Spy - 1996-03

Smart. Funny. Fearless."It's pretty safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented" --Dave Eggers. "It's a piece of garbage" --Donald Trump.

The Easiest Way to Meet and Pick Up Girls-Ever!! - Dusty White 2006-07-27

As of January 2014 I am taking this book off of the market forever. I stated when I wrote this that it was not for mass public distribution. This book was always to be limited to under 10,000 copies. Sales have been astounding (far more than I ever imagined) and it is time to let the existing copies wear out, and return this information back to the few people who actually do it well. I have unpublished all digital versions of this book and they will not return either. This book will not be sold again. Thank you to everyone who read--and used it--when you did. That was an interesting period in my life. But that was then, and this is not then. This book takes all of the guesswork out of meeting women. It is not about relationships or raising a family, and it is not another hokey book on how to have some mysterious "secret power" over women. This book teaches you how to get a date tonight--without having to spend any money. Anyone can do this. You will approach women any time, anywhere, instantly getting them interested in knowing you, without feeling nervous or having to resort to pick-up lines. You will know what to say first, what to say after that, how to grab her attention and focus it exclusively on you--and get her number or a date on-the-spot. The first section of this book analyzes every possible way you could approach women. The second section of this book reveals a secret, devious way to pick up almost every woman you meet without her even guessing that you are working your magic on her. Subsequent sections provide help and troubleshooting guides. We won't make you a "guru of getting girls." We will get you "dates." The biggest problem most men have in getting dates is knowing how to approach attractive girls they see every day of the week (at the office, gas station, standing in line anywhere). Too many men rely on nightclubs, bars, and personal ads to get dates, ignoring the women they see e-v-e-r-y d-a-y.

[Human Sexuality](#) - Craig A. Hill 2007-08-08

"Although intended as a textbook, this accessible book could as well serve in an academic collection as a useful source of background material for a variety of readers." —CHOICE "Craig Hill's new text is a welcome addition to the textbooks available for undergraduate courses on human sexuality. It goes beyond the standard topics found in many books and seriously integrates social psychological research and theory on human sexuality. This book is just the type of serious treatment of psychological aspects of human sexuality that I have been seeking for some time for my course." —Irene Hanson Frieze, Professor of Psychology, University of Pittsburgh

Human Sexuality: Personality and Social Psychological Perspectives presents the topics typically covered in human sexuality courses, rooting the presentation in a strong psychological perspective. Author Craig Hill focuses on personality and social psychological theory to provide students with a conceptual understanding of the psychological factors involved in sexuality, and he encourages students to build upon that foundation by challenging them to think critically about the material in various ways. He also emphasizes the scientific investigation of sexuality, offering a solid review of the research literature. Key Features Focuses predominantly on the psychological aspects of sexuality: The topics covered and the organization of the book are ideally suited for instructors who wish to emphasize the psychological factors involved in sexuality. Stresses the symbiotic relationship between research and theory: The book provides a more accurate and complete understanding of the way in which science generates sound evidence that informs theories pertaining to sexuality and how those theories, in turn, inform further inquiry. Presents real-life examples: Personal anecdotes enable students to relate concepts and information to the lives of real people and to their own lives, making the information clearer and more meaningful to them. Integrates cultural diversity throughout: Race, ethnicity, and sexual orientation are considered in the topics covered and the examples employed. Helps develop critical thinking and analytic abilities: Analyze This: Looking at Different Perspectives; An Opportunity for Self-Reflection; and An Eye Toward Research boxes as well as end-of-chapter questions and caption questions allow students to delve further into the material, allowing them to think critically about current topics and their own lives. Intended Audience This is an excellent core text for both undergraduate and graduate courses on Human Sexuality particularly those offered in departments of psychology. Dating Basics 101 - David Linares 2019-12-20

Dating basics 101 is the first in a series, designed to help make man's journey in dating and relationships easier. Unlike other dating books, the simple, step by step, comprehensive formula combines modern day psychological principles and ancient philosophical thought to educate men on how to avoid embarrassment and to be successful in dating. Author David Linares starts by examining philosophical beliefs about women and dating, as well as common misconceptions that lead to anxiety and insecurity in men. He then offers effective ways to deal with these issues. Next, he explores the attitudes that women find attractive and interesting, how to effectively communicate with women, where to meet women, how to ask for a date, where to go, what to do, how to be romantic, and so much more. This innovative guide will explain how to have self confidence and to relax and enjoy the date. Some dating books help a certain kind of guy looking for a certain kind of girl. Others will explain how to get the girl, but not how to actually build up the confidence to do it. The primary purpose of Dating Basics 101 is to assist in gaining the knowledge and skills necessary to succeed in the world of dating.
