What Matters Now Gareth O'Callaghan,2021-03-25 'Heart-breaking and uplifting, I defy anyone to read this memoir and not be affected by O'Callaghan's honesty and humanity' Irish Times In 2018, after receiving a life-changing diagnosis, broadcaster Gareth O'Callaghan retired from full-time work and gave up the career that he had loved for decades. In this deeply personal and inspiring memoir he tells that story, from the moments after his doctor uttered the words Multiple System Atrophy - a progressive and incurable neurological disease that ultimately carries a fatal prognosis - to his struggle to come to terms with a life unplanned. Recounted with insight and searing honesty, What Matters Now reveals how, regardless of circumstance, we can choose how we live, to the fullest. A stunning and life-affirming account of the power of the human spirit, and the potential for hope even in the darkest times. For me, this is not a choice. It's all I want, namely a full and loving life that I strive to choose every day over everything else - considering that maybe the big odds are heavily stacked against that. But I don't care what the odds might be; I'll keep defying them for as long as I can keep fighting and living.

A Year of Change Gareth O'Callaghan,2020-09-17 Gareth O'Callaghan is one of Irish radio's most popular and familiar voices.In 2018, after receiving a life-changing diagnosis, he retired from fulltime work and give up the career in radio that he had loved for decades. Here, in this deeply personal story, he tells his story of resilience, acceptance and hope. From the moments after his doctor uttered the words Multiple System Atrophy -- a rare, incurable, progressive neurological disease that has a fatal prognosis -- to coming to terms with a new way of living, and he explains how, slowly, inner reserves and determination supported him on the path he finds himself on. With his trademark empathy, insight and honesty, he looks at how, no matter what the circumstances, we can choose how we live and that every life must be lived to the fullest. For me, this is not a choice. It's all I want, namely a full and loving life that I strive to choose every day over everything else - considering that maybe the big odds are heavily stacked against that. But I don't care what the odds might be; I'll keep defying them for as long as I can keep fighting and living.

A Day Called Hope Gareth O'Callaghan,2004-03-01 For years Gareth O'Callaghan, one of Ireland's most popular broadcasters, suffered severe depression. No one guessed that as soon as he was off air, he would retreat to his bed, sometimes suicidal thoughts, and barely able to function as a husband and father of three small children. In this candid and

courageous account, he describes the nightmare he and his family lived through for so long. He looks back to his childhood where he believes his low self-esteem took root, and traces a pattern common to many. As soon as he was diagnosed, Gareth began a determined fight back to health. Now fully recovered and no longer on anti-depressants, he has emerged with a deep understanding of how depression takes hold - and how to loosen its grasp. Here he shares his insight, practical knowledge, and convictions in a mission to spread hope to all those affected by it.

The Dark Side of Silence Raymond Poole,2021-11-15 This collection of poetry is dedicated to all those children across the globe who struggle on a daily basis for food, shelter, comfort, and recognition of their existence. During a time of global pandemic, while First World countries rush to vaccinate their citizens, it is important to realise that none of us are safe until we are all safe. All of the author's profits raised from the sales of this book will be donated to UNICEF Ireland to help support those children whose lives are as important as those of our children and grandchildren. Mainly written under the light of the moon, *The Dark Side of Silence* is a poignant, contemplative reflection of the author's journey in life to date. Raymond has abandoned any formal structure whilst developing these poems so as to celebrate his neurodiversity from dyslexia and

autism. In summary it is a celebration of the individualism that exists in us all. The Dark Side Of Silence is a reminder of how vulnerable each of us is; but it is also a lesson about beauty and inner growth, and how they exist within that vulnerability, once we welcome it as a core part of what we are, and then immerse ourselves in it in the hope of finding out who we truly are. If we run away from our vulnerability, then we are running away from life. We cannot be truly alive unless we are truly vulnerable at the same time. Nor can we be truly alive if we lose the connection to the child each one of us once was, and, in so many ways, will always be. That child has made each of us who we are today.

