Sex Trafficking - Siddharth Kara 2010

"Kara supplements his analysis with a riveting account of this unconscionable industry, sharing the moving stories of victims and revealing the shocking conditions of their exploitation. He concludes with a proposal for aggressive measures that target the essential business and economic functioning of the sex trafficking industry designed to provide a more effective global approach to abolishing these crimes against the world's most vulnerable and exploited persons."--Jacket.

Modern Slavery - Ryan D. Cantrell 2013-01-04
Human trafficking may be one of the least

understood crimes in the United States. Often referred to as "slavery without chains," it is a widespread and highly profitable crime, largely hidden from public view out of ignorance or denial of its existence in the United States. After drug dealing, human trafficking is tied with the illegal arms trade as the second largest criminal industry in the world, and it is the fastest-growing. There are thousands of law enforcement officers within the United States that are confronted with the epidemic of human trafficking. While human trafficking is not a new crime, it has recently taken center stage as a criminal enterprise that is extremely profitable

Trafficked - Sophie Hayes 2013-09-03

The haunting, unforgettable memoir that took the UK by storm, *Trafficked* is a gripping first-hand account of a young woman who survived the horrors of human trafficking. Sophie Hayes, a young, educated English woman, was spending

an idyllic weekend in Italy with her seemingly charming boyfriend. But the day of her return home, he made it clear she wasn't going anywhere. Punching and shouting at her, he threatened to kill her adored younger brothers if she didn't cooperate to help him pay off hundreds of thousands of dollars he'd racked up in debts. Over the next six months, Sophie is forced to work as a prostitute in a country where she didn't speak the language, nobody knows her whereabouts, and escape seems impossible. She struggles to survive, constantly at the mercy of her boyfriend's violent moods and living in fear of being killed by any of her customers. When a life-threatening illness lands her in the hospital, Sophie has a chance to phone her mother and escape—if her boyfriend doesn't get to her first. Chilling and captivating, *Trafficked* is one of the first memoirs to present a stunning personal look at the criminal human sex trafficking trade and bring this disturbingly widespread abuse to light.

Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States - National Research Council 2013-11-12

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need

to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

Insider details from the takedown of Backpage, the world's largest sex trafficker, by the prosecutor who led the charge. For almost a decade, Backpage.com was the world's largest sex trafficking operation. Seven days a week, twenty-four hours a day, in 800 cities throughout the world, Backpage ran thousands of listings advertising the sale of vulnerable young people for sex. Reaping a cut off every transaction, the owners of the website raked in millions of dollars. But many of the people in the advertisements were children, as young as 12, and forced into the commercial sex trade through fear, violence and coercion. In *Taking Down Backpage*, veteran California prosecutor Maggy Krell tells the story of how she and her team prevailed against this sex trafficking monolith. Beginning with her early career as a young DA, she shares the evolution of the anti-human trafficking movement. Through a fascinating combination of memoir and legal

insight, Krell reveals how she and her team started with the prosecution of street pimps and ultimately ended with the takedown of the largest purveyor of human trafficking in the world. She shares powerful stories of interviews with victims, sting operations, court cases, and the personal struggles that were necessary to bring Backpage executives to justice. Finally, Krell examines the state of sex trafficking after Backpage and the crucial work that still remains. *Taking Down Backpage* is a gripping story of tragedy, overcoming adversity, and the pursuit of justice that gives insight into the fight against sex trafficking in the digital age.

The Least of These - Thomas Luke 2020-11-05

The Orphans of Siem Reap, Cambodia, made a lasting impression upon me when I met them during my 2003 visit to Angkor Wat, Cambodia. I have not encountered anything sadder or more disturbing than seeing Khmer mothers and fathers selling their little girls' virginity to Western pedophiles. These little girls, some as young as five years of age, are being exposed to the transmission of HIV. Often, this results in the murder of these young girls after they contracted AIDS from these men. I wrote a capstone-research paper for my Master of Arts in Theological Studies - Trinity Evangelical Divinity School - Class of 2020. From a biblical perspective, I researched how to restore these traumatized child-victims once they have been rescued from pedophile brothels in Cambodia. After graduation, I turned my capstone-research into a book called, 'The Least of These.' (Defend the weak and the fatherless; uphold the cause of the poor and the oppressed. Human Trafficking - Joan Reid 2017-10-02
Human trafficking involves the violation of

societal norms and often activates criminal justice responses including police, courts, juvenile justice, and child protective services. Due to the complex nature of human trafficking, some behaviours that facilitate human trafficking cannot be easily identified and assigned to conventional crime categories. As a result of this complexity, criminologists have yet to fully explore the problem of human trafficking. In recent years, however, there has been a growing interest among criminologists in human trafficking and its intersections with the criminal justice system and overlap with conventional types of crime. This edited collection of research aims to underscore these intersections in order to further improve the description, explanation, and prevention of human trafficking. Research contained in this book provides a step forward by describing police perceptions and responses to human trafficking while also providing insight into victims with reports on victim perceptions of

Invisible Chains - Benjamin Perrin 2010-10-05

Just outside Toronto, a 14-year-old Canadian girl was auctioned on the internet for men to purchase by the hour. A young woman was taken by slave traders from an African war zone to Edmonton to earn greater profits by exploiting her in prostitution. A gang called Wolfpack recruited teenagers in Quebec and sold them for sex to high-profile men in the community. The global problem of human trafficking is only beginning to be recognized in Canada, even though it has been hidden in plain sight. In *Invisible Chains*, Benjamin Perrin, an award-winning law professor and policy expert, exposes cases of human trafficking, recording in-depth interviews with people on the front lines—police

officers, social workers, and the victims themselves—and bringing to light government records released under access-to-information laws.

