George Nelson

George Nelson Stanley Abercrombie,1995 George Nelson (1908-1986), a pioneering modernist, ranks with Raymond Loewy, Charles Eames, and Eliot Noyes as one of America's outstanding designers. Nelson's office produced some of the twentieth century's canonical pieces of industrial design (including the ball clock, the bubble lamp, and the sling sofa), many of which are still in production. Nelson also made major contributions to the storage wall, the shopping mall, the multi-media presentation, and the open-plan office system. The author of this definitive biography was given access to Nelson's office archives and personal papers. He also interviewed more than 70 of Nelson's friends, colleagues, employees, and clients (including the late D.J. De Pree, former head of the Herman Miller Furniture Company and Nelson's chief patron) and obtained many previously unpublished images from corporate and private archives.

George Nelson Michael Webb,George Nelson,Marisa Bartolucci,2003-04 The Nelson office worked on the cutting edge of design and put to practical use their work in the 1959 American National Exhibition in Moscow - a triumph of technology and enlightened public relations at the height of the Cold War. Nelson himself pioneered the pedestrian shopping mall, developed a revolutionary concept of storage, and pushed the envelope on residential design. He collaborated with some of the foremost designers of his era, including Charles and Ray Eames, Alexander Girard, Isamu Noguchi, and Buckminster Fuller. With an abundance of images and an insightful essay by design critic Michael Webb, *Compact Design Portfolio: George Nelson* celebrates this inclusive genius of classic mid-twentieth century design.--BOOK JACKET.

Irving Harper Michael Maharam,2013-02-12 An intimate monograph of the professional and personal creations of a midcentury design legend. Irving Harper is the most famous designer you have never heard of. Working as an associate at the office of George Nelson in the 1950s and '60s, Harper was responsible for such icons of midcentury design as the Marshmallow sofa, the Ball clock, and numerous Herman Miller textile designs. Harper's unrecognized contribution to this seminal era of design, and his incredible paper sculptures (made in his spare time to relieve stress), are presented for the

first time in this book. An essay by design critic Julie Lasky introduces Harper's commercial design work, recognizable designs from graphics to domestic goods to furniture that are still coveted and appreciated today, designed for the offices of Raymond Loewy, George Nelson, and then his own studio Harper + George. The second part of the book documents Harper's extensive paper sculptures, which have never been exhibited. More than three hundred works fill Harper's house and barn in Rye, New York, where this array of fantastical people and animal sculptures was created from modest and inexpensive materials as diverse as spaghetti and toothpicks in addition to paper. Images of Harper's home, filled with furniture and objects of his own design as well as his paper sculptures, offer a rare glimpse into a Modern design enthusiast's paradise. Offering insight into an important era of American design as well as the prolific output of a creative mind, this book promises to be the first to recognize Irving Harper's contribution to the field and will appeal to fans of Modern design.
