**Girl Scout Council of the Nation's Capital** - Ann E. Robertson on behalf of the Girl Scout Council of the Nation's Capital, Foreword by Gertrude (Bobby) Lerch 2013

Girl Scouting came to Washington, DC, in June 1913 when Juliette Gordon Low decided her new girls empowerment movement needed a national headquarters. Although the headquarters moved to New York City in 1916, the council in Washington, DC, is still actively involved in the programs. *Girl Scouts of the Nation's Capital* chronicles the evolution of Girl Scouting in the District of Columbia, Maryland, Virginia, and West Virginia from 1913 to the present. It includes photographs from the Little House, where first ladies dropped by for housekeeping demonstrations, and the teahouses, where presidents enjoyed fresh beverages and cakes graciously served by Girl Scouts. Some 200 photographs will rekindle memories of making new friends, earning badges, spending summer nights at Camp May Flather, taking road trips to Rockwood, attending freezing inaugural parades, hiking along the Chesapeake & Ohio Canal, and participating in enormous sing-alongs around the Washington Monument."

*The SAGE Encyclopedia of Economics and Society* - Frederick F. Wherry 2015-09-01

Economics is the nexus and engine that runs society, affecting societal well-being, raising standards of living when economies prosper or lowering citizens through class structures when economies perform poorly. Our society only has to witness the booms and busts of the past decade to see how economics profoundly affects the cores of societies around the world. From a household budget to international trade, economics ranges from the micro- to the macro-level. It relates to a breadth of social science disciplines that help describe the content of the proposed encyclopedia, which will explicitly approach economics through varied disciplinary lenses. Although there are encyclopedias of covering economics (especially classic economic theory and history), the SAGE Encyclopedia of Economics and Society emphasizes the contemporary world, contemporary issues, and society. Features: 4 volumes with approximately 800 signed articles ranging from 1,000 to 5,000 words each are presented in a choice of print or electronic editions Organized A-to-Z with a thematic Reader's Guide in the front matter groups related entries Articles conclude with References & Future Readings to guide students to the next step on their research journeys Cross-references between and among articles combine with a thorough Index and the Reader's Guide to enhance search-and-browse in the electronic version Pedagogical elements include a Chronology of Economics and Society, Resource Guide, and Glossary This academic, multi-author reference

work will serve as a general, non-technical resource for students and researchers within social science programs who seek to better understand economics through a contemporary lens.

**Careful Eating: Bodies, Food and Care** - Emma-Jayne Abbots  
2016-03-03

Critically reflecting on the interplays between food and care, this multidisciplinary volume asks 'why do individuals, institutions and agencies care about what other people eat?' It explores how acts of caring about food and eating shape and intervene in individual bodies as well as being enacted in and through those bodies. In so doing, the volume extends current critical debates regarding food and care as political mechanisms through which social hierarchies are constructed and both self and 'other' (re)produced. Addressing the ways in which eating and caring interact on multiple scales and sites - from public health and clinical settings to the market, the home and online communities - Careful Eating asks what 'eating' and 'caring' are, what relationships they create and rupture, and how their interplay is experienced in myriad spaces of everyday life. Taking account of this two-directional flow of engagement between eating and caring, the chapters are organized into three central theoretical dimensions: how eating practices mobilize discourses and forms of care; how discourses and practices of care (look to) shape particular forms of eating and food preferences; and how it is often in the bodies of individual consumers that eating and care encounter one another.

**Food Futures in Education and Society** - Gurpinder Singh Lalli  
2023-07-11

This book brings together a unique collection of chapters to facilitate a broad discussion on food education that will stimulate readers to think about key policies, recent research, curriculum positions and how to engage with key stakeholders about the future of food. Food education has gained much attention because the challenges that influence food availability and eating in schools also extend beyond the school gate. Accordingly, this book establishes evidence-based arguments that recognise the many facets of food education, and reveal how learning through a future's lens and joined-up thinking is critical for shaping intergenerational fairness concerning food futures in education and society. This book is distinctive through its multidisciplinary collection of chapters on food education with a particular focus on the Global North, with case studies from England, Australia, the Republic of Ireland, the United States of America, Canada and Germany. With a focus on three key themes and a rigorous food futures framework, the book is structured into three sections: (i) food education, pedagogy and curriculum, (ii) knowledge and skill diversity associated with food and health learning and (iii) food education inclusivity, culture and agency. Overall, this volume extends and challenges current research and theory in the area of food education and food pedagogy and offers insight and tangible benefits for the future development of food education policies and curricula. This book will be of great interest to students, scholars, policymakers and education leaders working on food education and pedagogy, food policy, health and diet and the sociology of food.