Persons 2016 is the third of its kind mandated by the United Nations General Assembly. In July 2010, the UNGA adopted the Global Plan of Action to Combat Trafficking in Persons. The Report covers and provides an overview of patterns and flows of trafficking in persons at the global, regional and national levels, based on trafficking cases detected mainly between 2012 and 2014. It looks at links between trafficking in persons, migration and conflict, and how refugees may be particularly vulnerable to being trafficked. The worldwide response to trafficking in persons, particularly in terms of criminalization and prosecution of trafficking crimes, is also a focus of this edition of the Global Report. Also included are the Country Profiles.

The Whistleblower - Kathryn Bolkovac
2011-01-04

When Nebraska police officer and divorced mother of three Kathryn Bolkovac saw a recruiting announcement for private military contractor DynCorp International, she applied and was hired. Good money, world travel, and the chance to help rebuild a war-torn country sounded like the perfect job. Bolkovac was shipped out to Bosnia, where DynCorp had been contracted to support the UN peacekeeping mission. She was assigned as a human rights investigator, heading the gender affairs unit. The lack of proper training provided sounded the first alarm bell, but once she arrived in Sarajevo, she found out that things were a lot worse. At great risk to her personal safety, she began to unravel the ugly truth about officers involved in human trafficking and forced prostitution and their connections to private mercenary contractors, the UN, and the U.S. State Department. After bringing this evidence to

light, Bolkovac was demoted, felt threatened with bodily harm, was fired, and ultimately forced to flee the country under cover of darkness—bringing the incriminating documents with her. Thanks to the evidence she collected, she won a lawsuit against DynCorp, finally exposing them for what they had done. This is her story and the story of the women she helped achieve justice for.

Policing Global Movement - S. Caroline Taylor
2012-09-24

The movement of humans across borders is increasing exponentially—some for benign reasons, others nefarious, including terrorism, human trafficking, and people smuggling. Consequently, the policing of human movement within and across borders has been and remains

a significant concern to nations. *Policing Global Movement: Tourism, Migration, Human Trafficking, and Terrorism* explores the nature of these challenges for police, governments, and citizens at large. Drawn from keynote and paper presentations at a recent International Police Executive Symposium meeting in Malta, the book presents the work of scholars and practitioners who analyze a variety of topics on the cutting edge of global policing, including: Western attempts to reform the policing of sex tourists in the Philippines and Gambia Policing the flow of people and goods in the port of Rotterdam Policing protestors and what happened at the 2010 G20 Summit in Toronto Mexico's use of the military in its war against drug trafficking Public-private cooperation in the fight against organized crime and terrorism in Australia Recommendations for police reform in Afghanistan Sweden's national counterterrorism unit Treatment of asylum seekers in a privately run detention center in

Prostitution, Harm and Gender Inequality - Maddy Coy 2016-04-08

Prostitution, Harm and Gender Inequality brings together international research exploring the range of gendered harms to women involved in prostitution and the consequences of growth of the sex industry for global gender relations. While there is an increasing amount of research and academic output on prostitution, the current focus is often on discussion and critique of policy frameworks, and contemporary debates over harm are largely limited to sex trafficking and sexual exploitation of children. Less attention is paid to questions of how the sex industry

perpetuates notions of objectification and male entitlement with respect to sexual access to women's bodies, despite being key feminist concerns for several decades. This position has become effectively marginalized, but the global growth and industrialization of the sex industry requires a return to these questions. Through exploring gendered inequality and re-engaging with an understanding of prostitution as harmful with impacts on the self and body that are experienced as abusive but do not always constitute violence, this book introduces a range of research and thinking, while also drawing on existing literature to explore the consequences of prostitution for women in the sex industry and wider gender relations. These issues are discussed with regard to: coercion and recruitment, including trafficking; notions of male entitlement in accounts of men who buy sex; critical interrogations of agency and choice; legal and policy frameworks; and representations of prostitution in popular

The Sexual Trafficking in Children - Daniel S. Campagna 1988

This book provides practical information on offenses and offenders in child sexual trafficking, including child pornography, juvenile prostitution, procuring, pedophilia, sex tourism, indenturing, and sex rings. The information is based on 5 years of field research through interviews with victims, offenders, and agency practitioners; field observations; and case studies from police and social service files. Chapters on offenders and victims define the major terms, describe the various markets, and survey types of child sexual exploiters, with particular attention to pedophilia. Four aspects of child sexual trafficking are then examined in detail : hustling, pimping, child pornography, and the international child sex trade. Chapters on ways to counter child sexual trafficking include a weighing of the prospects for reform through State and Federal statutes and judicial

advocacy, alternative sentencing, and improvement in the quality of relevant professional services. An examination of the victimization cycle addresses types of exploitive parents, with attention to the role of dysfunctional families in the sexual victimization of their children. The discussion of victim advocacy reviews victim treatment, federal child sexual exploitation task forces, police-social worker teams, and case preparation. (NCJRS, modified).
