

Generations Of Women

Kathleen Woodward

Generations of Women Historians Hilda L. Smith, Melinda S. Zook, 2018-07-11 This collection focuses on generations of early women historians, seeking to identify the intellectual milieu and professional realities that framed their lives. It moves beyond treating them as simply individuals and looks to the social and intellectual forces that encouraged them to study history and, at the same time, would often limit the reach and define the nature of their study. This collection of essays speaks to female practitioners of history over the past four centuries that published original histories, some within a university setting and some outside. By analysing the values these early women scholars faced, readers can understand the broader social values that led women historians to exist as a unit apart from the career path of their male colleagues.

Generations of Women Mariana Ruth Cook, 1998-01-01 Presents portraits of mothers and daughters--some photographs spanning up to five generations, and includes quotations from them about their relationships with each other

Generations Myriam Miedzian, Alisa Malinovich, 2013-09-03 "This is the first book to show the sweeping change among American women in this century, and to do so in an irresistible, intimate, and popular way." —Gloria Steinem The women in this landmark work of oral history are from diverse ethnic, geographic, and social backgrounds, and they tell stories about all aspects of their lives, from their professional and romantic experiences to sex discrimination and their own realized or unrealized aspirations. As in the best oral history, the stories these women candidly tell are vivid and often poignantly detailed. We hear accounts of rural, chore-filled childhoods at the beginning of the century, of contemporary teens without curfews, of dates that began with a chat with father in the parlor, of the sexual liberation of the 1960s, of women who worked in factories during World War II, of those who were pioneers in their professions, and of women who today struggle heroically to balance the demands of marriage or single mothering, work, and children. Sweeping in scope, and yet rooted in the details, emotions, and dilemmas of everyday life, the journey women have traveled over the century here becomes all the more dramatic, the transformation they have undergone all the more remarkable. *Generations* is a celebration of this transformation in all its complexity, an embracing and vibrant family scrapbook that belongs to all American women. "Generations tells us both how far we have come and how far we have yet to go." —Ruth Sidel, author of *Unsung Heroines: Single Mothers and the American Dream*

First Generations Carol Berkin, 1997-07-01 Indian, European, and African women of seventeenth and eighteenth-century

America were defenders of their native land, pioneers on the frontier, willing immigrants, and courageous slaves. They were also - as traditional scholarship tends to omit - as important as men in shaping American culture and history. This remarkable work is a gripping portrait that gives early-American women their proper place in history.

Three Generations of English Women Janet Ross,1888

Women of Their Time: Generation, Gender Issues and Feminism Jane Pilcher,2017-07-05 This book argues for the importance of age as a source of diversity and difference amongst women. It compares three generations of women's accounts of a range of gender issues, including the domestic division of labour, equality, abortion and sexuality. It also compares their understandings of and orientations toward the feminist movement. Drawing on Karl Mannheim's argument that an individual's location in historical time shapes their social outlooks or world views, it is shown that women of different ages do not share the same gendered life courses due to differing cohort memberships. Consequently, women of different ages interpret, define and give meaning to gender issues and to feminism in varied and contrasting ways. A key concern of the book is to show that findings from qualitative studies are an important supplement to surveys of cohort differences in women's gender attitudes, in that they are more revealing of the complex ways cohort influences the construction of gender issues, including the very language used to do so.

No Turning Back Helen Wilkinson,1994 Examines how values have changed between 1970 and 1993. Based on data collected through a random sample of 2,500, 15 to 75-year-old people interviewed in 1993.

Generations of Women ,1998 Contains black-and-white photographs of multiple generations of women, accompanied by brief essays in which the women discuss the bonds that hold their families together.

Figuring Age Kathleen Woodward,1999-03-22 Figuring Age engages the virtually invisible subject of older women in western culture. Like other markers of social difference, age is given meaning by a culture. Yet unlike gender and race, the subjects of age and aging have received little sustained attention. Central to Figuring Age is the crucial question of how women are aged by culture. How are older women represented in a visual culture that is dominated by images of youth in television, film, and life performance? How do psychoanalysis, rejuvenation therapy and hormone replacement therapy, the fashion system, cosmetic surgery, and midlife bodybuilding shape our views of aging as well as of the older body itself? What is the timing of aging? To what extent is aging a culturally-induced trauma?

