**Dataclysm** - Christian Rudder 2014-09-09
A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don’t need. In Dataclysm, Christian Rudder uses it to show us who we truly are. For centuries, we’ve relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook "likes" can predict, with surprising accuracy, a person’s sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America’s most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don’t think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe.
And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, Dataclysm is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

*My Formerly Hot Life* - Stephanie Dolgoff
2010-08-17

When men stop making lecherous catcalls and Spanx get comfortable in your lingerie drawer, when marketers target you for Activia instead of $200 premium denim, when you have to start wearing makeup to get that “I’m not wearing any makeup” glow and are “ma’amed” outside the Deep South, it may dawn on you that somehow you have crossed an invisible line: You are not the young, relevant, in-the-mix woman you used to be. But neither are you old, or even what you think of as middle-aged. You are no longer what you were, but not quite sure what you are. Stephanie Dolgoff calls this stage of a woman’s life “Formerly,” the state of mind and body she herself is in now: Her roaring twenties are behind her, but she’s not in hot flash territory, either. My Formerly Hot Life, showcasing Dolgoff’s wacky and wise observations about this little-discussed flux time, demonstrates that becoming a Formerly is intensely poignant if you’re paying attention, and hilarious even if you’re not. From fashion to friendship, beauty to body image, married sex to single searching, mothering to careering (or both), Dolgoff reveals the upside to not being forever 21—even as you watch the things you once thought were so essential to a happy life go the way of the cassette tape. You may be formerly thin, formerly cool, formerly (seemingly) carefree, formerly cutting-edge, but in reading My Formerly Hot Life you are reminded that you are finally more comfortable in your skin (formerly obsessed with your weight), finally following your instincts (formerly ruled by the opinions of others), and finally
happy with where you are (formerly focused on
the guy or job you thought would take you where
you thought you should be). While you may no
longer be as close to the media-machine-
generated idea of fabulous, you can do many,
many more things fabulously. Wildly
entertaining and inspiring, My Formerly Hot Life
proves that once you let yourself laugh about
that which is passing, life is richer, more fun,
and more satisfying. Despite what you’re led to
believe, growing older most certainly means
growing better.

How To Treat A Lady - Dee Ray 2020-08-28

In Praise of Older Women - Stephen Vizinczey
1990-10-15
"A cool, comic survey of the sexual education of
a young Hungarian, from his first encounter, as
a twelve-year-old refugee with the American
forces, to his unsatisfactory liaison with a
reporter's wife in Canada at the belated end of
his youth, when he was twenty-three . . .
elegantly erotic, with masses of that indefinable
quality, style . . . this has the real stuff of
immortality."—B. A. Young, Punch "A pleasure.
Vizinczey writes of women beautifully, with
sympathy, tact and delight, and he writes about
sex with more lucidity and grace than most
writers ever acquire."—Larry McMurtry,
Houston Post "Like James Joyce, who was as far
from being a writer of erotica as Dostoevsky,
Vizinczey has a refreshing message to deliver:
Life is not about sex, sex is about life."—John
Podhoretz, Washington Times "The gracefully written story of a young man growing up among older women . . . although some passages may well arouse the reader, this novel brims with what the courts have termed "redeeming literary merit."—Clarence Petersen, Chicago Tribune "A funny novel about sex, or rather (which is rarer) a novel which is funny as well as touching about sex . . . elegant, exact and melodious—has style, presence and individuality."—Isabel Quigly, Sunday Telegraph "The delicious adventures of a young Casanova who appreciates maturity while acquiring it himself. In turn naive, sophisticated, arrogant, disarming, the narrator woos his women and his tale wins the reader."—Polly Devlin, Vogue

