**Potsdam Mission** - James R. Holbrook  
2008-03-24

Recently declassified information makes it possible for the first time to tell part of the story behind the Cold War intelligence operations of the U.S. Military Liaison Mission (USMLM) to the Commander of the Soviet Army in Communist East Germany. Intelligence collection often led to dangerous encounters with the Soviet and East German armies. On occasion, Allied officers and non-commissioned officers were seriously injured. Before it all ended with the collapse of the Iron Curtain, one French sergeant and one American officer had been killed. Potsdam Mission traces the development of the author into a Soviet/Russian specialist and U.S. Army intelligence officer. The author then relates his own intelligence collection forays into East Germany by taking the reader on trips that include several harrowing experiences and four arrests/detentions by the Soviets. Finally, the author describes the challenges and rewards of interpreting at USMLM and comments on the important role played by the Mission in Cold War intelligence.

**Telling Stories, Writing Songs** - Kathleen Hudson 2010-07-05

Willie Nelson, Joe Ely, Marcia Ball, Tish Hinojosa, Stevie Ray Vaughan, Lyle Lovett...the list of popular songwriters from Texas just goes on and on. In this collection of thirty-four interviews with these and other songwriters, Kathleen Hudson pursues the stories behind the songs, letting the singers' own words describe where their songs come from and how the diverse, eclectic cultures, landscapes, and musical traditions of Texas inspire the creative process. Conducted in dance halls, dressing rooms, parking lots, clubs-wherever the musicians could take time to tell their stories-the interviews are refreshingly spontaneous and vivid. Hudson draws out the songwriters on such topics as the sources of their songs, the

influence of other musicians on their work, the progress of their careers, and the nature of Texas music. Many common threads emerge from these stories, while the uniqueness of each songwriter becomes equally apparent. To round out the collection, Hudson interviews Larry McMurtry and Darrell Royal for their perspectives as longtime friends and fans of Texas musicians. She also includes a brief biography and discography of each songwriter. **Corrections** - United States. Congress. House. Committee on the Judiciary. Subcommittee No. 3 1972

**Haircut** - Gordon Yates 2013-07

Carl von Kurtze is the egotistical head of a pharmaceutical company based in Linz, Austria. A bleak featureless castle high in the Austrian mountains is where his other, more sinister activities are carried out and this is where his employee, William, takes his girlfriend Freya,

while they are on holiday. Freya has a unique genome which allows her to read minds; exactly the ability required by von Kurtze to finish his experiments with human cloning and targeted ethnic gene technology. He maintains that when complete this will enable him to selectively change the Jews of Europe into subservient automatons, with no will of their own. Arab organisations dedicated to eliminating the Jewish nation and a team of wealthy National Socialist industrialists have funded von Kurtze's activities but Freya suspects that there is another motive behind this facade. By threatening William, von Kurtze forces Freya to assist in the production of a clone of Adolph Hitler and she becomes a prisoner at the castle. The experiment is so successful that Hitler takes over the organisation leaving von Kurtze in a desperate situation, threatened by two tyrannical forces, the Arabs on one hand and Hitler on the other. The shocking truth is revealed when Freya witnesses the confession of von Kurtze's mother, Eva, who has secretly lived with the legacy of an incident which took place at the end of the second World War. Freya accesses von Kurtze's supercomputer and discovers the full extent of his nightmare plan. She is the only one with the ability to prevent von Kurtze plunging Europe into a new dark age and the Middle East into all out war. Eva provides the information Freya requires to stop von Kurtze, but is this the beginning or the end of the process?"