Poke a Stick at It - Connie Cronley 2016-09-30

Open this book and who knows what will pop out: the story of a gangland funeral, a status report on an ex-husband, a meditation on cats and gardens, a feuilleton about Native American fry bread, or a thoughtful musing on old women and books. Welcome to the delightfully irreverent world of Connie Cronley, essayist, radio commentator, and native Oklahoman. In this collection of true stories, Cronley pokes fun at everything—including herself—as she delights in the world around her. With her trademark down-home humor, Cronley takes on a range of subjects as broad as the Oklahoma prairies. No subject is off-limits as the author casts her curious eye on vampire literature, gay insects, air-dried laundry, Emily Post etiquette, and impossible dogs. As she says, “It’s a big world and there’s a lot to know.” *Poke a Stick at It* is also a love letter to the glories of the English language. Even as Cronley fusses around her garden or snoozes on the couch with her cat Muriel, she always has a stack of books within easy reach. Her eclectic passion for reading, embracing the lowbrow and the highbrow, the epic romance *Gone with the Wind* and the poems of Emily Dickinson, is both infectious and inspiring. Often compared to authors Annie Dillard, Phyllis McGinley, Robert Benchley, and Mark Twain, Connie Cronley is a Southwest original, a writer who infuses her stories with joy, humor, beauty—and plenty of spice.

Temporary Appropriation in Cities - Alessandro Melis 2019-12-12

This book conceptualises and illustrates temporary appropriation as an urban phenomenon, exploring its contributions to citizenship, urban social sustainability and urban health. It explains how some forms of appropriation can be subversive, existing in a grey area between legal and illegal activities in the city. The book explores the complex and the multi-scalar nature of temporary appropriation, and touches on its relationship to issues such as: sustainability and building re-use; culture; inclusivity, including socio-spatial inclusion; streetscape design; homelessness; and regulations controlling the use of public spaces. The book focuses on temporary appropriation as a necessity of adapting human needs in a city, highlighting the flexibility that is needed within urban planning and the further research that should be undertaken in this area. The book utilises case studies of Auckland, Algiers and Mexico City, and other cities with diverse cultural and historical backgrounds, to explore how planning, design and development can occur whilst maintaining community diversity and resilience. Since urban populations are certain to grow further, this is a key topic for understanding urban dynamics, and this book will be of interest to academics and practitioners alike.

**Troop 6000** - Nikita Stewart 2021-03-02

The inspiring true story of the first Girl Scout troop founded for and by girls living in a shelter in Queens, New York, and the amazing, nationwide response that it sparked "A powerful book full of powerful women."—Chelsea Clinton Giselle Burgess was a young mother of five trying to provide for her family. Though she had a full-time job, the demands of ever-increasing rent and mounting bills forced her to fall behind, and eviction soon followed. Giselle and her kids were thrown into New York City's overburdened shelter system, which housed nearly 60,000 people each day. They soon found themselves living at a Sleep Inn in Queens, provided by the city as temporary shelter; for nearly a year, all six lived in a single room with two beds and one bathroom. With curfews and lack of amenities, it felt more like a prison than a home, and Giselle, at the mercy of a broken system, grew fearful about her family's future. She knew that her daughters and the other girls living at the shelter needed to be a part of something where they didn't feel the shame or stigma of being homeless, and could develop skills and a community they could be proud of. Giselle had worked for the Girl Scouts and had the idea to establish a troop in the shelter, and with the support of a group of dedicated parents, advocates, and remarkable girls, Troop 6000 was born. New York Times journalist Nikita Stewart settled in with Troop 6000 for more than a year, at the peak of New York City's homelessness crisis in 2017, getting to know the girls and their families and witnessing both their triumphs and challenges. In Troop 6000,

readers will feel the highs and lows as some families make it out of the shelter while others falter, and girls grow up with the stress and insecurity of not knowing what each day will bring and not having a place to call home, living for the times when they can put on their Girl Scout uniforms and come together. The result is a powerful, inspiring story about overcoming the odds in the most unlikely of places. Stewart shows how shared experiences of poverty and hardship sparked the political will needed to create the troop that would expand from one shelter to fifteen in New York City, and ultimately inspired the creation of similar troops across the country. Woven throughout the book is the history of the Girl Scouts, an organization that has always adapted to fit the times, supporting girls from all walks of life. Troop 6000 is both the intimate story of one group of girls who find pride and community with one another, and the larger story of how, when we come together, we can find support and commonality and experience joy and success, no matter how challenging life may be.