Older Women in Europe - Isabella Paoletti
2022-09-30
This book is about older women’s strength, freedom, tenacity, determination, resilience, independence, social and political involvement and, in particular, it is about re-imagining ageing. Older women represent the great majority of older people. The book describes instances of age and gender discrimination and examples of social inclusion and protagonism of older women in Europe. It solicits a change in perspective, focusing on the necessary societal changes to make space to older people and older women in particular. How is society going to address age and gender discrimination in social and institutional settings? How should work settings change to effectively make space to older workers and in particular older women? How should the pension system change? How could public health systems could provide effective care to older people and be sustainable? This edited collection focuses on older women’s rights rather than their needs, adopting a human rights based approach. Preservation of older women’s dignity, autonomy and security is its central topic, that is, ensuring that their rights are recognised. This collection offers insights valuable to a wide array of human...
rights activists, professionals, policymakers and social scientists, and older women themselves. The Older Woman in Recent Fiction - Zoe Brennan 2014-12-09
This critical study explores late twentieth century novels by women writers—including Doris Lessing, May Sarton and Barbara Pym—that feature female protagonists over the age of sixty. These novels’ discourses on aging contrast with those largely pejorative ones that dominate Western society. They break the silence that normally surrounds the lives of the aged, and this book investigates how older female protagonists are represented in relation to areas such as sexuality, dependence and everyday life. Beginning with an investigation of popular opinions about aging and a survey of hypotheses from disciplines including gerontology, psychology and feminism, the text reviews literary critical attitudes toward fictions of aging; analyzes representations of physically dependent characters, whose anger over their failing bodies is often eased by relationships with their female friends; discusses how paradigms of female sexuality exclude the possibility of older women being sexually desirable; examines characters that live a contented life, finding a more polemical side to them than is noted in more conventional literary critiques; and analyzes the aged sleuth in classical detective fiction.

Drawing on the perspective of aging bodies in order to approach the study of contemporary Canadian women's fiction, the author seeks to understand body criticism in general because elderly physical experiences lay bare crucial assumptions of thinking through the body. It also investigates the mechanisms and effects of constructions of aging in order to combat the automatically negative reactions most readers have to the topic of old age.

**How to Date Younger Men** - Trina C. 2012-03-04

**ABOUT THE BOOK** "Older women, are beautiful lovers." So goes the song made famous by country crooner Ronnie McDowell in 1981. And he was right. For years, younger men of a certain type have always enjoyed the company of older women. The mystery, the worldliness, the experience - it's all something young men crave, and something many young women lack. The phenomenon of younger men having relationships with older women is nothing new. Silver screen legend Mae West, who coined the phrase, "Why don't you come up and see me some time?" kept a harem of young men well
into her 60s. Catherine the Great, the sexually independent Russian ruler, had a string of younger lovers, and the last one was 40 years her junior. Celebrity couples with an older women in recent years have included Courtney Cox and David Arquette (7-year difference), Vivica Fox and rapper 50 Cent (11-year difference), Cher and Rob Camilletti (18-year difference), and Madonna and Brahim Zaibat (29-year difference). And, of course, there's Demi Moore who is 16 years older than her now-estranged husband, Ashton Kutcher. EXCERPT FROM THE BOOK To get a man, any man, you have to put yourself out there. To get a younger man requires a little more work because some might overlook you automatically. This isn't because you're not attractive, it's simply because most men are hardwired to look for women their own age or younger. To find him, you must seek him. Join an online dating site, whether it's one designed specifically for cougar-cub romances or one that caters to mainstream romances. Whichever site you choose, be specific in your age limits. How old is too old? And how young is too young? Use an attractive recent photo, preferably a headshot where you're smiling or otherwise look appealing. Keep it classy, though. You want him to be curious to know more about you, not about how fast he can bed you. Pick up a hobby that interests you, but one which also attracts young men. Do you enjoy skiing? Join a singles club that welcomes all ages for skiers. Any outdoor activity such as hiking, bicycling and boating often have young, male devotees. Don't start heading to NASCAR races if you really don't enjoy it, but don't skip out on something simply because it might not attract younger men. Cooking classes are often filled with young men. You'd be surprised at how many 20-something men are picking up sewing! Don't worry if the object of your desire isn't single. Strike up a conversation with him anyway. He probably has plenty of single friends!... Buy a copy to keep reading! CHAPTER

