Things You Wanted to Say But Never Did Geloy Concepcion, 2023-06-06 What are the things you wanted to say but never did? Photographer and artist Geloy Concepcion asked this introspective question on Instagram and paired the responses with his provocative art. This thought-provoking guided journal full of those admissions, photos, and original writing prompts reminds us that we are not alone. When Geloy immigrated to the United States from the Philippines, circumstances and discouragement nearly forced him to give up his passion for photography. Then he began to see people through a new lens. On a whim, he asked social media followers to tell him things they wanted to say but never did. He paired these authentic responses with photographs—not the polished portraits, but the blurry outtakes that capture real life. I wish you were here to witness the person I turned out to be. Will I ever make it? I just want to heal from the things I don't speak of. Soon thousands of answers poured in, each one a tribute to how what makes us uniquely broken also makes us universally human. In *Things You Wanted to Say But Never Did*, you're invited to explore these confessions, process your own thoughts and emotions, and find renewed hope. This interactive, photographic journal includes: Reflections to help you heal from losses and loneliness Guidance for shifting negative emotions into patterns of positive thinking? Inspiration to embrace creative expression and achieve new goals? Tear-away stationery featuring photos for writing notes to loved ones and strangers Lined pages to record your responses to the art, explore your own feelings, or document the words you may not be ready to share A stunning reminder of the role of art in a time of personal and global unrest, *Things You Wanted to Say But Never Did* shows how when we speak of our own pain, we can find and offer healing. It also makes a thoughtful gift for when someone is going through a difficult time. When we hear others' stories, we understand more deeply our own identity. And when we realize how our experiences connect us, even our silences prove we are not alone.

Creating Visual Narratives Through Photography Mike Davis, 2022-12-26 This book provides photographers with the foundation to craft more compelling photos from concept all the way through to creation and distribution, on the path to making a living. Based on real-life practice and experience, former National Geographic and White House visual editor, Mike Davis, takes readers on a journey starting with addressing the motivation behind an image and how this determines the rest of the creative process. He goes on to articulate best technical practices to create the narrative through photo composition and what to do with your work after the photos are completed. Each section offers exercises for applied learning and a series

of appendices cover assignments structures, a compilation of critical words and concepts, a comprehensive resource guide of organizations, competitions, grants, collectives and agencies, book publishers and printers, and more. This is an ideal resource for students and practitioners alike to gain a more informed understanding of photographic expression and learn how to effectively execute these visions.

The Last Tattooed Women of Kalinga Jake Verzosa, François Cheval, Natividad Sugguiyao, 2018-01-04 The Last Tattooed Women of Kalinga presents a series of portraits by Jake Verzosa who laments and celebrates a dying tradition of tattooing in villages throughout the Cordillera mountains in the northern Philippines. For nearly a thousand years the Kalinga women have proudly worn these lace-like patterns or batok on their skin as symbols of beauty, wealth, stature and fortitude. Applied as part of a painful ritual, the vivid tattoos--abstractions of motifs such as ferns, rice bundles, centipedes and flowing rivers--reflect a rite of passage and a powerful bond with nature. Yet today this intricate form of self-adornment has largely been abandoned due to changing aesthetic perceptions. Between 2009 and 2013, Verzosa traveled extensively to document the last generation of women with the batok. The resulting pictures reveal the artistic designs of the tattoos, as well as their symbolic functions as signs of social belonging and testimonies to personal struggle and triumph in which the skin becomes a story. Accompanying Verzosa's portraits is a detailed illustrated glossary of the tattoo types and their meanings.

