The Emerging Lesbian - Tze-Lan D. Sang 2003-01-15

In early twentieth-century China, age-old traditions of homosocial and homoerotic relationships between women suddenly became an issue of widespread public concern. Discussed formerly in terms of friendship and sisterhood, these relationships came to be associated with feminism, on the one hand, and psychobiological perversion, on the other—a radical shift whose origins have long been unclear. In this first ever book-length study of Chinese lesbians, Tze-lan D. Sang convincingly ties the debate over female same-sex love in China to the emergence of Chinese modernity. As women's participation in social, economic, and political affairs grew, Sang argues, so too did the societal significance of their romantic and sexual relations. Focusing especially on literature by or about women-preferring women, Sang traces the history of female same-sex relations in China from the late imperial period (1600-1911) through the Republican era (1912-1949). She ends by examining the reemergence of public debate on lesbians in China after Mao and in Taiwan after martial law, including the important roles played by globalization and identity politics.

Controlling Desires - Kirk Ormand 2008-11-30

Historians of ancient Greece and Rome are sometimes hesitant to engage with the well-documented fact that Greek and Roman men regularly engaged in same-sex sexual relations with younger men. In a similar vein, scholars have constructed elaborate social explanations for Sappho, a 6th-century woman from the island of Lesbos who wrote passionate poetry about her erotic relations with a number of women, in order to avoid her apparent sexual orientation. On the other hand, in recent times the Greeks and Romans have occasionally been idealized as prototypes of modern homosexuality or bisexuality. In this engaging, cross-disciplinary book, Ormand argues that the Greeks and Romans thought of sex and sexuality in ways fundamentally different from our own. Ormand's exploration of Greek and Roman sexual practice allows readers the opportunity to see how attitudes and beliefs about sex—sexuality, in short—functioned in the early civilizations of the West, and how those attitudes reveal the unspoken rules that defined public and private behavior. Ormand treats Greece and Rome in separate sections, with ample cross-references and comparisons. Within each section, individual chapters focus on different types of texts and visual arts. Just as sexuality is presented differently in our legal cases than it is on television sitcoms, or supermarket tabloids, the reader will naturally find that the Greeks and Romans talk one way about sex, love, and marriage in legal speeches and another way in comedies, satires, and philosophical texts. Ormand's analysis takes into account changes in attitude over time, as well as different modes of presenting a complex and interconnected set of social beliefs and behaviors.

Unique - David Linden 2020-09-29

Inspired by the abundance of unique personalities available on dating websites, a renowned neuroscientist examines the science of what makes you, you. David J. Linden has devoted his career to understanding the biology common to all humans. But a few years ago he found himself on OkCupid. Looking through that vast catalog of human diversity, he got to wondering: What makes us all so different? *Unique* is the riveting answer. Exploring everything from the roots of sexuality, gender, and intelligence to whether we like bitter beer, Linden shows how our individuality results not from a competition of nature versus nurture, but rather from a *mélange* of genes continually responding to our experiences in the world, beginning in the womb. And he shows why individuality matters, as it is our differences that enable us to live together in groups. Told with Linden's unusual combination of authority and openness, seriousness of purpose and wit, *Unique* is the story of how the factors that make us all human can change and interact to make each of us a singular person.

Domestic Violence in Diverse Contexts - Sarah Wendt 2014-09-15

Overwhelmingly, it is women who are the victims of domestic violence and this book puts women's experiences of domestic violence at its centre, whilst acknowledging their many diverse and complex identities. Concentrating on the various forms of domestic abuse and its occurrence and manifestations within different contexts, it argues that gender is centrally implicated in the unique factors that shape violence across all these areas. Individual chapters outline the experiences of: Mothers Older women Women with religious affiliations Refugee women Rural women Aboriginal women Women in same-sex relationships Women with intellectual disabilities. Exploring how domestic violence across varying contexts impacts on different women's experiences and understandings of abuse, this innovative work draws on post-structural feminist theory and how these ideas view, and potentially allow, gendered explanations of domestic violence. *Domestic Violence in Diverse Contexts* is suitable for academics and researchers interested in issues around violence and gender.

Internet Lesbian and Gay Television Series, 1996-2014 - Vincent Terrace 2015-09-01

Created around the world and available only on the Web, internet "television" series are independently produced, mostly low budget shows that often feature talented but unknown performers. Typically financed through crowd-funding, they are filmed with borrowed equipment and volunteer casts and crews, and viewers find them through word of mouth or by chance. The third of five volumes on Internet TV series, this book covers 335 alphabetically arranged gay and lesbian programs, 1996-2014, giving casts, credits, story lines, episode descriptions, websites, dates and commentary. A complete index lists program titles and headings for gay, lesbian, bi-sexual, transgender and drag queen shows.

