Pour Me - A.A. Gill 2015-11-12
SHORTLISTED FOR THE 2016 PEN ACKERLEY PRIZE 'An intense, succulent read that's

intermittently dazzling' THE TIMES 'Chilling, exquisitely moving' DAILY TELEGRAPH 'A superb memoir - and one of the best books on addiction I have ever read' EVENING STANDARD A. A. Gill's memoir begins in the dark of a dormitory with six strangers. He is an alcoholic, dying in the last-chance saloon. He tells the truth - as far as he can remember it - about drinking and about what it is like to be drunk. He recalls the lost days, lost friends, failed marriages ... But there was also an 'optimum inebriation, a time when it was all golden'. Sobriety regained, there are painterly descriptions of people and places, unforgettable musings about childhood and family, art and religion; and most movingly, the connections between his cooking, dyslexia and his missing brother. Full of raw and unvarnished truths, exquisitely written throughout, POUR ME is about lost time and self-discovery. Lacerating, unflinching, uplifting, it is a classic about drunken abandon.

More, Now, Again - Elizabeth Wurtzel
2007-11-01

I crush up my pills and snort them like dust. They are my sugar. They are the sweetness in the days that have none. They drip through me like tupelo honey. Then they are gone. Then I need more. I always need more. For all of my life I have needed more. A precocious literary light, Elizabeth Wurtzel published her groundbreaking memoir of depression, *Prozac Nation*, at the tender age of twenty-six. A worldwide success, a cultural phenomenon, the book opened doors to a rarefied world about which Elizabeth had only dared to dream during her middle-class

upbringing in New York City. But no success could staunch her continuous battle with depression. The terrible truth was that nothing had changed the emptiness inside Elizabeth. Her relationships universally failed; she was fired from every magazine job she held. Indeed, the absence of fulfillment in the wake of success became yet another seemingly insurmountable hurdle. When her doctor prescribed Ritalin to boost the effects of her antidepressant medication, Elizabeth jumped. And the Ritalin worked. And worked. And worked. Within weeks, she was grinding up the pills and snorting them for a greater effect. It reached the point where she couldn't go more than five minutes without a fix. It was Ritalin, and then cocaine, and then more Ritalin. In a harrowing account, Elizabeth Wurtzel contemplates what it means to be in love with something in your blood that takes over your body, becomes the life force within you -- and could ultimately kill you. More, Now, Again is an astonishing and timely story of a new

kind of addiction. But it is also a story of survival. Elizabeth Wurtzel hits rock bottom, gets clean, uses again, and finally gains control over her drug and her life. As honest as a confession and as heartfelt as a prayer, More, Now, Again recounts a courageous fight back to a life worth living.

Sex Addiction as Affect Dysregulation: A Neurobiologically Informed Holistic Treatment (Norton Series on Interpersonal Neurobiology) - Alexandra Katehakis 2016-09-20

Examining the neurobiological underpinnings of sex addiction. Neuroaffective science—studying the integrated development of the body, brain, and mind—has revealed mechanisms linking psychological and biological factors of mental disorders, including addiction. Indeed, its paradigm-shifting theoretical umbrella demonstrated that substance and behavioral dependencies share identical neurobiological

workings, and thus that problematic repetitive behaviors are genuine addictions—a state increasingly understood as a chronic brain disorder. Clinical experience strongly suggests that sex addiction (SA) treatment informed by affective neuroscience—the specialty of Alexandra Katehakis—proves profoundly transformative. Katehakis's relational protocol, presented here, blends neurobiology with psychology to accomplish full recovery. Her Psychobiological Approach to Sex Addiction Treatment (PASAT) joins therapist and patient through a relationally-based psychotherapy—a holistic, dyadic dance that calls on the body, brain, and mind of both. Written with clarity and compassion, this book integrates cutting-edge research, case studies, verbatim session records, and patient writings and art. Katehakis explicates neurophysiological, psychological, and cultural forces priming and maintaining SA, then details how her innovative treatment restores patients' interpersonal, sexual, and spiritual