Shiprocked Steve Conway,2009 ... Steve Conway tells of his time aboard the Ross Revenge : the excitement, and danger, of living on board ship for long spells, the constant challenge of keeping complex electronic equipment working in sometimes treacherous conditions (including the collapse of the ship's main mast in November 1987), and the camaraderie of working alongside people who, like him, were completely committed to the radio station--P. [4] of cover.

The Dynamics of Modern Rugby Bruce Davies,Julien Baker,2021-03-31 The modern game of rugby football has become gladiatorial, whereby muscular athletic players are involved in a form of collision chess with sophisticated defences smothering the offensive skills that were at one time a more dominant feature of the game. The contributors to this book consider the physical, mental and nutritional demands of the game in its present form and how best to acquire these attributes in the most effective and efficient manner. The inevitable injuries that are associated with collision are considered in terms of prevention and the most effective forms of treatment. New concepts to improve exercise capacity, game preparation and recovery are discussed in conjunction with the modern coaching theories of the game. The possible changes to the rules are discussed by two outstanding International referees, and the future vision for World Rugby is outlined by the President of World Rugby. The Dynamics of Modern Rugby is both a unique and contemporary addition to the rugby literature and, as such, is essential reading for any student, researcher, coach, sports scientist, physiotherapist, nutritionist or clinician with an interest in rugby.

Dare to Die Gareth O'Callaghan,1996-01-01

Belfast Days Eimear O'Callaghan,2022-02 Belfast 1972. It's the bloodiest year of the Northern Irish 'Troubles', and 16-year-old Eimear O'Callaghan, a Catholic schoolgirl in West Belfast, bears witness in her new diary. What follows is a unique and touching perspective into the daily life of an ordinary teenager coming of age in extraordinary times. The immediacy of the diary entries are complemented with the author's mature reflections written 40 years later. The result is poignant, shocking, wryly funny, and, above all, explicitly honest. Belfast Days is unique book that comes at a time when Northern Ireland is desperately struggling to come to terms with the legacy of its turbulent past. It provides a powerful juxtaposition of the ordinary everyday concerns of a 16-year-old girl - who could be any girl in any British or Irish city at this time, worrying about her hair, exams, boys, clothes, discos - with the unimaginable horror of a society slowly disintegrating before her eyes,

a seemingly inevitable descent into a bloody civil war, fuelled by sectarianism, hatred, and fear. Written by an experienced broadcaster and journalist who rediscovered her 1972 diary on the eve of the publication of the Saville Report (also known as the Bloody Sunday Inquiry), *Belfast Days* demonstrates how one person's examination of her own 'story' provided her with a new perspective on one of the darkest periods in 20th-century Irish and British history. *** ...the writing is extraordinary. -- Stephen Dubner, author of *Freakonomics* *** .*Brigid Jones in a war-zone.* -- Anne Cadwallader, author of *Lethal Allies* *** Eimear O'Callaghan's 1972 eloquent eye-witness testimony salutes the hard work, the persistence and the breathtaking courage of those who fought against tyranny and oppression for so many, many years! - *The Celtic Connection*, September 2015 [Subject: Memoir, History, Irish Studies, British Studies]

For Ava Vera Twomey,2019-08-09 What would you do to save your child? When Vera Twomey's daughter Ava was diagnosed with Dravet Syndrome, a rare form of epilepsy that causes multiple seizures a day, the family's life was thrown into chaos. Where they hoped to find treatment and support in the medical system, they found only frustration. The only medication that would have any effect on Ava's condition is a form of medicinal cannabis that was unavailable in Ireland. Thus began the family's fight to alleviate their daughter's suffering and give her a chance at life. Faced with an intransigent system and political establishment, Vera's campaign eventually culminated in her decision to walk from Cork to Leinster House in Dublin in protest to ask health minister Simon Harris for help in person. For Ava tells the story of the campaign for Ava's medication and the family's move to the Netherlands in order to legally access the medication that would save her life. It also pays tribute to the people who helped Vera achieve her goal. Above all, this is a moving story about the lengths a parent will go to for their child's health and happiness.

