Blush: Politics and other unnatural acts Barry Parham
2011-10-11 Includes the award-winning story "Razing Arizona!" Excerpts from Blush "At the Inauguration, a better tone was set when the incoming First Couple met the outgoing First Couple on the steps of the White House. There were hugs all round, and the incoming First Female Significant Other presented a gift to the outgoing First Female Significant Other. This kindness spurred the hovering photo-hounds into a frenzy of photo-hounding, until the Clintons leapt out of the First Shrubbery, stole the gift, and spirited it off to their First Legacy Museum. Bill Clinton then pardoned the shrubbery. "I'm building a politician, in case you're looking to buy one. For a while there, I was thinking of running for office myself. But I'm not going to lie to you. And there it is. If I can't lie to you, I'm not politically viable." "During a bone-chilling outbreak of global warming, Barack Obama was inaugurated President of the United States, and got three votes for the Papacy, and won the Rose Bowl. He immediately set the tone for his administration by having world-class musicians fake a music performance, while not paying their taxes. The new President then introduced us to his "twin-teleprompter" speaking style, making him look like he's constantly talking to 2 very tall voters on opposite sides of the room. Later in the month,

Little by Little We Won Peg A. Lamphier, PhD Women marched for equal pay, the President of the United States advocated an anti-immigration policy, and the income gap between the rich and poor continued to grow. And it was just the beginning of the 20th century. As a girl growing up in Italian Harlem, Angela Bambace needed answers. How could it be acceptable for women not to earn equal pay for equal work? Why were immigrants relegated to the factory jobs no one else would take and working under such dangerous and inhumane conditions? And why were the businessmen at the top getting richer and richer while the poor who worked for them struggled to provide for their own families? How could any of this be okay? But perhaps Angela's most consequential question was If not me, then who? Born to a father and married to a man who both believed a woman's place was in

Holding Your Square Christopher Mullins 2013-01-11 This book is about the meanings of masculinities within the social networks of the streets of an American city (St Louis, Missouri), and how these shaped perceptions and enactments of violence. Based on a large number of interviews with offenders the author provides a rich description of life on the streets, contextualizing criminal violence within this deviant subculture, and with a specific focus on issues of gender. The book provides one of the most detailed descriptions yet of the forms masculinity takes in disadvantaged communities in the United States. It establishes how street based gender identity motivated and guided men through violent encounters, exploring how men's relationships with women and their families instigated violence. One key issue addressed is why men resorted to violence in certain situations and not in others, exploring the range of choices open to them and how these opportunities were interpreted. The book makes a major contribution to the study of the relationship between masculinities and violence, making use of a much larger sample than elsewhere.

shadows for the right moment to demonstrate the grim necessity of the Black Flag program. His opportunity may arrive sooner than expected. At Langley, Karl Berg is appointed to a new position with the CIA's National Clandestine Service. As senior liaison to the Weapons of Mass Destruction (WMD) Intelligence Center, he makes a disturbing discovery. Russian Federation intelligence services are secretly scouring Europe to find Anatoly Reznikov, a rogue Russian scientist at the top of every nation's WMD watch list. While the Russians pursue Reznikov, Berg goes "off the books" again and sends one of Sanderson's Black Flag teams to investigate. Led by Daniel Petrovich, the team uncovers a twisted conspiracy aimed at striking a horrific blow against the West, with the frightening potential to bring the United States to its knees. Black Flagged Apex (Book 3): A tense alliance between General Sanderson and the CIA narrowly averts an apocalyptic attack by Islamic fundamentalists in Europe, but ultimately fails to recover the virus canisters. With the biological weapons still missing, the specter of an attack against the United States looms dangerously closer. Desperate to stop Al Qaeda, Daniel Petrovich's "black ops" team is sent to investigate the last lead provided by Anatoly Reznikov, the twisted scientist responsible for designing the virus. What they uncover will shake U.S. authorities to the core. Every canister of the Zulu Virus has been shipped to the United States... Back in Washington D.C., this startling revelation is intensified by a grim discovery. Suspected Al Qaeda cells under FBI surveillance have been simultaneously massacred, targets of a shadowy domestic terror organization with ties to a rising political movement. When Special Agent in Charge Ryan Sharpe discovers that Al Qaeda lost possession of every virus canisters in the coordinated attack, he deploys Task Force Scorpion to hunt down a new breed of terrorist and recover the virus. Black Flagged Vektor (Book 4): With the most recent bioterrorism threat against the United States neutralized, and Dr. Anatoly Reznikov in secret custody; CIA Deputy Director Karl

