from various value chain actors who have been part of the Tropical Legumes (TL) projects, over the past twelve years. The Tropical Legumes projects led by ICRISAT in three parts (TLI, TLII and TLIII), constitute a major international initiative supported by the Bill & Melinda Gates Foundation (BMGF) and jointly implemented by the International Center for Tropical Agriculture (CIAT), International Institute of Tropical Agriculture (IITA) and National Agricultural Research Systems (NARS) partners from Sub-Saharan Africa and India. The project developed improved cultivars of common bean, cowpea, chickpea and groundnut (but also soya bean and pigeon pea cultivars in its initial phases) and delivers their seed to smallholders in BMGF-focus areas. It also strengthens the NARS and CGIAR's breeding programs and seed platforms to enhance their ability to deliver high and sustained outputs to smallholder farmers. The book

compiles the experiences of a diversity of actors within the grain legume value chains, with a focus on groundnut and common beans in Tanzania and Uganda, groundnut and cowpea in Nigeria, and groundnut in Ghana. All stakeholders involved share their thoughts on being part of a decade-long development project family. National agricultural research institutes, knowledge brokering organizations, NGOs, public and private seed companies, agro-dealers, individual seed entrepreneurs, farm-implement makers, farmer cooperatives, farmer groups, individual men and women farmers, middlemen, processors, traders and consumers were all involved in this project, and as such this book provides valuable insights for development workers, technical staff, and project managers.

Recommended Methods for the Identification and Analysis of Cannabis and Cannabis Products - United Nations Office on Drugs and Crime 2009

Cannabis products are the most widely trafficked drugs worldwide, and it also remains the most widely used drug worldwide. At the same time, production methods have become increasingly sophisticated, resulting in the availability in illicit markets of a wide range of cannabis products. This updated and significantly revised manual has been prepared taking into account both developments in analytical technology and advances in the science of cannabis. It is aimed at the harmonization and establishment of recommended methods of analysis for national drug analysis laboratories. The manual suggests approaches that may assist drug analysts in the selection of methods appropriate to the sample under examination and provide data suitable for the purpose at

hand, leaving room also for adaptation to the level of sophistication of different laboratories and the various legal needs.

Seeds of Foreverland - Tony Bertauski 2015-10-09

Harold Ballard's breaking point came in the sixth grade. John Lively was a mouth-breather that no one cared about. He was an over-sized sixth grader destined to be incarcerated. God wasted a body on him. Harold was a curious loner that sat in the back. Unlike John's family, Harold's parents loved him. They just didn't have time for him. They spent days in the basement working on something that would change the world. Sometimes it was weeks. Harold was tired of being forgotten and pushed around. He pushed back. That day would change the world. That day would change him into the man he was destined to become. His curiosity would lead him to Foreverland.

INTERVIEW WITH THE AUTHOR HOW IMPORTANT ARE NAMES TO YOU IN THIS BOOK. DID YOU CHOOSE

THEM BASED ON SOUND OR MEANING? Almost all of my books have names with special meaning, some foreshadowing a big twist. In *The Annihilation of Foreverland*, Reed's name was symbolic of his ability to tolerate suffering, bending in the face of gale forces but never breaking. WHERE DOES YOUR TOMORROW SPRING FROM? IN OTHER WORDS, HOW DID YOU COME UP WITH THE CRAZY WORLD? Sometimes, I can't remember how the story started by the time I get to the end. *The Annihilation of Foreverland* started with the premise of identity. I wanted to write it as a YA book in the science fiction dystopia genre in a way that slowly unfolded as well as questioned who we are and explore our fear of death, and what we're willing to do to avoid it. Like all of my stories, it does have a romantic angle mixed into the action. Because it should. GIVE YOUR BOOK THE BECHDEL TEST. IT HAS TO HAVE AT LEAST TWO (NAMED) WOMEN IN IT WHO TALK TO EACH OTHER

ABOUT SOMETHING BESIDES A MAN. I failed because there's only one female in The Annihilation of Foreverland.

However, the young adult sequel (Foreverland is Dead) passes with flying colors since its mostly female characters that rarely talk about men.

WHAT SORT OF BODY COUNT ARE WE TALKING HERE? The bodies die, but not necessarily the characters. Chew on that a second. DO YOU WANT YOUR TOMORROW TO MAKE IT BIG, AS IN JK ROWLINGS-BIG?

WHY OR WHY NOT? Believe it or not, no. Don't get me wrong, I'd like to make enough cash to pay off this house and send my kids to college, but I'll pass on fame and fortune. Anonymity is a blessing. YOU CAST YOUR CHARACTERS FOR A MOVIE.

WHO MAKES IT? In The Annihilation of Foreverland, I only casted two characters in my head while I was writing it. The Director is Jeff Bridges and Mr. Jones is Anthony Hopkins. It was like watching a movie as I wrote. HAVE YOU WRITTEN IN ANY OTHER GENRES BESIDES YA DYSTOPIAN?

WHAT DREW YOU TO YOU THIS GENRE? I've been fascinated by consciousness, identity and what this all means since I was young. I would read my grandfather's science fiction books with elements of artificial intelligence and alternate realities and wonder what happened when they died? I suppose that's why all of my writing deals with the big mysteries of life in one way or another. In a way, I write for my own exploration, in a sort of thought experiment approach, pulling apart our identities, exploring what makes us who we are. If I lost my memories, would I still be me? If I had my body parts replaced with synthetic replications, at what point would I not be me? Do I even need a body? What am I? A few years ago, I figured I'd write a romance novel. Since all of my books have a romantic element, I thought it would be fun. Halfway through the novel, I found myself thinking more and more about the next project—a dystopian idea. So 40,000 words in, I scrapped the

romance novel and got back to what I love. Science fiction.

Cannabis Growing - Martin Pals 2016-08-01

This book contains proven steps and strategies on growing cannabis indoors. Cultivating your own cannabis at home is a great way to get constant supply, avoid high prices and avoid shady dealers. Also, you get to decide the strains to grow. The cannabis plant is a plant of many benefits, and also many different preparation of cannabis. The most commonly known preparation is marijuana. This consists of the plant's flowers, subtending leaves and the stems of the female plant, which has been dried. Other common preparations include kief, hashish, tincture and hash oil. Not only are the foods grown healthier, a fresh herb garden will save you money. This book will show you: - -The several ways to start your cannabis from seed how to care for the plants in order to ensure the most yield. -Proven methods to vegetate and bud your female

plants, while keeping them from going to seed. -And finally how to harvest, curb and store your harvested cannabis.

which can help a woman (who is truly female), keep her head on straight and not get lost in a very dangerous game where she only stands to lose. Satan will try to convince women that they have the right to challenge the boundaries of their existence. This book more than anything can help a woman become a decent, loving, compassionate and honest wife. This is an excellent book to not only have as a reference book, but to read many times. The book

covers everything from the relationship to Allah (God) to Marriage and family. One of the most important features of a good woman, is her deep faith in God (Allah) (SWT), and her sincere conviction that whatever happens in this life, and whatever fate befalls her, only happens through the will and decree of God; whatever befalls a person would have been impossible to avoid, and whatever does not happen could not have been made to happen.