The Speed of Sound Thomas Dolby,2017-06-01 Thomas Dolby is a five-time Grammy nominee, whose 'She Blinded Me With Science' reached number 5 on the US Billboard charts in 1982, appeared in *Breaking Bad*, and was even covered by *The Muppets*... Based on his meticulous notes and journals, *The Speed of Sound* chronicles Dolby's life in the music business during the eighties; in Silicon Valley through the nineties, and at the forefront of the mobile phone revolution around the turn of the millennium - it was Dolby who created the synthesizer installed today on most mobile phones. With humour and a considerable panache for storytelling, *The Speed of Sound* is a revealing look behind the curtain of the music industry, as well as a unique history of technology over the past thirty years. From sipping Chablis with Bill Gates to visiting Michael Jackson at his mansion or viewing the Web for the first time on Netscape founder Jim Clark's laptop, this is both the view from the ultimate insider and also that of a technology pioneer whose groundbreaking ideas have helped shape the way we live today.

Crying into the Saucepan Nikki Hayes,2017-10-06 Well-known DJ Nikki Hayes has lived most of her life with *Borderline*

Personality Disorder (BPD), a serious mental disorder marked by a pattern of ongoing instability in mood, behaviour, self-image and functioning. BPD is also associated with severe functional impairment and high rates of suicide. Nikki should have been diagnosed aged fifteen the first time she came in contact with the mental health services with anorexia; or aged nineteen, after an attempted suicide; or aged thirty-four when she was diagnosed with post-natal depression. Instead, each time she was given a different diagnosis, none fully explaining her symptoms or actions. Nikki believes her illness went undetected for so long because a lot of how she was feeling and acting was easily explained away by lumping it under the umbrella term of 'depression', or by simply attributing it to attention seeking or just being a little out of control. By sharing her story Nikki hopes to help others see that they are not alone and encourage greater support for people suffering with mental health issues in Ireland. #StrongerTogether

The Spirit Engineer A. J. West, 2021-10-07 Belfast, 1914. Two years after the sinking of the Titanic, high society has become obsessed with spiritualism. In their collective grief they are attempting to reach their departed through séances. William Jackson Crawford is a man of science and a sceptic, but one night with everyone sitting around the circle, voices come to him seemingly from beyond the veil, placing doubt in his heart and a seed of obsession in his mind. Could the spirits truly be communicating with him or is this one of Kathleen's parlour tricks gone too far? Based on the true story of William Jackson Crawford and famed medium Kathleen Goligher, and with a cast of characters that includes Arthur Conan Doyle and Harry Houdini, West conjures a haunting tale that will keep you guessing until the end.

Robots, Ethics and the Future of Jobs Sean McDonagh, 2021-07-21 "I love my robot lawn mowers, my laptop, wifi, Google, Facetime, Whatsapp and the possibility of drone postal deliveries and more.. Yet worries nag about being overwhelmed by an artificial intelligence revolution whose ethical and moral parameters are less clear than its rampant profiteering from and monetising of your lives and mine. This hugely informative book shakes us out of our massage armchairs and demands that we engage immediately with these galloping advances so we can shape them to the benefit of the many and not leave them to the enrichment of the few at the awful cost of the impoverishment of swathes of humanity". Mary McAleese, former President of Ireland. *Robots, Ethics and The Future of Jobs* is a wakeup call for political, civic, media

and church leaders, urging a response to the deepening and accelerating pace of technological change and its potential consequences. Artificial Intelligence, robotics, drones, the internet of things and 3D printing are the building blocks of the 4th industrial revolution. These technologies offer great potential but also carry real risks and are reaching into every corner of our lives, civilian and military. Who will win and who will lose? Who will set the rules and the ethical boundaries within which they should develop and operate? Will the displaced be included, if so, how; or ignored and, if so, with what political, social and economic consequences? That these questions cannot be avoided and should not be postponed - and that we do not need to wait for change to happen because it is already upon us - are central messages of this thought provoking text. Pat Cox, former President European Parliament.