La Pocha Nostra Guillermo Gómez-Peña, Saúl García-López, 2020-11-29 *La Pocha Nostra: A Handbook for the Rebel Artist in a Post-Democratic Society* marks a transformation from its sister book, *Exercises for Rebel Artists*, into a pedagogical matrix suited for use as a performance handbook and conceptual tool for artists, activists, theorists, pedagogues, and trans-disciplinary border crossers of all stripes. Featuring a newly reworked outline of *La Pocha Nostra's* overall pedagogy, and how it has evolved in the time of Trump, cartel violence, and the politics of social media, this new handbook presents deeper explanations of the interdisciplinary pedagogical practices developed by the group that has been labeled the most influential Latino/a performance troupe of the past ten years. Co-written by Guillermo Gómez-Peña in collaboration with *La Pocha Nostra's* artistic co-director Saúl García-López and edited by Paloma Martínez-Cruz, this highly anticipated follow-up volume raises crucial questions in the new neo-nationalist era. Drawing on field experience from ten years of touring, the authors blend original methods with updated and revised exercises, providing new material for teachers, universities, radical artists, curators, producers, and students. This book features: Introductions by the authors and editor to *Pocha Nostra* practice in a post-democratic society. Theoretical, historical, poetic, and pedagogical contexts for the methodology. Suggestions for how to use the book in the classroom and many other scenarios. Detailed, hands-on exercises for using *Pocha Nostra*-inspired methods in workshops. A step-by-step guide to creating large-scale group performances. New, unpublished photos of the *Pocha Nostra* methods in practice. Additional texts by Reverend Billy and Savitri D., Dragonfly, Francesca Carol Rolla, VestAndPage, Micha Espinosa, Zulfikar Ali Bhutto, Praba Pilar, L. M. Bogad, Anuradha Vikram, and Annie Sprinkle and Beth

Stephens, among many others. The book is complemented by the new book Gómez-Peña Unplugged: Texts on Live Art, Social Practice and Imaginary Activism (2008–2019).

Democracy Without Shortcuts Cristina Lafont, 2020-01-12 This book articulates a participatory conception of deliberative democracy that takes the democratic ideal of self-government seriously. It aims to improve citizens' democratic control and vindicate the value of citizens' participation against conceptions that threaten to undermine it. The book critically analyzes deep pluralist, epistocratic, and lottocratic conceptions of democracy. Their defenders propose various institutional "shortcuts" to help solve problems of democratic governance such as overcoming disagreements, citizens' political ignorance, or poor-quality deliberation. However, all these shortcut proposals require citizens to blindly defer to actors over whose decisions they cannot exercise control. Implementing such proposals would therefore undermine democracy. Moreover, it seems naive to assume that a community can reach better outcomes 'faster' if it bypasses the beliefs and attitudes of its citizens. Unfortunately, there are no 'shortcuts' to make a community better than its members. The only road to better outcomes is the long, participatory road that is taken when citizens forge a collective will by changing one another's hearts and minds. However difficult the process of justifying political decisions to one another may be, skipping it cannot get us any closer to the democratic ideal. Starting from this conviction, the book defends a conception of democracy "without shortcuts". This conception sheds new light on long-standing debates about the proper scope of public reason, the role of religion in politics, and the democratic legitimacy of judicial review. It also proposes new ways to unleash the democratic potential of institutional innovations such as deliberative minipublics.

The Loneliness of the Long-Distance Cartoonist Adrian Tomine, 2022-05-20 What happens when a childhood hobby grows into a lifelong career? *The Loneliness of the Long-Distance Cartoonist*, Adrian Tomine's funniest and most revealing foray into autobiography, offers an array of unexpected answers. When a sudden medical incident lands Tomine in the emergency room, he begins to question if it was really all worthwhile: despite the accolades and opportunities of a seemingly charmed career, it's the gaffes, humiliations, slights, and insults he's experienced (or caused) within the industry that loom largest in his memory. Tomine illustrates the amusing absurdities of how we choose to spend our time, all the while mining his conflicted relationship with comics and comics culture. But in between chaotic book tours, disastrous interviews, and cringe-inducing interactions with other artists, life happens: Tomine fumbles his way into marriage, parenthood, and an indisputably fulfilling existence. A richer emotional story emerges as his memories are delineated in excruciatingly hilarious detail. In a bold stylistic departure from his award-winning *Killing and Dying*, Tomine distills his art to the loose, lively essentials of cartooning, each pen stroke economically imbued with human depth. Designed as a sketchbook complete with place-holder ribbon and an elastic band, *The Loneliness of the Long-Distance Cartoonist* shows an acclaimed artist at the peak of his career.

Innovative Citizen Participation and New Democratic Institutions Catching the Deliberative Wave OECD,2020-06-10 Public authorities from all levels of government increasingly turn to Citizens' Assemblies, Juries, Panels and other representative deliberative processes to tackle complex policy problems ranging from climate change to infrastructure investment decisions. They convene groups of people representing a wide cross-section of society for at least one full day – and often much longer – to learn, deliberate, and develop collective recommendations that consider the complexities and compromises required for solving multifaceted public issues.