No Fear Marsha Coleman-Adebayo 2011-09-01 As a young, black, MIT-educated social scientist, Marsha Coleman-Adebayo landed her dream job at the EPA, working with Al Gore, assisting post-apartheid South Africa. But when she tried to get the government to investigate allegations that a multinational corporation was responsible for the deaths of hundreds of South Africans mining vanadium—a vital strategic mineral—she found that the EPA was the first line of defense for the corporation. When the agency stonewalled, Coleman-Adebayo blew the whistle. How could she know that the agency with a hippie-like logo would use every racist and sexist trick in their playbook in retaliation? The EPA cost her her career, endangered her family, and sacrificed more lives in the vanadium mines of South Africa—but also brought about an upwelling of support from others in the federal bureaucracy who were fed up with its crushing repression. Upon prevailing in court, Coleman-Adebayo organized a grassroots struggle to bring protection to all federal employees facing discrimination and retribution from the government. The No FEAR Coalition that she organized waged a two-year-long battle with Congress over the need to protect whistleblowers—and won. This book is her harrowing story.

and nothing has ever been able to tear them apart as they mature and find themselves in relationships and constant soul-searching. Through memorable characters, such as loudmouthed Candice, opinionated Miss Real, shy little Dookie, lovesick Miss Billy, and more, some funny, others insightful, they learn how to navigate in life. Mary realizes her jazzy poetic way with words at an early age, but a secret from the past that tore her mother and aunt apart is slowly doing the same to her until the explosive night when everyone is forced to face it head-on. Rainbow has longed to be loved for as long as she could remember but is considering washing her hands of love altogether after finding herself yet again left heartbroken and confused, until a man from her past returns ready to give her all that she's been missing. In his thought-provoking, coming of age, poetic debut novel, Dalvin Clifford expresses how day-to-day blues must be overcome in order for one to prosper. A sassy yet humorously honest story that dives headfirst into issues of love and forgiveness, Jazzy Zigzagin' Blues is guaranteed to take readers on a journey they will never forget.

Female Fans of the NFL Anne Cunningham Osborne 2015-09-16

In the past, sport, particularly football, has been defined as a male domain. Women's interest stereotypically ranges from gentle tolerance to active resistance. But increasingly, women are proudly identifying themselves as supporters of their teams, and have become highly desirable audiences for sport organizations and merchandisers. Football provides a unique site at which to examine the complex interplay between three theoretical areas: identity formation and maintenance, commercialization of cultural practices, and gender hegemony. This book explores how women experience their fandom, and what barriers exist for the female fan.

Upheaval Chris Holbrook 2009-09-11 In 1995, Chris Holbrook burst onto the southern literary scene with *Hell and Ohio: Stories of Southern Appalachia*, stories that Robert Morgan described as

"elegies for land and lives disappearing under mudslides from strip mines and new trailer parks and highways." Now, with the publication of *Upheaval*, Holbrook more than answers the promise of that auspicious debut. In eight interrelated stories set in Eastern Kentucky, Holbrook again captures a region and its people as they struggle in the face of poverty, isolation, change, and the devastation of land and resources at the hands of the coal and timber industries. In the title story, Haskell sees signs of disaster all around him, from the dangers inherent in the strip-mining machinery he and his coworkers operate to the accident waiting to happen when his son plays with a socket wrench. Holbrook employs a native's ear for dialect and turns of phrase to reveal his characters' complex interior lives. In "The Timber Deal," two brothers—Russell, a recovering addict recently released from prison, and Dwight, who hasn't worked since being injured in a coal truck accident—try to convince their upwardly mobile sister, Helen, to agree to lease out timber rights to the family land. Dwight is unable to communicate his feelings, even as he seethes with rage: "Helen can't see past herself, is what it is. If John James had fractured his back in two places, it'd be a different story. If he'd broke his neck, it'd be a different story told." Written with a gritty, unflinching realism reminiscent of the work of Larry Brown and Cormac McCarthy, the stories in *Upheaval* prove that Holbrook is not only a faithful chronicler and champion of Appalachia's working poor but also one of the most gifted writers of his generation.

Women, Warfare and Representation Emerald M. Archer
2017-07-13 *Women, Warfare and Representation* considers the various ways the American servicewoman has been represented throughout the 20th century and how those representations impact the roles she is permitted to inhabit. While women have a relatively short history in the American military, the last century shows an evolution of women's direct participation in war despite the need to overcome societal sex-role expectations. The primary

focus is on the American case, but Emerald Archer also introduces a comparative element, showing how women's integration in the military differs in other countries, including Great Britain, Canada and Israel. Adopting an interdisciplinary approach, the book draws on military history, theory and social psychology to offer a more complete and integrated history of women in the military and their representation in society.

