Military Comedy Films - Hal Erickson 2012-08-07

Beginning with Charlie Chaplin's *Shoulder Arms*, released in America near the end of World War I, the military comedy film has been one of Hollywood's most durable genres. This generously illustrated history examines over 225 Army, Navy and Marine-related comedies produced between 1918 and 2009, including the abundance of laughspinners released during World War II in the wake of Abbott and Costello's phenomenally successful *Buck Privates* (1941), and the many lighthearted service films of the immediate postwar era, among them *Mister Roberts* (1955) and *No Time for Sergeants* (1958). Also included are discussions of such subgenres as silent films (*The General*), military-academy farces (*Brother Rat*), women in uniform (*Private Benjamin*), misfits making good (*Stripes*), anti-war comedies (*MASH*), and fact-based films (*The Men Who Stare at Goats*). A closing filmography is included in this richly detailed volume.

I Won't Grow Up! - Anthony Balducci 2015-12-23

A film archetype as old as film itself, the man-child has been an enduring comedy subject. Classics as diverse as *Hail the Conquering Hero* (1944) and *The Apartment* (1960) have used the immature male to drive plots and press the importance of growing up. But he was not born fully formed—it took the shifting social norms of decades to mold the atrocious behavior of the puerile buffoon we know today. The man-child has come under scrutiny in recent years. Prominent writers, including David Denby and A.O. Scott, have criticized the modern comedian behaving in shamelessly childish ways. This book provides a comprehensive examination of the character of the man-child, from André Deed, who debuted on screen in 1901, to Seth Rogen. The author discusses changing cultural attitudes about maturity, what it means to be an adult, what it means to be a child and how those things are becoming increasingly confused.

Unmasking the Sexual Offender - Veronique N. Valliere 2022-12-30

This book unmask the sexual offender by providing clear, comprehensible information about the motivations, techniques, and dynamics of sexual offenders and their behavior. It not only explores the biases and myths that the reader may rely upon to understand deviance but also explains pathways to offending, the distorted thinking and relating that offenders engage in, and the ways offenders manipulate and exploit others. Sexual offenders are surrounded by mythology, fascination, and revulsion. People who commit sexual offenses present difficult and complicated issues interpersonally, as well as in treatment and management; denial, victim-blaming, aggression, and blatant chronic deception are inherent in interactions with them. Unfortunately, the failure to truly understand their motives and techniques helps provide excuses for and further camouflage of their deviance. The first part of the text explores the presumptions commonly adopted about sexual offenders and shows how misinformation supports the inappropriate behavior of the sexual offender. The second section focuses on exposing the sexual offender using straightforward language and tangible examples. A final, third section includes safety and management

strategies for dealing with sex offenders for those both inside and outside the realms of law enforcement and offender supervision. This book is intended for anyone interested in learning about sexual offenders. It is useful for both professionals and non-professionals, including students, paralegals, victim advocates, and others involved in the criminal justice system or mental health field.

Comedy-Horror Films - Bruce G. Hallenbeck 2009-08-11

Fun and fright have long been partners in the cinema, dating back to the silent film era and progressing to the Scary Movie franchise and other recent releases. This guide takes a comprehensive look at the comedy-horror movie genre, from the earliest stabs at melding horror and hilarity during the nascent days of silent film, to its full-fledged development with *The Bat* in 1926, to the Abbott and Costello films pitting the comedy duo against *Frankenstein's Monster*, *The Mummy* and other Universal Studio monsters, continuing to such recent cult hits as *Shaun of the Dead* and *Black Sheep*. The A to Z of African American Cinema - S. Torriano Berry 2009-09-02

On 4 July, 1910, in 100-degree heat at an outdoor boxing ring near Reno, Nevada, film cameras recorded—and thousands of fans witnessed—former heavyweight champion Jim Jeffries' reluctant return from retirement to fight Jack Johnson, a black man. After 14 grueling rounds, Johnson knocked out Jeffries and for the first time in history, there was a black heavyweight champion of the world. At least 10 people lost their lives because of Johnson's victory and hundreds more were injured due to white retaliation and wild celebrations in the streets. Public screenings received instantaneous protests and hundreds of cities barred the film from being shown. Congress even passed a law making it a federal offense to transport moving pictures of prizefights across state lines, and thus the most powerful portrayal of a black man ever recorded on film was made virtually invisible. This is but one of the hundreds of films covered in *The A to Z of African American Cinema*, which includes everything from *The Birth of a Nation* to *Crash*. In addition to the films, brief biographies of African American actors and actresses such as Sidney Poitier, James Earl Jones, Halle Berry, Eddie Murphy, Whoopi Goldberg, Denzel Washington, and Jamie Foxx can be found in this reference. Through a chronology, a list of acronyms and abbreviations, an introductory essay, a bibliography, appendixes, black-&-white photos, and hundreds of cross-referenced dictionary entries on actors, actresses, movies, producers, organizations, awards, film credits, and terminology, this book provides a better understanding of the role African Americans played in film history.

Screened Out - Richard Barrios 2005-02-16

Rapacious dykes, self-loathing closet cases, hustlers, ambiguous sophisticates, and sadomasochistic rich kids: most of what America thought it knew about gay people it learned at the movies. A fresh and revelatory look at sexuality in the Great Age of movie making, *Screened Out* shows how much gay and lesbian lives have shaped the Big Screen. Spanning popular American cinema from the 1900s until today, distinguished film historian Richard Barrios presents a rich, compulsively readable analysis of how Hollywood has used and depicted gays and the mixed signals it has given us: Marlene in a top hat, Cary

Grant in a negligee, a pansy cowboy in *The Dude Wrangler*. Such iconoclastic images, Barrios argues, send powerful messages about tragedy and obsession, but also about freedom and compassion, even empowerment. Mining studio records, scripts, drafts (including cut scenes), censor notes, reviews, and recollections of viewers, Barrios paints our fullest picture yet of how gays and lesbians were portrayed by the dream factory, warning that we shouldn't congratulate ourselves quite so much on the progress movies - and the real world -- have made since Stonewall. Captivating, myth-breaking, and funny, *Screened Out* is for all film aficionados and for anyone who has sat in a dark movie theater and drawn strength and a sense of identity from what they saw on screen, no matter how fleeting or coded.