Perfect Strangers: New York City Street Photographs (Signed Edition) ,2020-10-27 Over the last seven years, Melissa O'Shaughnessy has photographed daily on the streets of New York. As one of a growing number of women street photographers contributing to this dynamic genre, O'Shaughnessy enters the territory with clarity and a distinctly humanist eye, offering a refreshing addition to the tradition of street photography. Through her curious and quirky vision, we witness the play of human activity on the glittering sidewalks of the city. Woven into her cast of characters are the lonely, the soulful, and the proud. She has fallen for them all--perfect strangers.

Light, Gesture, and Color Jay Maisel,2014-10-21 Jay Maisel, hailed as one of the most brilliant, gifted photographers of all time, is much more than that. He is a mentor, teacher, and trailblazer to many photographers, and a hero to those who feel Jay's teaching has changed the way they see and create their own photography. He is a living legend whose work is studied around the world, and whose teaching style and presentation garner standing ovations and critical acclaim every time he takes the stage. Now, for the first time ever, Jay puts his amazing insights and learning moments from a lifetime behind the lens into a book that communicates the three most important aspects of street photography: light, gesture, and color. Each page unveils something new and challenges you to rethink everything you know about the bigger picture of photography. This isn't a book about f-stops or ISOs. It's about seeing. It's about being surrounded by the ordinary and learning how to find the extraordinary. It's about training your mind, and your eyes, to see and capture the world in a way that delights, engages, and captivates your viewers, and there is nobody that communicates this, visually or through the written word, like Jay Maisel. *Light, Gesture & Color* is the seminal work of one of the true photographic geniuses of our time, and it can be your key to opening another level of understanding, appreciation, wonder, and creativity as you learn to express yourself, and your view of the world, through your camera. If you're ready to break through the barriers that have held your photography back and that have kept you from making the types of images you've always dreamed of, and you're ready to learn what photography is really about, you're holding the key in your hands at this very moment.

Real Scientists Don't Wear Ties Sidney Perkowitz,2019-07-30 *Real Scientists Don't Wear Ties* links science to general and popular culture and everyday life in an easy-to-understand style. When a gifted writer of science selects his best pieces published in the world's most reputable periodicals such as *Nature*, *Discover*, and *MIT Technology Review*, we get an

eminently readable collection of his varied work in book form. That it covers all-time relevant topics like quantum physics, gravitational waves, genetic engineering, space exploration, and artificial intelligence is an added delight. Prof. Perkwitz also discusses how science can be found in medical practice, cooking, soccer, and art, and also science and science fiction in the media. On the lighter side, he reports on his efforts to teach a computer to understand poetry, explains why scientists resist dressing up, and shows that unlike many people, scientists actually enjoy math.

The Art Of Critical Thinking Patrick Magana, Christopher Hayes, 2019-11-10 Do you want to improve your brain power by thinking critically in your daily life? Are you interested in deepening your understanding without judgement, bias, or manipulation? Are you seeking confidence in your arguments and wish to think more efficiently? If you find yourself wanting to know more about critical thinking strategies, you've found the perfect solution. This workbook is for the individual who wants to think clearly and organized - for the person who wants to make the best decisions for themselves. Unwritten Letters to You Todd B. LaBerge, 2015-01-08 *Unwritten Letters to You* is a collection of writings ranging from

heartbreak to longing for love. Within each page comes the words that are often so hard to speak, and with each chapter you will find that blood can be turned to ink. If you are dealing with lost love, longing for love, or if you are in love, then this book is for you.

Salt for Horses Stephanie Krahl,2013-11 Did you know that salt plays an important role in your horse's health and that there are a multitude of misconceptions about feeding it to horses? *Salt for Horses: Tragic Mistakes to Avoid* teaches you how to choose the right kind of salt for your horse and why this precious substance - when in its proper form - can provide essential nutrients to your horse. Stephanie Krahl, author of *Guiding Principles of Natural Horse Care*, reflects on the impact salt has on the health of your horse and the tragic mistakes even most well-established equine nutritionists are making in regard to this essential nutrient. This simple guide presents the reader with sound persuasive arguments about feeding salt to horses based on authoritative scientific information. Stephanie's conversational style of writing along with her ability to assimilate complex details into easy to understand concepts is invaluable to the reader. *Salt for Horses* is an indispensable guide for those real horse lovers who make their choices with intent and promote their horse's health naturally.

Something to Smile about Zig Ziglar,2009-06-22 *Something to Smile About* will give you a daily word of encouragement, which is the fuel of hope. It will also give you something to smile about and, on occasion, even a healthy laugh.