First the Dead - Tim Downs 2008-09-09

Refuge Recovery - Noah Levine 2014-06-10 Bestselling author and renowned Buddhist teacher Noah Levine adapts the Buddha's Four Noble Truths and Eight Fold Path into a proven and systematic approach to recovery from alcohol and drug addiction—an indispensable alternative to the 12-step program. While many

desperately need the help of the 12-step recovery program, the traditional AA model's focus on an external higher power can alienate people who don't connect with its religious tenets. Refuge Recovery is a systematic method based on Buddhist principles, which integrates scientific, non-theistic, and psychological insight. Viewing addiction as cravings in the mind and body, Levine shows how a path of meditative awareness can alleviate those desires and ease suffering. Refuge Recovery includes daily meditation practices, written investigations that explore the causes and conditions of our addictions, and advice and inspiration for finding or creating a community to help you heal and awaken. Practical yet compassionate, Levine's successful Refuge Recovery system is designed for anyone interested in a non-theistic approach to recovery and requires no previous experience or knowledge of Buddhism or meditation.

Naked in Public - Staci L Sprout 2015-11-05
IN THIS INTENSELY PERSONAL MEMOIR,

Staci Sprout offers a vulnerable account of her recovery journey from the painful world of sexual intrigue and addiction. She was an honors student and cheerleader, and later a talented young social worker, but her life had a dark twist even her closest friends didn't suspect. Childhood sexual abuse and exposure to pornography had ignited a drive to be sexual that eventually threatened to unravel her sanity and her life. Desperate for relief, she tried psychotherapy, hypnotism, bodywork, and traditional and pagan spirituality. Nothing helped until a near-death experience became a turning point and she found her way into the rooms of 12-Step recovery for sex addiction. Staci's story reveals what can happen when a woman refuses to give up in her fight for dignity and freedom. The wisdom that emerges will be both a roadmap and inspiration for anyone, male or female, who struggles with sexual addiction - and to their loved ones.

2018-10-04

To heal addiction, you have to go back to the start... Featured on Russell Brand's podcast Under the Skin Dr Gabor Maté is one of the world's most revered thinkers on the psychology of addiction. His radical findings - based on decades of work with patients challenged by catastrophic drug addiction and mental illness - are reframing how we view all human development. In this award-winning modern classic, Gabor Maté takes a holistic and compassionate approach to addiction, whether to alcohol, drugs, sex, money or anything self-destructive. He presents it not as a discrete phenomenon confined to a weak-willed few, but as a continuum that runs through (and even underpins) our society; not as a medical 'condition', but rather the result of a complex interplay of personal history, emotional development and brain chemistry. Distilling cutting-edge research from around the world, In the Realm of Hungry Ghosts avoids glib self-help

Blending personal stories and science with positive solutions, and written in spellbinding prose, it is a must-read that will change how you see yourself, others and the world. 10th anniversary edition, updated with new chapter on the Opioid crisis

The Terror - Dan Simmons 2008

Suspense fiction. The men on board Her Britannic Majesty's Ships Terror and Erebus had every expectation of triumph. They were part of Sir John Franklin's 1845 expedition - as scientifically advanced an enterprise as had ever set forth - and theirs were the first steam-driven vessels to go in search of the fabled North-West Passage. But the ships have now been trapped in the Arctic ice for nearly two years. Coal and

provisions are running low. Yet the real threat isn't the constantly shifting landscape of white or the flesh-numbing temperatures, dwindling supplies or the vessels being slowly crushed by the unyielding grip of the frozen ocean. No, the real threat is far more terrifying. There is something out there that haunts the frigid darkness, which stalks the ships, snatching one man at a time - mutilating, devouring. A nameless thing, at once nowhere and everywhere, this terror has become the expedition- 's nemesis. When Franklin meets a terrible death, it falls to Captain Francis Crozier of HMS Terror to take command and lead the remaining crew on a last, desperate attempt to flee south across the ice. With them travels an Eskimo woman who cannot speak. She may be the key to survival - or the harbinger of their deaths. And as scurvy, starvation and madness take their toll, as the Terror on the ice become evermore bold, Crozier and his men begin to fear there is no escape.
