Essex Rock Ian Mercer 2022-06-15 All landscapes are built on rock: from hard stone for building with, to the softest clay or sand. Each piece of rock is a storehouse of prehistorical information; even a simple pebble from the garden has its own complex tale to tell. Geology is the great detective science that can unlock these secrets. In this entertaining and eye-opening book, the authors take a deep dive – quite literally – into their home county of Essex. We are all living in an ice age, an ongoing event that has hugely affected Essex over the last 3 million years. Yet this county was born more than 500 million years ago. Our story begins when the land we know as Essex was part of a large continent close to the South Pole, tracing the geological processes that continue to shape the countryside around us. The form of the land, boulders on village greens, road cuttings, cliffs, stones in church walls – they can all bring geology to light in unexpected and fascinating ways. Aimed at a general readership with no scientific background but equally appealing to the seasoned geologist, chapters progress from fundamentals to intricate details of geological investigations and cutting-edge research. Richly illustrated with photographs and colour diagrams, here the geology of a county is visualised and brought to life as never before, along with pertinent environmental insights in the light of climate change that is happening now.

St Peter-On-The-Wall Johanna Dale 2023-05-15 The Chapel of St Peter-on-the-Wall, built on the ruins of a Roman fort, dates from the mid-seventh century and is one of the oldest largely intact churches in England. It stands in splendid isolation on the shoreline at the mouth of the Blackwater Estuary in Essex, where the land meets and interpenetrates with the sea and the sky. This book brings together contributors from across the arts, humanities and social sciences to uncover the pre-modern contexts and modern resonances of this medieval building and its landscape setting. The impetus for this collection was the recently published designs for a new nuclear power station at Bradwell on Sea, which, if built, would have a significant impact on the chapel and its landscape setting. St Peter-on-the-Wall highlights the multiple ways in which the chapel and landscape are historically and archaeologically significant, while also drawing attention to the modern importance of Bradwell as a place of Christian worship, of sanctuary and of cultural production. In analysing the significance of the chapel and surrounding landscape over more than a thousand years, this collection additionally contributes to wider debates about the relationship between space and place, and particularly the interfaces between both medieval and modern cultures and also heritage and the natural environment.

East Anglia's History Christopher Harper-Bill 2002 Seventeen studies from the region's best scholars illuminate aspects of the history of Suffolk and Norfolk from the 11th century to the 20th.

Suffolk in the Middle Ages Norman Scarfe 2007-03 Norman Scarfe explores place names, the Sutton Hoo ship burial, the coming of Christianity, and the abbey at Bury St Edmunds, concluding with an evocative study of five Suffolk places - Southwold, Dunwich, Yoxford, and Wingfield and Fressingfield. The modern landscape of Suffolk is still essentially a medieval one, though much of it is even earlier: the five hundred medieval churches and ten thousand 'listed' houses 'of historic or architectural interest', and the 'Hundred'lanes going back at least to the tenth century, are often found to be set in a landscape created before the Roman conquest. *Suffolk in the Middle Ages* opens with a discussion of the earliest written records, the place-names, as a guide to settlement-patterns, including the setting of Sutton Hoo. Among the grave-goods found in that celebrated ship and discussed here was the whetstone-sceptre; asked to carry it from its showcase in the British Museum to the laboratory, the author acknowledges a closer feeling of involvement even than helping to re-open the ship in its mound in 1966. His explanation of the presence of the

whetstone-sceptre, printed here, has never been challenged. The identification of a carved Anglo-Saxon cross at Iken in 1977 prompted the essay here on St Botolph and the coming of East Anglian Christianity. This leads to a consideration of the Danish invasion of East Anglia, and a reexamination of the posthumous victory of King Edmund and Christianity as portrayed in an imaginary Breckland warren on the front of this book. Scarfe's carefully reasoned argument that the Metropolitan Museum's famous walrusivory cross was made for the monks' choir at Bury has never been refuted. Life in Bury abbey is vividly reconstructed: it was the most richly documented flowering of the work of East Anglia's apostles, Felix and Fursa, which also led to the phenomenal establishment in Suffolk by 1086 of four hundred of the five hundred medieval churches. In four East Suffolk essays, Southwold, Dunwich, Yoxford and Wingfield are exposed to Norman Scarfe's interpretative skills. He reveals a past few could have guessed at, often quite as curious as the 'Two Strange Tales' unravelled in his concluding pages.

Essex James Bettley 2007-01-01 Essex, one of the largest counties of England, stretches from the suburban fringes of East London to the fishing and sailing ports of Harwich and Maldon and the famous seaside resorts of Clacton, Frinton, and Southend. Its buildings encompass rich Roman survivals, powerful Norman architecture, and the remains of major Tudor and Jacobean country houses. Essex is first and foremost a county famed for its timber buildings, from the eleventh-century church at Greensted to the early and mighty barns at Cressing Temple, and a wealth of timber-framed medieval houses. Later periods have also made their contribution, from Georgian town houses to Victorian and Edwardian industrial and civic buildings, and from important exemplars of early Modern Movement architecture to the major monument of High Tech at Stansted Airport.