Assembling Alice Mookie Katigbak-Lacuesta,2021-10-26 Before and after the Battle of Manila, a Japanese spy and an American soldier have one thing in common: they both fall in love with Alice Feria, a pianist who would later become one of the first women journalists in the Philippines. Both would prove to be instrumental to her survival during the Japanese occupation and the liberation of Manila. *Assembling Alice* is a portrait of a woman as much as it is a portrait of the times she lived in. She came of age during the commonwealth period, survived both the occupation and the war, and did not write of her experiences as much as she spoke of them to those in her inner circle. Her experiences were sublimated into editorials she wrote for a small magazine called *The Filipino Home Companion* where she wrote of nation-building and what it meant or should mean to be a Filipino after the second world war. Inside these pages are the stories she told, and have been told about her.

Riviera ,2020-06-10 Photography. Art. RIVIERA documents the eerie fragments of existence left behind in one city. John Brian King photographed RIVIERA from 2016 to 2018 in Palm Springs, California, and its surroundings; a full-time resident at the time, he used a cheap instant film camera to give his photographs a unique, washed-out, hazy aesthetic. King depicts a city that is frozen in a visually arresting state of decline, cataloguing the totems of an absurd civilization. I wanted to photograph the Palm Springs that I lived in and interacted with every single day, King writes, the beautiful, the mundane, the ugly, the hot desolate nature of Coachella Valley. I wasn't interested in the tourism-board view of Palm Springs, of martinis by the swimming pool and candy-colored, Instagram-ready desert art installations. I was interested in the debris--

architectural and natural--left behind by generations of people who lived in or visited Palm Springs to escape, to exist, to die.

Death to the Fascist Insect John Brian King, 2019 Literary Nonfiction. California Interest. African & African American Studies. Political Theory. Crime. Edited by John Brian King. DEATH TO THE FASCIST INSECT is a compilation of the writings and transcribed recordings of the Symbionese Liberation Army (1973-75), a radical left-wing group based in the Bay Area of California. This publication chronicles the militant, if half-baked, political theories that inspired the SLA, as well as the ways that the SLA used violence and manipulation of the media to further the group's goal of provoking armed revolution from the underground. Founded by escaped convict Donald DeFreeze, aka Field Marshal Cinque, the SLA was mostly composed of young, largely white and middle-class men and women, whose stated aim was to destroy all forms of racism, sexism, and capitalism. One of the SLA's first acts was the murder of the Oakland superintendent of schools; SLA members went on to kidnap newspaper heiress Patricia Hearst, demand millions of dollars from her wealthy family for free food for people in need, and rob a bank in San Francisco with Hearst. Most of the SLA, including DeFreeze, died in a fire after a gun battle with police in Los Angeles, while Hearst was later pardoned. This publication features an introduction by editor John Brian King, a chronology of the SLA, the writings and transcribed recordings of the group presented in the context of events at the time, and a fifty-page appendix of notable articles, letters, and other texts related to the SLA.

Against Elections David Van Reybrouck, 2018-04-17 A small book with great weight and urgency to it, this is both a history of democracy and a clarion call for change. Without drastic adjustment, this system cannot last much longer, writes Van Reybrouck, regarded today as one of Europe's most astute thinkers. If you look at the decline in voter turnout and party membership, and at the way politicians are held in contempt, if you look at how difficult it is to form governments, how little they can do and how harshly they are punished for it, if you look at how quickly populism, technocracy and anti-parliamentarianism are rising, if you look at how more and more citizens are longing for participation and how quickly that desire can tip over into frustration, then you realize we are up to our necks. Not so very long ago, the great battles of democracy were fought for the right to vote. Now, Van Reybrouck writes, it's all about the right to speak, but in essence it's the same battle, the battle for political emancipation and for democratic participation. We must decolonize democracy. We must democratize democracy. As history, Van Reybrouck makes the compelling argument that modern democracy was designed as much to preserve the rights of the powerful and keep the masses in line, as to give the populace a voice. As change-agent, *Against Elections* makes the argument that there are forms of government, what he terms sortitive or deliberative democracy, that are beginning to be practiced around the world, and can be the remedy we seek. In Iceland, for example, deliberative democracy was used to write the new constitution. A group of people were chosen by lot, educated in the subject at hand, and then were able to decide what was best, arguably, far better than politicians would have. A fascinating, and workable idea has led to a timely book to remind us that our system of government is a flexible instrument,

one that the people have the power to change.
