American Gardens Monty Don,2020-10-27 Monty Don, Britain's treasured horticulturalist, and renowned photographer Derry Moore explore iconic and little-known gardens throughout America. For years, Britain's much-loved gardener Monty Don has been leading us down all kinds of garden paths to show us why green spaces are vital to our wellbeing and culture. Now, he travels across America with celebrated photographer Derry Moore to trace the fascinating histories of outdoor spaces which epitomize or redefine the American garden. In the book, which complements the BBC television series, they look at a variety of gardens and outdoor spaces at the center of American history including the slave garden at Thomas Jefferson's Monticello estate, Longwood Gardens in Delaware, and Middleton Place in South Carolina. Together, they visit verdant oases designed by modernist architects such as Richard Neutra. They delve into urban outdoor spaces, looking at New York City's Central Park, Lurie Garden at the southern end of Millennium Park in Chicago, and the Seattle Spheres. Derry Moore gives his unique perspective on gardens across the United States, including several not featured in the TV series. These include unpublished photographs of Bob Hope's Palm Springs home and garden of renowned architect Frank Lloyd Wright. Featuring luscious photography and Don's engaging commentary, this book will leave you with a richer understanding of how America's most important gardens came to be designed.

**Buffalo Bird Woman's Garden** Gilbert L. Wilson,2009-06-30 This that I now tell is as I saw my mothers do, or did myself, when I was young. My mothers were industrious women, and our family had always good crops; and I will tell now how the women of my father's family cared for their fields, as I saw them, and helped them. --Buffalo Bird Woman

**The Long Walk** Brian Castner,2014-03-13 Brian Castner served three tours of duty in the Middle East, two of them as the commander of an Explosive Ordnance Disposal unit in Iraq. He and his team — his brothers — disarmed bombs. Sometimes they used robots and remote controls. Sometimes they set off controlled explosions. Sometimes one of the team would have to put on the eighty-pound Kevlar suit, take the Long Walk, and disarm the device by hand. Often they were simply too late; arriving just in time to pick up the pieces. In a hailstorm of bullets, bomb fragments, body parts and the endless wailing of innocent civilians, the days rolled into nights, yesterday turned into tomorrow, and today never even happened. But after the tour, the celebrations and the long plane ride home, the real war was just beginning. The war against the fear, the confusion, the guilt and the memory loss. The war against the Crazy. This exhilarating, heartbreaking, searingly honest memoir exposes two harrowing and simultaneous realities: the terror, excitement and camaraderie of combat, and the lonely battle against the enemy within.

**The Garden Bible** Barbara Ballinger and Michael Glassman,The Images Publishing Group,2015-11-10 Transforming outdoor space is one of the hottest home trends today. Landscaping expands living space square footage, makes a property more usable, and keeps homeowners healthier whether they grow vegetables or swim laps. It also makes a neighborhood more aesthetically attractive and community minded. The Garden Bible can help homeowners understand the challenges of

their outdoor space and what they need to do to create their garden and make it thrive. Photographed in rich full-color, this book will teach you how to develop a master plan for your yard. Many garden books explain how to grow specific flowers, care for shrubs, trees and lawn, and construct fences and hardscape. None take a homeowner from the beginning of the process: how to ask a professional the right questions, how to develop a budget, and how to identify and troubleshoot the challenges of their yard—drainage, erosion, privacy, noise, wind, too much or too little sun or shade. The Garden Bible will help you plan and problem solve so that your garden will grow, evolve, and be sustainable for years to come. Few books delve into landscaping style and cost-saving solutions as this insightful, beautifully illustrated book does. Barbara Ballinger, a well-known real estate, design and garden writer for more than four decades, and Michael Glassman, an award-winning landscape designer for over 35 years and author of seven books on landscape design and gardening, guide you through the process of designing your perfect garden. Showcasing the stories of how almost 30 home owners designed, budgeted and built their landscapes—The Garden Bible shows you that not only is a great garden beautiful to look at, but it's also great for the soul.