Defending Essex Mike Osborne 2013-02-01 For 2,000 years Essex, the county with the longest coast-line in England and dominating the eastern approaches to London, has been in the front-line against foreign invasion, from the Romans to the Spanish Armada to the two World Wars. It has also been involved in civil disorder, from the Anarchy and the Peasants' Revolt to the English Civil War. Many reminders of these scenes of conflict may be seen in the landscape - Iron Age forts, a Roman walled town, medieval castles, strong-houses and homestead moats, coastal fortifications from Napoleonic times and earlier, and Victorian barracks and the drill halls of the Volunteers. From the twentieth century there are still more sites:

military airfields from the First World War and Battle of Britain fighter airfields, radar sites and later bomber bases from the Second. Anti-invasion defenses line the coast, linear defenses criss-cross the landscape, and AA sites are everywhere to be found. Taking the story all the way up to the nuclear threat of the Cold War, this guide will interest residents and visitors alike.

The Essential Guide to Beachcombing and the Strandline Steve Trehwella 2021-06-08 Immerse yourself in the beachcombing experience; the wind in your face, the smell of salt spray, the roar of the ocean; it's an assault on the senses, the perfect tonic. From time immemorial people have been drawn to the beach to collect practical resources as well as mysterious objects that have fuelled myth and folklore - it is our inherent hunter-gatherer instinct. The beach strandline is also a wildlife habitat, home to a unique community of plants and animals, many found nowhere else. They create a rich and ever-changing oasis of life in the otherwise harsh environment of the beach. Whether you are a seasoned beachcomber, a casual visitor or an enthusiastic naturalist, this book is for you. It will satisfy your curiosity about each treasure found cast up on the beach, be it a pretty seashell or an exotic ocean voyager. • Descriptions of common and rare beach finds, both natural and man-made • Clear photographs showing objects and species as found on the strandline and in their natural habitat • Suggestions for family activities related to beachcombing • A comprehensive account of the living flora and fauna of the beach strandline • Information on threats and conservation measures for the marine and coastal environment

Cross Country Peter Ashley 2012-03-30 In Cross Country photographer and author Peter Ashley unleashes his passion for Blighty. He takes us on an enlightening jaunt that encompasses many of England's most loved regions. His love of buildings and landscape extends far beyond architecture in picturesque surroundings. By combining personal reminiscence and an ear for intriguing anecdote, he shows us with wit, and sometimes irreverent comment, just how richly varied the fabric of England is: abandoned Cornish tin mines above tide-washed caves; Norfolk boat sheds leaning on salt marches; Romney Marsh shepherd's houses disappearing behind roadside willows; and hedges looked over in Wiltshire. Local details are found in both Essex estuaries and Cumbrian sand dunes; and long abandoned railway lines are once again pressed into service to take us around his beloved High Leicestershire. Ashley never misses the curious and neglected - be it a sheep wash in the Cotswolds or a disused petrol pump in Herefordshire. He travels deep into the countryside he cares about. His wry observations allow us to rediscover and delight in what many of us might previously have deemed familiar territory.

The Thames Mick Sinclair 2012-04-24 It may not be the longest, deepest or widest river in the world but few bodies of water reveal as much about a nation's past and present, or as suggestive of its future, as England's River Thames. Tales of legendary lock-keepers and long-vanished weirs evoke the distant past of a river which evolved into a prime commercial artery linking the heart of England with the ports of Europe. In Victorian times, the Thames hosted regattas galore, its new bridges and tunnels were celebrated as marvels of their time, and London's river was transformed from sewer to centrepiece of the British Empire. Talk of the Thames Gateway and the effectiveness of the Thames Barrier keeps the river in the news today, while the lengthening Thames Path makes the waterway more accessible than ever before. Through quiet meadows, rolling hills, leafy suburbia, industrial sites and a changing London riverside, Mick Sinclair tracks the Thames from source to sea, documenting internationally-known landmarks such as Tower Bridge and Windsor Castle and revealing lesser known features such as Godstow Abbey, Canvey Island, the Sandford Lasher, and George Orwell's tranquil grave.

About England David Matless 2023-06-17 A cultural history of "Englishness" and the idea of England since 1960. Brexit thrust long fraught debates about "Englishness" and the idea of England into the spotlight. About England explores imaginings of English identity since the 1960s in politics, geography, art, architecture, film, and music. David Matless reveals how the national is entangled with the local, the regional, the European, the

international, the imperial, the post-imperial, and the global. He also addresses physical landscapes, from the village and country house to urban, suburban, and industrial spaces, and he reflects on the nature of English modernity. In short, *About England* uncovers the genealogy of recent cultural and political debates in England, showing how many of today's social anxieties developed throughout the last half-century.
