Practical Female Psychology for the Practical Man -

Joseph W. South 2019-09-28
Practical Female Psychology for the Practical Man is a unique examination of women and relationships in an era of material equality between the sexes. Despite vast gains in the welfare of women, especially in the modern West, both men and women are finding relationships ranging from dating to marriage increasingly difficult. The author draws upon cutting edge science in evolutionary biology, and neuropsychology, and vast personal experience with women to distill some simple and practical principles men will find useful for creating and maintaining relationships with emotionally compatible women.

Sugar Girls & Seamen - Henry Trotter 2008

Sugar Girls & Seamen illuminates the shadowy world of dockside prostitution in South Africa, focusing on the women of Cape Town and Durban who sell their hospitality to foreign sailors. Dockside "sugar girls" work at one of the busiest cultural intersections in the world. Through their continual interactions with foreign seamen, they become major traffickers in culture, ideas, languages, styles, goods, currencies, genes and diseases. Many learn the seamen's tongues, develop emotional relationships with them, have their babies and become entangled in vast webs of connection. In many ways, these South African mermaids are the ultimate cosmopolitans,

the unsung sirens of globalisation. Based on fifteen months of research at the seamen's nightclubs, plus countless interviews with sugar girls, sailors, club owners, cabbies, bouncers and barmaids, this book provides a comprehensive account of dockside "romance" at the southern tip of Africa. Through stories, analysis and first-hand experiences, it reveals this gritty world in all its raw vitality and fragile humanity. Sugar Girls & Seamen is simultaneously racy and light, critical and profound.

Native American Verbal Art -

William M. Clements 1996-10

For more than four centuries, Europeans and Euroamericans have been making written records of the spoken words of American Indians. While some commentators have assumed that these records provide absolutely reliable information about the nature of Native American oral expression, even its esthetic qualities, others have dismissed them as inherently unreliable. In *Native American Verbal Art: Texts and Contexts*, William Clements offers a comprehensive treatment of the intellectual and cultural constructs that have colored the textualization of Native American verbal art. Clements presents six case studies of important moments, individuals, and movements in this history. He recounts the

work of the Jesuits who missionized in New France during the seventeenth and eighteenth centuries and textualized and theorized about the verbal expressions of the Iroquoians and Algonquians to whom they were spreading Christianity. He examines in depth Henry Timberlake's 1765 translation of a Cherokee war song that was probably the first printed English rendering of a Native American "poem." He discusses early-nineteenth-century textualizers and translators who saw in Native American verbal art a literature manquē that they could transform into a fully realized literature, with particular attention to the work of Henry Rowe Schoolcraft, an Indian agent and pioneer field collector who developed this approach to its fullest. He discusses the "scientific" textualizers of the late nineteenth century who viewed Native American discourse as a data source for historical, ethnographic, and linguistic information, and he examines the work of Natalie Curtis,

whose field research among the Hopis helped to launch a wave of interest in Native Americans and their verbal art that continues to the present. In addition, Clements addresses theoretical issues in the textualization, translation, and anthologizing of American Indian oral expression. In many cases the past records of Native American expression represent all we have left of an entire verbal heritage; in most cases they are all that we have of a particular heritage at a particular point in history. Covering a broad range of materials and their historical contexts, Native American Verbal Art identifies the agendas that have informed these records and helps the reader to determine what remains useful in them. It will be a welcome addition to the fields of Native American studies and folklore.

Angels and Earthly Creatures - Claire M. Waters 2004-01-14
Texts by, for, and about preachers from the twelfth to the fourteenth centuries reveal an intense interest in the preacher's human nature and its intersection with his "angelic" role. Far from simply denigrating embodiment or excluding it from consideration, these works recognize its centrality to the office of preacher and the ways in which preachers, like Christ, needed humanness to make their performance of doctrine effective for their audiences. At the same time, the texts warned of the preacher's susceptibility to the fleshly failings of lust, vainglory, deception, and greed.

juxtaposition of the earthly and the spiritual made images of women preachers, real and fictional, key to understanding and exploiting the power, as well as the dangers, of the feminized flesh. Addressing the underexamined bodies of the clergy in light of both medieval and modern discussions of female authority and the body of Christ in medieval culture, *Angels and Earthly Creatures* reinserts women into the history of preaching and brings together discourses that would have been intertwined in the Middle Ages but are often treated separately by scholars. The examination of handbooks for preachers as literary texts also demonstrates their extensive interaction with secular literary traditions, explored here with particular reference to Chaucer's *Canterbury Tales*. Through a close and insightful reading of a wide variety of texts and figures, including Hildegard of Bingen, Birgitta of Sweden, and Catherine of Siena, Waters offers an original examination of the preacher's unique role as

an intermediary—standing between heaven and earth, between God and people, participating in and responsible to both sides of that divide.

Seduce Me By Christmas -

Alexandra Ivy 2014-11-01

An illegitimate London actor delves into his past and finds a beautiful woman in this holiday Regency romance by a New York Times–bestselling author.

Dear Reader, Long before I started writing paranormal romance, I wrote historical romance novels as Deborah Raleigh. Now I'm thrilled to share my favorites with a whole new readership. Prepare to be seduced by Raoul

Charlebois, one of the heroes in my trilogy about three mysterious men for whom illegitimacy poses no obstacle . . . Raoul Charlebois abandoned

his wild life to search out answers to his dark past—yet his reputation as a rake persists. Now it has followed him to a gamekeeper's cottage, where beautiful, innocent Sarah Jefferson resides. In all his exploits, Raoul has never met such a woman. But Sarah will have no part in whatever the wickedly handsome visitor wants—until she realizes what he wants is her. And amid the seductive scent of evergreen

and falling snow, she is persuaded that maybe there is some goodness to be found in Raoul. After all, Christmas has a way of bringing lost souls together . . . I hope you enjoy reading these sensual, romantic tales as much as I enjoyed writing them! With love, Alexandra Ivy

Non-Verbal Predication in Ancient Egyptian - Antonio Loprieno 2017-10-23

The Egyptian language, with its written documentation spreading from the Early Bronze Age (Ancient Egyptian) to Christian times (Coptic), has rarely been the object of typological studies, grammatical analysis mainly serving philological purposes. This volume offers now a detailed analysis and a diachronic discussion of the non-verbal patterns of the Egyptian language, from the Pyramid Texts (Earlier Egyptian) to Coptic (Later Egyptian), based on an extensive use of data, especially for later phases. By providing a narrative contextualisation and a

linguistic glossing of all examples, it addresses the needs not only of students of Egyptian and Coptic, but also of a linguistic readership. After an introduction into the basic typological features of Egyptian, the main book chapters address morphology, syntax, semantics and pragmatics of the three non-verbal sentence types documented throughout the history of this language: the adverbial sentence, the nominal sentence and the adjectival sentence. These patterns also appear in a variety of clausal environments and can be embedded in verbal constructions. This book provides an ideal introduction into the study of Egyptian historical grammar and an indispensable companion for philological reading.
