What Is a Dog? - Raymond Coppinger 2016-04-27

"Exploring the natural history of these creatures, the Coppingers explain how the village dogs of Vietnam, India, Africa, and Mexico are strikingly similar. These feral dogs, argue the Coppingers, are in fact the real representative dogs, nearly uniform in size and shape and incredibly self-sufficient. Drawing on nearly five decades of research, they show how

dogs actually domesticated themselves in order to become such sufficient scavengers of human refuse. The Coppingers also examine the behavioral characteristics that enable dogs to live successfully and to reproduce, unconstrained by humans, in environments that we ordinarily do not think of as dog- friendly."--From publisher description.

Changing the World...one bite at a time - A dog's tale - Anusha Gumber

Looking at the world through a "hooman" lens is so boring. If humans can eat, sleep, talk, and feel pain, so can dogs, cows, and chickens, or for that matter any other living being. What about a world where dogs protest against atrocities on calves or "hoomans" fight with other "hoomans" so that animals are treated with kindness and compassion? Changing the World: One Bite at a Time is a sparkling and ambitious book which aims to educate the world about veganism, a lifestyle choice and a movement that stems from humane effort to stop cruelty towards animals. The protagonist is Soldier James, a domesticated dog, who does not understand where Chicababy CoCo, his chicken friend, and Bachua, his calf friend, suddenly disappear. You have to read the story to find out how James deals and fights with so many problems, one bite at a time. From the world of humans, there is Radhika Didi, a young NGO worker who tries to to teach people that it is time to stop treating animals cruelly, considering that they are an important part of our universe. With colorful characters and witty twists, Changing the world is a funny and sensitive story for children, with a message for the young and adults alike.
