Gender Diversity in Indonesia - Sharyn Graham Davies 2010-02-25

Same-sex relations, transvestism and cross-gender behaviour have long been noted amongst a wide range of Indonesian peoples. This book explores dominant theories of gender and sexuality in relation to gender diversity in Indonesia. It discusses in particular intersexed groups, such as 'calalai', 'calabai' and 'bissu'.

Times Enmeshed - Gabriele Stürzenhofecker 1998

This book traces the formation of historical consciousness among the Duna people of Papua New Guinea and explores how this is constituted differently for men and women.

New Directions in Anthropological Kinship - Linda Stone, professor emeritus, Washington State University 2002-05-30

Following periods of intense debate and eventual demise, kinship studies is now seeing a revival in anthropology. *New Directions in Anthropological Kinship* captures these recent trends and explores new avenues of inquiry in this re-emerging subfield. The book comprises contributions from primatology, evolutionary anthropology, archaeology, and cultural anthropology. The authors review the history of kinship in anthropology and its theory, and recent research in relation to new directions of anthropological study. Moving beyond the contentious debates of the past, the book covers feminist anthropology on kinship, the expansion of kinship into the areas of new reproductive technologies, recent kinship constructions in EuroAmerican societies, and the role of kinship in state politics.

Encyclopedia of Sex and Gender - Carol R. Ember 2003-12-31

The central aim of this encyclopedia is to give the reader a comparative perspective on issues involving conceptions of gender, gender differences, gender roles, relationships between the genders, and sexuality. The encyclopedia is divided into two volumes: *Topics and Cultures*. The combination of topical overviews and varying cultural portraits is what makes this encyclopedia a unique reference work for students, researchers and teachers interested in gender studies and cross-cultural variation in sex and gender. It deserves a place in the library.

of every university and every social science and health department. Contents:- Glossary. Cultural Conceptions of Gender. Gender Roles, Status, and Institutions. Sexuality and Male-Female Interaction. Sex and Gender in the World's Cultures. Culture Name Index. Subject Index. Gender in Pre-Hispanic America - Cecelia F. Klein 2001

Gender in Pre-Hispanic America offers rich opportunities for comprehending current trends and considering future directions in research. It is unique in that it puts social theory at the forefront of the discussion. The book has a special intellectual presence and contemporary relevance in its engagement with the social lives and constructs of its authors and readers alike. The consideration of the role of gender in our daily lives, including in our professions, becomes inescapable when reading this book. It is not simply a question of men's roles having been possibly overemphasized and overstudied to the detriment of women's. The fact that genders, as opposed to sexes, are socially constructed categories focuses our attention on the ways in which these and other social constructs have shaped our present understanding of the past and informed past peoples' understand of their present. In various articles in this book, the reader will not find unanimity in what is meant by "gender" or how to go about studying it. What will be found, however, is a collection of interesting, informed, thought-provoking, and often lively essays. It is hoped that this volume will mark a stage in an evolving study of this field and provoke new research in the future.

The Kaleidoscope of Gender - Joan Z. Spade 2010-03-17

An accessible, timely, and stimulating introduction to the sociology of gender, *The Kaleidoscope of Gender: Prisms, Patterns, and Possibilities*, Third Edition, provides a comprehensive analysis of key ideas, theories, and applications in this field as viewed through the metaphor of a kaleidoscope. This collection of creative articles by top scholars explains how the complex, evolving pattern of gender is constructed interpersonally, institutionally, and culturally and challenges students to question how gender shapes their daily lives. Like the prior edition, the Third Edition maintains a focus on contemporary contributions to the field while

incorporating classical and theoretical arguments to provide a broad framework. Integrating a cross-cultural focus and intersectional inquiry, this unique text/reader vividly illustrates that gender is a malleable continuum of prisms, patterns, and possibilities.

Archaeology and Women - Sue Hamilton 2016-09-16

Archaeology and Women draws together from a variety of angles work currently being done within a contemporary framework on women in archaeology. One section of this collection of original articles addresses the historical and contemporary roles of women in the discipline. Another attempts to link contemporary archaeological theory and practice to work on women and gender in other fields. Finally, this volume presents a wide diversity of theoretical approaches and methods of study of women in the ancient world, representing a cross section of work being carried out today under the broad banner of gender archaeology. The geographical and chronological range of the contributions is also wide, from Southeast Asia and South America to Western Asia, Egypt and Europe, from Great Britain to Greece, and from 10,000 years ago to the recent past. An ideal sampler for courses dealing with women and archaeology.

