Barrack Buddies and Soldier Lovers - Steven Zeeland

2014-06-03

Among all the literature published on gays in the military, Steven Zeeland's first book remains one of a kind. *Barrack Buddies and Soldier Lovers* is a raw, unsanitized personal record of conversations the author had with young soldiers and airmen stationed in Frankfurt, Germany. Zeeland's intimate involvement with these men enabled him to document in honest, visceral terms the day-to-day reality of gay military men's lives and how they work, play, and, in many instances, how the military actually helped them come out. Ironically, despite the military's antigay policies, these men found that military service placed them in

environments where they had to come to terms with their erotic feelings for other men, and sent them overseas to places where they found greater freedom to explore their sexuality than they could have back home. While a few of Zeeland's buddies were targeted for discharge, most portray an atmosphere of sexually tense tolerance and reveal a surprising degree of openness with straight co-workers and roommates. The 16 fascinating interviews in *Barrack Buddies and Soldier Lovers* challenge popular assumptions and stereotypes about gay men in the military and provide significant information on: gay military sexual networks male sexual fluidity in barracks life strategies for survival as a gay or bisexual male in the U.S.

military German-American relations attitudes toward the gay ban The casual, conversational structure of Barrack Buddies and Soldier Lovers makes it a richly entertaining read. No other book provides such a warm and intimate portrait of the lives of young gay soldiers and airmen. Visit Steven Zeeland at his home page:

When physics grad student Fielding Monroe and skirt-chaser and football player Mick Colman become college housemates, they're both in for

a whole new education. Mick looks out for the absent-minded genius, and he helps Fielding clean up his appearance and discover all the silly pleasures his strict upbringing as a child prodigy denied him. They become best friends. It's all well and good until they run into a cheerleader who calls Mick the 'best kisser on campus.'

Fielding has never been kissed, and he decides Mick and only Mick can teach him how it's done. After all, the physics department's Christmas party is coming up with its dreaded mistletoe. Fielding wants to impress his peers and look cool for once in his life. The thing about Fielding is, once he locks onto an idea, it's almost impossible to get him to change his mind. And he just doesn't understand why his straight best friend would have a problem providing a little demonstration. Mick knows kissing is a dangerous game. If he gives in, it would take a miracle for the thing not to turn into a disaster. Then again, if the kissing lessons get out of hand they can always

Blue Latitudes - Tony Horwitz
2003-08-01

In an exhilarating tale of historic adventure, the Pulitzer Prize-winning author of *Confederates in the Attic* retraces the voyages of Captain James Cook, the Yorkshire farm boy who drew the map of the modern world. Captain James Cook's three epic journeys in the 18th century were the last great voyages of discovery. His ships sailed 150,000 miles, from the Arctic to the Antarctic, from Tasmania to Oregon, from Easter Island to Siberia. When Cook set off for the Pacific in 1768, a third of the globe remained blank. By the time he died in Hawaii in 1779, the map of the world was substantially complete. Tony Horwitz vividly recounts Cook's voyages and the exotic scenes the captain encountered: tropical orgies, taboo rituals, cannibal feasts, human sacrifice. He also relives Cook's adventures by following in the captain's wake to places such as Tahiti, Savage Island, and the Great Barrier Reef to

discover Cook's embattled legacy in the present day. Signing on as a working crewman aboard a replica of Cook's vessel, Horwitz experiences the thrill and terror of sailing a tall ship. He also explores Cook the man: an impoverished farmboy who broke through the barriers of his class and time to become the greatest navigator in British history. By turns harrowing and hilarious, insightful and entertaining, *BLUE LATITUDES* brings to life a man whose voyages helped create the 'global village' we know today.

Breaking Blue - Timothy Egan
2011-11-16

"No one who enjoys mystery can fail to savor this study of a classic case of detection."

—TONY HILLERMAN On the night of September 14, 1935, George Conniff, a town marshal in Pend Oreille County in the state of Washington, was shot to death. A lawman had been killed, yet there seemed to be no uproar, no major investigation. No suspect was brought to trial. More than fifty years later, the sheriff of Pend Oreille County, Tony Bamonte, in pursuit of both justice and a master's degree in history, dug into the files of the Conniff case—by then the oldest open murder case in the United States. Gradually, what started

out as an intellectual exercise became an obsession, as Bamonte asked questions that unfolded layer upon layer of unsavory detail. In Timothy Egan's vivid account, which reads like a thriller, we follow Bamonte as his investigation plunges him back in time to the Depression era of rampant black-market crime and police corruption. We see how the suppressed reports he uncovers and the ambiguous answers his questions evoke lead him to the murder weapon—missing for half a century—and then to the man, an ex-cop, he is convinced was the murderer. Bamonte himself—a logger's son and a Vietnam veteran—had joined the Spokane police force in the late 1960s, a time when increasingly enlightened and educated police departments across the country were shaking off the "dirty cop" stigma. But as he got closer to actually solving the crime, questioning elderly retired members of the force, he found himself more and more isolated, shut out by tight-

lipped hostility, and made dramatically aware of the fraternal sin he had committed—breaking the blue code. *Breaking Blue* is a gripping story of cop against cop. But it also describes a collision between two generations of lawmen and two very different moments in our nation's history.

Billy Bishop - Dan McCaffery
2017-09-01

Billy Bishop was the top Canadian flying ace in the First World War, credited officially with a record-breaking 75 victories. He was a highly skilled pilot and an accurate shot. Bishop went from being the most decorated war hero in Canadian history to a crusader for peace, writing the book *Winged Peace*, which supported international control of global air power. Author Dan McCaffery presents the life and accomplishments of Bishop through information he gathered from interviews and archival sources. This new illustrated edition of Dan McCaffery's book contains more than 50 photos of Bishop

and other First World War fliers including German and British air aces, plus artefacts from the collection now on display at Billy Bishop airport, Toronto.

Today Will Be Different -

Maria Semple 2016-10-04

* Instant New York Times Bestseller * A brilliant novel from the author of *Where'd You Go, Bernadette*, about a day in the life of Eleanor Flood, forced to abandon her small ambitions and awake to a strange, new future. Eleanor knows she's a mess. But today, she will tackle the little things. She will shower and get dressed. She will have her poetry and yoga lessons after dropping off her son, Timby. She won't swear. She will initiate sex with her

husband, Joe. But before she can put her modest plan into action-life happens. Today, it turns out, is the day Timby has decided to fake sick to weasel his way into his mother's company. It's also the day Joe has chosen to tell his office-but not Eleanor-that he's on vacation. Just when it seems like things can't go more awry, an encounter with a former colleague produces a graphic memoir whose dramatic tale threatens to reveal a buried family secret. **TODAY WILL BE DIFFERENT** is a hilarious, heart-filled story about reinvention, sisterhood, and how sometimes it takes facing up to our former selves to truly begin living.