_Hello, 31_ - Marion Scherer 2015-09

This is a book for adults of all ages, especially Boomer women. How many wish we could turn back the clock and erase the mistakes of youth - a face cream, if you will - for the soul? Hello, 31 is the story of an older woman who confronts her younger self on her wedding day, in an attempt to get her to change her ways. She is not acknowledged at first and is considered just the voice of conscience by her younger self, until an unexpected crisis forces "31" to see her older self. The interloper is told to get out of her life and leave her alone. With a mother's love, the older woman persists until the two find a way to look at all aspects of their life with a new interpretation on old perceptions. It becomes a tumultuous journey, however, when "31" demands to know her future! The older woman refuses to divulge what will happen, but does reveal to readers the impact of all that has been.

Marion Scherer has written several plays and short stories, all involving compelling moral issues such as the death penalty, losing a loved one, and the conflict surrounding human cloning versus the sanctity of human life. She began her professional career as a stage, television, and film actress. All became fodder for her writing. Her next novel is about human trafficking. The Victim, the Pimp and the John is a study of three lives that are interwoven in a tangled web of intrigue and despair. Many of her plays are written as one-woman shows, which the author has performed throughout the country. She lives in Southern California with her husband and their golden retriever, Sasha. "The authors argue that much of the research
into later life has neglected ethnic and cultural variation. Their aim is to help us to understand what is important in older women's lives across a range of ethnic groups. They have certainly achieved this in what is a readable and detailed analysis of their findings. Highly recommended."

Nursing Standard "...the first book to comprehensively examine the lives of older women from ethnic minorities in the UK as well as non-migrant White women. The authors draw on extensive qualitative research to provide novel ways of looking at the priorities and concerns of older women, providing insights into what enhances their quality of life. Mary Maynard and colleagues have written an outstanding book... Women in Later Life will be essential reading for students on undergraduate and postgraduate courses on gender, ethnicity and later life." Sara Arber, University of Surrey 

"...what is it like to be an older person and, particularly, an older woman? This carefully crafted and wide-ranging book seeks to answer this question...The book reminds us that age is a social construct, one which profoundly disadvantages women. For minority ethnic women, where this book makes an important contribution to a largely unexplored territory, the situation is even more dire. The authors have opened up a huge area of policy, demonstrating, despite the rhetoric of government, how badly we treat our elders." Professor Gary Craig, University of Hull

Britain, along with other Western and industrialized countries, has an ageing population. We already live in one of the demographically oldest societies to have ever existed and the population is going to get older. By 2020 it is estimated that one third of the population will be aged over 50. Furthermore, older women outnumber older men, since men tend to die at a younger age than women. In the academic mainstream relatively little is known about older women from minority ethnic communities. This groundbreaking book is based on interviews and focus groups with women of..."
different backgrounds and ethnicities whose lives illustrate the strength of character and optimism that have often enabled them to live through hard times but who, in general, view later life positively. In seeking to understand the relationships between age, gender and ethnicity, the authors focus on a number of key themes including: Family and networks Health and well being Religion, faith and spirituality Income, pensions and housing The meaning of identity and life course events Death and dying Women in Later Life will be key reading for students and practitioners with an interest in gender and/or issues surrounding later life.

No Stopping Us Now - Gail Collins 2019-10-15
The beloved New York Times columnist "inspires
women to embrace aging and look at it with a new sense of hope" in this lively, fascinating, eye-opening look at women and aging in America (Parade Magazine). "You're not getting older, you're getting better," or so promised the famous 1970's ad -- for women's hair dye. Americans have always had a complicated relationship with aging: embrace it, deny it, defer it -- and women have been on the front lines of the battle, willingly or not. In her lively social history of American women and aging, acclaimed New York Times columnist Gail Collins illustrates the ways in which age is an arbitrary concept that has swung back and forth over the centuries. From Plymouth Rock (when a woman was considered marriageable if "civil and under fifty years of age"), to a few generations later, when they were quietly retired to elderdom once they had passed the optimum age for reproduction, to recent decades when freedom from striving in the workplace and caretaking at home is often celebrated, to the first female nominee for president, American attitudes towards age have been a moving target. Gail Collins gives women reason to expect the best of their golden years.