**The Truth About Organic Gardening** Jeff Gillman,2008-02-01 Gardeners tend to assume that any organic product is automatically safe for humans and beneficial to the environment—and in most cases this is true. The problem, as Jeff Gillman points out in this fascinating, well-researched book, is that it is not always true, and the exceptions to the rule can pose a significant threat to human health. To cite just one example, animal manures in compost can be a source of harmful E. coli contamination if improperly treated. Gillman's contention is that all gardening products and practices—organic and synthetic—need to be examined on a case-by-case basis to determine both whether they are safe and whether they accomplish the task for which they are intended. Ultimately, Gillman concludes, organic methods are preferable in most situations that gardeners are likely to encounter. After reading this eye-opening book, you will understand why, and why knowledge is the gardener's most important tool.

*The Tulip* Anna Pavord,2019-11-14 A revised and updated edition of the internationally bestselling classic Anna Pavord's now classic, internationally bestselling sensation, *The Tulip*, is not a gardening book. It is the story of a flower that has driven men mad. Greed, desire, anguish and devotion have all played their part in the development of the tulip from a wild flower of the Asian steppes to the worldwide phenomenon it is today. No other flower carries so much baggage; it charts political

upheavals, illuminates social behaviour, mirrors economic booms and busts, plots the ebb and flow of religious persecution. Why did the tulip dominate so many lives through so many centuries in so many countries? Anna Pavord, a self-confessed tulipomaniac, spent six years looking for answers, roaming through eastern Turkey and Central Asia to tell how a humble wild flower made its way along the Silk Road and eventually took the whole of Western Europe by storm. Sumptuously illustrated from a wide range of sources, this irresistible volume has become a bible, a unique source book, a universal gift and a joy to all who possess it. This beautifully redesigned edition features a new Preface by the author, a revised listing of the best varieties of this incomparable flower to choose for your garden and a reorganised listing of tulip species to reflect the latest thinking by taxonomists.

Walking the Great North Line Robert Twigger, 2020-04-23 Robert Twigger, poet and travel author, was in search of a new way up England when he stumbled across the Great North Line. From Christchurch on the South Coast to Old Sarum to Stonehenge, to Avebury, to Notgrove barrow, to Meon Hill in the midlands, to Thor's Cave, to Arbor Low stone circle, to Mam Tor, to Ilkley in Yorkshire and its three stone circles and the Swastika Stone, to several forts and camps in Northumberland to Lindisfarne (plus about thirty more sites en route). A single dead straight line following 1 degree 50 West up Britain. No other north-south straight line goes through so many ancient sites of such significance. Was it just a suggestive coincidence or were they built intentionally? Twigger walks the line, which takes him through Birmingham, Halifax and Consett as well as Salisbury Plain, the Peak district, and the Yorkshire moors. With a planning schedule that focused more on reading about shamanism and beat poetry than hardening his feet up, he sets off ever hopeful. He wild-camps along the way, living like a homeless bum, with a heart that starts stifled but ends up soaring with the beauty of life. He sleeps in a prehistoric cave, falls into a river, crosses a 'suicide viaduct' and gets told off by a farmer's wife for trespassing; but in this simple life he finds woven gold. He walks with others and he walks alone, ever alert to the incongruities of the edgelands he is journeying through.

**Designing a Garden** Michael Van Valkenburgh, 2019-10-15 The intimate Monk's Garden at the Isabella Stewart Gardner Museum in Boston embodies the design principles that inform the work of noted landscape architect Michael Van Valkenburgh. In *Designing a Garden*, Van Valkenburgh presents the design of the Monk's Garden at the Isabella Stewart Gardner Museum, an intimate, walled garden that Laurie Olin has described as a masterpiece, and not a minor one. The book documents the evolution of the garden's design, which is based on the concept of meandering paths through a dreamlike woodland to create a contemplative space. Sketches and models show how the idea was worked out, and lush photographs reveal the completed garden through the seasons. Van Valkenburgh's text explores the origins of his love of landscape and plants in his family farm in Upstate New York and how this has influenced his intuitions as a designer. He shares the full

background story of the Monk's Garden, focusing on the experimental nature of design work as well as the challenges and satisfactions of the small scale and the historic and cultural context. Designing a Garden provides a unique first-person account of the design process from the most prominent landscape architects in the country.

**Hellstrip Gardening** Evelyn Hadden, 2014-04-22 Presents a guide to creating a garden in such unused spaces as land beside a driveway, next to steps, or between the sidewalk and the street curb, discussing how to prepare the soil and listing the varieties of plants suitable for these conditions.
