1800. The Recaptives, freed in enforcement of British antislavery laws, were also taken to Freetown. Freetown became a British colony in 1808 and Sierra Leone obtained political independence from Britain in 1961. The development of the country was derailed by the death of its first Prime Minister, Sir Milton Margai, and thirty years after independence the country collapsed into a brutal civil war.

heinous crimes Over a three-decade span, more than twenty women—many teenagers—died mysteriously in the small towns bordering Interstate 45, a fifty-mile stretch of highway running from Houston to Galveston. The victims were strangled, shot, or savagely beaten. Six met their demise in pairs. They had one thing in common: being in the wrong place at the wrong time. The day she vanished, Colette Wilson waited for her mother after band practice. Best friends Debbie Ackerman and Maria Johnson loved to surf and were last seen hitchhiking. Laura Kate Smither dreamed of becoming a ballerina and disappeared just weeks before her thirteenth birthday. In this harrowing true crime exposition, award-winning journalist Kathryn Casey tracks these tragic cases, investigates the evidence, interviews the suspects, and pulls back the cloak of secrecy in search of elusive answers.

They never reached their homes. The next morning, the families of the two girls began a frantic search, organizing friends and neighbors and posting thousands of fliers across the sprawling city. But not until an anonymous 911 call four days later were the bodies of Jennifer Ertman and Elizabeth Pena finally recovered.
