**I Love Jesus, But I Want to Die** Sarah J. Robinson 2021-05-11 A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our

deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

[The Chemistry Between Us](#) Larry Young PhD 2012-09-13 How much control do we have over love? Much less than we like to think. All that mystery, all that poetry, all those complex behaviors surrounding human bonding leading to the most life-changing decisions we'll ever make, are unconsciously driven by a few molecules in our brains. How does love begin? How can two strangers come to the conclusion that it would not only be pleasant to share their lives, but that they must share them? How can a man say he loves his wife, yet still cheat on her? Why do others stay in relationships even after the romance fades? How is it possible to fall in love with the "wrong" person? How do people come to have a "type"? Physical attraction, jealousy, infidelity, mother-infant bonding—all the behaviors that so often leave us befuddled—are now being teased out of the fog of mystery thanks to today's social neuroscience. Larry Young, one of the world's leading experts in the field, and journalist Brian Alexander explain how those findings apply to you. Drawing on real human stories and research from labs around the world, *The Chemistry Between Us* is a bold attempt to create a "grand unified theory" of love. Some of the mind-blowing insights include: Love can get such a grip on us because it is, literally, an addiction. To a woman falling in love, a man is like her baby. Why it's false to say society makes gender, and how it's possible to have the body of one gender and the brain of another. Why some people are more likely to cheat than others. Why we sometimes truly can't resist temptation. Young and Alexander place their revelations into historical, political, and social contexts. In the process, they touch on everything from gay marriage to why single-mother households might not be good for society. *The Chemistry Between Us* offers powerful

insights into love, sex, gender, sexual orientation, and family life that will prove to be enlightening, controversial, and thought provoking.

*Other People's Children* Lisa Delpit 2006-08-01 Winner of an American Educational Studies Association Critics' Choice Award and Choice Magazine's Outstanding Academic book award, and voted one of Teacher Magazine's "great books," Other People's Children has sold over 150,000 copies since its original hardcover publication. This anniversary paperback edition features a new introduction by Delpit as well as new framing essays by Herbert Kohl and Charles Payne. In a radical analysis of contemporary classrooms, MacArthur Award-winning author Lisa Delpit develops ideas about ways teachers can be better "cultural transmitters" in the classroom, where prejudice, stereotypes, and cultural assumptions breed ineffective education. Delpit suggests that many academic problems attributed to children of color are actually the result of miscommunication, as primarily white teachers and "other people's children" struggle with the imbalance of power and the dynamics plaguing our system. A new classic among educators, Other People's Children is a must-read for teachers, administrators, and parents striving to improve the quality of America's education system.

**The Things We Leave Unfinished** Rebecca Yarros 2021-02-23 Told in alternating timelines, THE THINGS WE LEAVE UNFINISHED examines the risks we take for love, the scars too deep to heal,

and the endings we can't bring ourselves to see coming. Twenty-eight-year-old Georgia Stanton has to start over after she gave up almost everything in a brutal divorce—the New York house, the friends, and her pride. Now back home at her late great-grandmother's estate in Colorado, she finds herself face-to-face with Noah Harrison, the bestselling author of a million books where the cover is always people nearly kissing. He's just as arrogant in person as in interviews, and she'll be damned if the good-looking writer of love stories thinks he's the one to finish her grandmother's final novel...even if the publisher swears he's the perfect fit. Noah is at the pinnacle of his career. With book and movie deals galore, there isn't much the “golden boy” of modern fiction hasn't accomplished. But he can't walk away from what might be the best book of the century—the one his idol, Scarlett Stanton, left unfinished. Coming up with a fitting ending for the legendary author is one thing, but dealing with her beautiful, stubborn, cynical great-granddaughter, Georgia, is quite another. But as they read Scarlett's words in both the manuscript and her box of letters, they start to realize why Scarlett never finished the book—it's based on her real-life romance with a World War II pilot, and the ending isn't a happy one. Georgia knows all too well that love never works out, and while the chemistry and connection between her and Noah is undeniable, she's as determined as ever to learn from her great-grandmother's mistakes—even if it means destroying Noah's career.

*Practical Ethics* Peter Singer 2011-02-21 For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think

about how she or he ought to live.

*My New Gender Workbook* Kate Bornstein 2013-08-06 "This updated edition of Bornstein's formative *My Gender Workbook* (1997) provides an invigorating introduction to contemporary theory around gender, sexuality, and power. The original is a classic of modern transgender theory and literature and, alongside Bornstein's other work, has influenced an entire generation of trans writers and artists. This revised and expanded edition extends that legacy, offering an accessible foundation for examining gender in the reader's life and in the broader culture while arguing for the dismantling of all forms of oppression. For fans of the original, Bornstein's new material merits a fresh read..."-- Publishers Weekly, starred review Cultural theorists have written loads of smart but difficult-to-fathom texts on gender theory, but most fail to provide a hands-on, accessible guide for those trying to sort out their own sexual identities. In *My Gender Workbook*, transgender activist Kate Bornstein brings theory down to Earth and provides a practical approach to living with or without a gender. Bornstein starts from the premise that there are not just two genders performed in today's world, but countless genders lumped under the two-gender framework. Using a unique, deceptively simple and always entertaining workbook format, complete with quizzes, exercises, and puzzles, Bornstein gently but firmly guides readers toward discovering their own unique gender identity. Since its first publication in 1997, *My Gender Workbook* has been challenging, encouraging, questioning, and helping those trying to figure out how to become a "real man," a "real woman," or "something else entirely." In this exciting new edition of her classic text, Bornstein re-examines gender in light of issues like race, class, sexuality, and language. With new quizzes, new puzzles, new exercises, and plenty of Kate's playful and provocative style, *My New Gender Workbook* promises to help a new

generation create their own unique place on the gender spectrum.

*Letting children be children* Independent Review of the Commercialisation and Sexualisation of Childhood 2011-06-06 This review by Reg Bailey, Chief Executive of Mothers' Union expresses the concerns at the commercialisation and sexualisation of childhood. We are all living in an increasingly sexual and sexualised culture and many parents feel that his culture is often inappropriate for their children. This leaves many feeling that children are being encouraged to grow up too quickly and that we don't allow them to be children. This is compounded in some new media where there is limited regulation. The review makes 14 recommendations covering 4 themes. The aims of these being: i) that sexualised images used in public places and on television, the internet, music videos and other places are more in line with what parents find acceptable, and that public space becomes more family-friendly; ii) that retailers do not sell or market inappropriate products or services for children; iii) that regulations protecting children from excessive commercial pressures are comprehensive and effective; and iv) that parents find it easier to voice their concerns, are listened to more readily when they do so and have their concerns visibly acted on by businesses and regulators. Ultimately of course these recommendations need to be implemented by broadcasters, advertisers, retailers, other businesses and regulators within a reasonable timescale