More Than a Labour of Love Meg Luxton,1980 Based on participant observation and in-depth interviews, this book describes the work women do in their homes, caring for children and partners, and maintaining the house. It shows how their lives are shaped by domestic responsibilities and challenges the ways in which their work is neither recognized nor valued. Arguing that the work they do is socially necessary and central to the economy, it calls for a transformation of current social and economic relations.

African Women Mark Mathabane,2003-01-01 In *African Women*, bestselling author Mark Mathabane presents the deeply moving, often shocking, but ultimately inspiring stories of his grandmother, mother and sister. Coping with abuse, gambling, drunkenness and infidelity from the men they love or have been forced to marry, all three women defy African tradition, and the poverty and violence of life in a modern urban society, to make fulfilling lives for themselves and those they love in the belly of the apartheid beast in South Africa. A powerful piece of work...It is a pleasure to finally have a book concerned with issues of dire importance to women written sensitively by a man. -- Washington Post A finely crafted book that makes it easier to understand how the vicious cycles of abuse and oppression of women snowballed under apartheid. -- Christian Science Monitor Mathabane shifts his attention from the evils of racism to what may be the still more insidious and intractable problems of sexism as he describes in spare, moving prose the lives of his sister, mother and grandmother. -- The Wall Street Journal

Three Generations, Two Genders, One World Sylvia H. Chant, Cathy McIlwaine, 1998 Based on surveys in which young women or men interviewed their siblings, parents and grandparents on matters of relevance to gender, including gender roles and relations.

Emirati Women Jane Bristol-Rhys, 2010 In *Emirati Women*, Bristol-Rhys weaves together eight years of conversations and interviews with three generations of women, her observations of Emirati society in Abu Dhabi, the unflattering stereotypes commonly heard in the extensive expatriate communities, and discussions with her Emirati university students on topics ranging from marriage, independence, freedom, and the future.

Feminist Waves, Feminist Generations Hokulani K. Aikau, Karla A. Erickson, Jennifer L. Pierce, 2007 *Feminist Waves, Feminist Generations* challenges the static figuring of feminist generations that positions the second wave of feminist scholars against a homogeneous third wave. Based on life stories from contemporary feminist scholars, this volume emphasizes how feminism develops unevenly over time and across institutions and, ultimately, offers a new paradigm for theorizing the intersections between generations and feminist waves of thought. Mommie, 2015-12-22 *Mommies* is a remarkable photographic portrait of three generations of women in the family of

photographer Arlene Gottfried and an intimate story of the inevitable passage of time and aging. Pictured within, we are introduced to Gottfried's 100 year old immigrant grandmother, fragile mother, and reluctant sister over the breathtaking course of 35 years. An artist turning their eye on their own immediate family is a well explored theme, but Gottfried has achieved the sublime with a multi-decade long commitment to document the intimate lives of her nearest kin. Gottfried succeeds in creating a complete twentieth century portrait of four lives inextricably interwoven through relation, sickness, need, love, and the absence of her father-who passed away while Arlene was still young. Living as many mid-century Jewish New York families did, the Gottfrieds were not wealthy and lacked any trappings of luxury. Close examination of their world on Avenue A in Manhattan's Lower East Side reveals a dimly lit small apartment, cartons of budget saltines and groceries, chipped paint, damaged floor tiles, guarded loose change, and well worn clothes - details natural to the lives of many families of immigrants in New York. Mommie's testament to the passage of time, changes in the generations, losing loved ones and a familial experience at once both similar and unique to all.

Generations: Women, Age, and Difference ,2006

Women Lives Matter Lottie L Adams, 2019-08-09 Women Lives' Matter: Today and Tomorrow focuses on Traditional and Baby Boomer Women. These two generations share similar and different issues regarding life experiences. This book captures the best advice that these visionary women ever received and it identifies their unique character traits. It reflects what they consider their prize possessions and it gives the reason behind their biggest inspirations. Although, women between 18-35 can learn from this wealth of knowledge and wisdom, all generations can benefit from this book. This book can make a difference in the lives of women. It reassures them that women have some of the same issues and yet they are unique and different in other ways. These two generations have done a superb job of sharing how they made decisions, mistakes, and how they were motivated to learn from them. In addition, they were nurtured, encouraged, and educated. They expressed, being dedicated to a cause (for example, being the first one out of eighteen children in the family to complete high school). What a Legacy for other generations of women who may be afraid to follow their hopes and dreams. One Baby Boomer talked about experiencing the world through books. This book expresses how women lives' matter: today and tomorrow.