Suffering Sappho! - Barbara Jane Brickman 2023-11-10

An ever-expanding and panicked Wonder Woman lurches through a city

skyline begging Steve to stop her. A twisted queen of sorority row crashes her convertible trying to escape her queer shame. A suave butch emcee introduces the sequined and feathered stars of the era's most celebrated drag revue. For an unsettled and retrenching postwar America, these startling figures betrayed the failure of promised consensus and appeasing conformity. They could also be cruel, painful, and disciplinary jokes. It turns out that an obsession with managing gender and female sexuality after the war would hardly contain them. On the contrary, it spread their campy manifestations throughout mainstream culture. Offering the first major consideration of lesbian camp in American popular culture, *Suffering Sappho!* traces a larger-than-life lesbian menace across midcentury media forms to propose five prototypical queer icons—the sicko, the monster, the spinster, the Amazon, and the rebel. On the pages of comics and sensational pulp fiction and the dramas of television and drive-in movies, Barbara Jane Brickman discovers evidence not just of campy sexual deviants but of troubling female performers, whose failures could be epic but whose subversive potential could inspire. Supplemental images of interest related to this title: George and Lomas; Connie Minerva; Cat On Hot Tin; and Beulah and Oriole.

Lesbian Academic Couples - Michelle Gibson 2012-12-06

Learn how lesbian couples deal with political, social, and legal issues related to their relationships—and their professions *Lesbian Academic Couples* is a collection of writings by scholars who examine—in theory and in narrative—issues faced by partners working in the academic field, including the politics of spousal hiring, discrimination in hiring practices, collaboration between partners, long-distance relationships, team teaching, and job sharing. This unique book presents firsthand accounts from senior faculty with lengthy credentials in LGBT scholarship who have been able to land academic positions not compromised by outing, from established academics who have been outed to negative effect, from junior scholars with a queer specialty, and from faculty whose work is constantly shifting and unpredictable. The format of *Lesbian Academic Couples* is unique. Authors well known to the lesbian communities in the United States, Canada, and Australia, present essays that “converse” with one another, offering opposing positions that represent a diversity of approaches on vital issues. The book offers candid accounts of the experiences of lesbian couples fortunate enough to work in supportive academic environments and from those discouraged from being out on campus or from doing academic work in the area of LGBT studies. This groundbreaking book is especially timely given current lawsuits and legislation involving civil unions and domestic partner benefits, enforcement of domestic violence statutes, and the rights of unmarried older couples. *Lesbian Academic Couples* includes the stories of couples who: achieved scholarly success and a reaffirmed relationship were separated when they couldn't find viable academic positions in the same geographical area abandoned the security of tenured positions for the sake of their relationship were professionally marginalized because of their same-sex, mixed-race relationship wrote under the pen name “Michael Field” in the nineteenth century In addition, *Lesbian Academic Couples* examines the critical issues of: state sanctioning through marriage spousal hiring package plans sexual orientation nondiscrimination policies *Lesbian Academic Couples* have existed, as long as there have been female academics. Lesbian Dames - Caroline Gonda 2016-05-06

How are romantic and erotic relationships between women represented in the literature of the long eighteenth century? How does Sapphism surface in other contemporary discourses, including politics, pornography, economics and art? After more than a generation of lesbian-gay scholarship that has examined identities, practices, prohibitions and transgressions surrounding same-sex desire, this collection offers an exciting and indispensable array of new scholarship in gender and sexuality studies. The contributors - who include noted writers, critics and historians such as Emma Donoghue, George E. Haggerty, Susan S. Lanser and Valerie Traub - provide varied and provocative research into the dynamics and histories of lesbianism and Sapphism. They build on the work of scholarship on Sapphism and interrogate the efficacy of such a notion in describing the varieties of same-sex love between women during the long eighteenth century. This groundbreaking collection, the first multi-authored volume to examine lesbian representation and culture in this era, presents a diversity of theoretical and critical approaches, from close literary analysis to the history of reading and publishing, psychoanalysis, biography, historicism, deconstruction and queer theory.

Novel Approaches to Lesbian History - Linda Garber 2022-01-01

Novel Approaches to Lesbian History tells a tale about history and community in our allegedly post-identity era, examining contemporary novels that depict lesbian characters in recognizable historical situations. These imaginative stories provide a politically vital, speculative past in the face of a sketchy, problematic archive. Among the memorable characters in some 200 novels are pirates, cowgirls, and famous artists, ghosts and time travellers, immigrants and lovers. The best lesbian historical novels are conscientious and buoyant as they engage critical historiographical questions, but *Novel Approaches* also discusses the class and race biases that weigh on the genre. Some lesbian historical novels are based on archival evidence, others on conjecture or fantasy, but all convey the true fact that identity is elusive without a past, without which its future is nearly impossible.

Chapters include discussions of novels and short stories from American, Argentine, British, Canadian, French, German, and Japanese national literatures, ranging from the mid 19th century to the early 21st century.