But no matter how much he tried to walk the straight and narrow path, other people found ways to make sure he relived the mistake made. Rose was a young woman who lived one life but wished she lived another. As the heiress to a billion-dollar company, Rose felt trapped by her status and her father's demands that she get married and have kids before it was too late. With all the pressure, and her desire to be a regular person, Rose made a decision that would change her life in more ways than one. So when a botched kidnapping brought the two together, their worlds collided in a very unexpected way. Now Dre and Rose found themselves not only falling for each other but fighting for their lives as well. And if that wasn't bad enough, they also had to deal with a backstabbing girlfriend and a controlling father.

In the Company of Women Bonnie Watkins 1996 An oral history of the contemporary women's movement, these compelling personal stories describe the movement that has transformed American life from the 1960s to the present. In addition to reflections by political activists are accounts by homemakers, businesswomen, artists, factory workers, scientists, policewomen, and ex-prostitute, an Arctic explorer, and many others. Encountering this company of women will change the way readers understand the women's movement.

Women's Health 2007-12 Womens Health magazine speaks to every aspect of a woman's life including health, fitness, nutrition, emotional well-being, sex and relationships, beauty and style.

Human Blues Elisa Albert 2023-07-11 "Crackling and bighearted...A powerhouse [that] echoes with the truth that we find harmony when we listen first to ourselves." —Oprah Daily * "Takes off with magnificent speed and never lets up." —The New York Times * "Revolutionary." —NPR's Morning Edition * A Los Angeles Times and Publishers Weekly Best Book of the Year A provocative and "darkly funny" (Cosmopolitan) novel about a woman who desperately wants a child but struggles to accept the use of assisted reproductive technology—a "riotous, visceral" (Vanity Fair) send-up of feminism, fame, art, commerce, and autonomy. On the eve of her fourth album, singer-songwriter Aviva Rosner is plagued by infertility. The twist: as much as Aviva wants a child, she is wary of technological conception, and has poured her ambivalence into her music. As the album makes its way in the world, the shock of the response from fans and critics is at first exciting—and then invasive and strange. Aviva never wanted to be famous, or did she? Meanwhile, her evolving obsession with another iconic musician, gone too soon, might just help her make sense of things. Told over the course of nine menstrual cycles, this utterly original novel is a "fast, fiery, and often funny" (The Boston Globe) interrogation of our cultural obsession with childbearing. It's also the story of one fearless woman at the crossroads, ruthlessly questioning what she wants and what she's willing—or not willing—to do to get it.

Education and Cultural Politics Ivan Hugh Walters 2010-02-26

Education and Cultural Politics: Interrogating Idiotic Education is a conceptualization of protest and resistance against the cultural politics of oppression and domination of people of African descent in the Caribbean and North America. It is also a theorization of their redemption from being victims of racism, classism, sexism, and heterosexism. The book combines the theoretical models of discrimination and oppression through the use of the axis of the social evils to critically analyze the cultural politics of education in relation to black people in the African Diaspora. It does this through the lens of critical redemptive education which is seen through an Afrocentric philosophy. The book illustrates how the lives of black people are constructed by slavery and colonialism which have etched their mores into the black psyche. The book advocates the view that slavocracy, the colonial construction of black psyche, is not indelible. It can be deconstructed through conscience and reconstructed through a non-idiotic, liberatory education using the philosophy of critical redemptive education which fosters a genuine koinonia among black communities serving as the antidote for the current black nihilism in black communities which is the legacy of our oppressive existence.

HAPPIER. Since the dawn of time, when the first smitten caveboy tried to woo the object of his affections by shoving her into the mud, men have demonstrated that when it comes to women, they are profoundly stupid. And when it comes to men, women -- no matter how intelligent or mature -- are completely crazy. Based on this simple yet groundbreaking insight, comedy writers and real-life couple Howard J. Morris and Jenny Lee have devised a relationship guide that is refreshingly honest, completely hilarious, and surprisingly practical. Using their own crazy/stupid

romance as an example of these forces in action, they set out to explain why women ask questions that they absolutely do not want answered -- and why men persist in answering them. What are men really thinking -- or crucially, not thinking? Why do women view even the most mundane events through an emotional prism? Why do guys suck at being romantic? And why does every conversation with a woman lead back to whether or not she's fat? Using wit, hard-earned wisdom, and a highly entertaining he said/she said format, the authors explore the surprising method to his dumbness and the valid reasons behind her insanity, while providing real solutions to perennial relationship problems. By teaching men how and why they're stupid around women and showing women how to "control the crazy" for everybody's sake, *Women Are Crazy, Men Are Stupid* helps couples to reach the place where giving isn't giving in, needing isn't needy, and where the sexes can break the dysfunctional patterns and find a way to live lovingly, happily ever after.