Women Among Women - Jeanette Dickerson-Putman 1998

Cross-cultural in nature, the volume looks at relationships between women of different age groups in a village in Taiwan, a town in central Sudan, a rural setting in western Kenya, an Andean peasant community, a horticultural village in Melanesia, and an Aboriginal community in Australia. Adding an interspecies perspective is a study of two age groups of Japanese macaque monkeys. Included is an ethnographic bibliography that lists books with a wealth of information on women in sixty societies.

Webs of Power - Evelyn Blackwood 2000-01-12

Webs of Power offers a fresh perspective on women in Southeast Asia. Focusing on one rural Minangkabau village, the book provides vital insights into the gendered processes of post-coloniality. The Minangkabau living in West Sumatra are the largest matrilineal group in the world. They have intrigued generations of

scholars because they are matrilineal and Islamic. By exploring the contestations and accommodations women and men make with state and Islamic ideologies, *Webs of Power* discloses the processes at the heart of globalization as well as the complexities of kinship and power in a rural agricultural community. The book challenges conventional thinking about matriliney, showing the prominence of senior women in all aspects of village life.

A Necessary Balance - Lillian Alice Ackerman 2003

In the past, many Native American cultures have treated women and men as equals. In *A Necessary Balance*, Lillian A. Ackerman examines the balance of power and responsibility between men and women within each of the eleven Plateau Indian tribes who live today on the Colville Indian Reservation in north-central Washington State. Ackerman analyzes tribal cultures over three historical periods lasting more than a century--the traditional past, the farming phase when Indians were forced onto the reservation, and the twentieth-century industrial present. Ackerman examines gender equality in terms of power, authority, and autonomy in four social spheres: economic, domestic, political, and religious. Although early explorers and anthropologists noted isolated instances of gender equality among Plateau Indians, *A Necessary Balance* is the first book-length examination of a culture that has practiced such equality from its early days of hunting and gathering to the present day. Ackerman's findings also relate to an examination of European and American cultures, calling into question the current assumption that

gender equality ceases to be possible with the advent of industrialization.

Gender, Social Change and Spiritual Power - Jane E. Soothill 2007

Against a backdrop of debate concerning the role of Pentecostalism as a mediator of 'modernity', this book examines the interaction between charismatic Christianity, spiritual power and gendered social change in contemporary Ghana.

Gender and Women's Leadership - Karen O'Connor 2010-08-18

These volumes provide an authoritative reference resource on leadership issues specific to women and gender, with a focus on positive aspects and opportunities for leadership in various domains.

Beyond the Mind - Giuseppina Marsico 2018-04-01

This book *Beyond the Mind: Cultural Dynamics of the Psyche* is unusual in the content and its format. That's why it requires an unusual look. It has to do with a man, an intellectual journey and with uncountable travels across the world over the last two decades. This man is Jaan Valsiner and here you will read of his restless effort of elaborating ideas while going in different places as invited keynote. This book is mainly about his intellectual trajectory, which touches several places and several and interconnected topics. This book is about the "minutes" of his "bigger" and well organized works and also it is a collection of only apparently fragmented texts (mainly keynote lectures, unpublished or rejected papers) where the readers will see the "step-by-step" elaboration over the years of new ideas, theories, models and even schemas (which Jaan likes very much—maybe especially as he claims basic inability to draw anything).

Engaged Anthropology - Michelle Hegmon 2005-01-01

Women and Households in Indonesia - Juliette Koning 2013-11-19

Critically examines the usefulness of the 'household' concept within the historically and culturally diverse context of Indonesia, exploring in detail the position of women within and beyond domestic arrangements. So far, classical household and kinship studies have not studied how women deal with two major forces which

shape and define their world: local kinship traditions, and the universalising ideology of the Indonesian regime, which both provide prescriptions and prohibitions concerning family, marriage, and womanhood. Women are caught between these conflicting notions and practices. How they challenge or accommodate such forces is the main issue in this book.

Changing Sex and Bending Gender - Alison Shaw 2005

Anthropologists and historians have shown us that 'male' and 'female' are variously defined historically and cross-culturally. The contributions to this volume focus on the voluntary and involuntary, temporary or permanent transformation of gender identity. Overall, this volume provides powerful and compelling illustrations of how, across a wide

range of cultures, processes of gender transformation are shaped within, and ultimately constrained by, social and political context. From medical responses to biological ambiguity, legal responses to cases brought by transsexuals, the historical role of the eunuch in Byzantium, the social transformation of gender in Northern Albania and in the Southern Philippines, to North American 'drag' shows, English pantomime and Japanese kabuki theatre, this volume offers revealing insights into the ambiguities and limitations of gender transformation.

Beyond the Second Sex - Peggy Reeves Sanday 1990

Addresses the conflict, contradictions and ambiguities that are often encountered in field research.
