The Erogenous Pleasure Zones of the Female Body - Jonathan Clark 2016-07-21

Most men would like their female partners to experience the maximum possible pleasure during sex. On the other hand men tend to be rather simple and straightforward creatures when it comes to pleasure and go straight in there without paying attention to foreplay and the pleasure zones. This is a really big and basic mistake and one that many men make - especially (but not only) when they are young and sexually inexperienced. While there's no formula that will please each individual woman, there are a few general ground rules that you can follow. So what's a man to do if he wants new ways to give his sexual partner real pleasure? No matter who you're with it's nice to spice up your sex life with some new moves that she is likely to find pleasurable. If you're doing the same things in bed time after time, things are bound to become a little stale. That's why you need to mix things up and surprise your partner. The pleasure or 'erogenous' zones are placed all over the female body and are easy to find and stimulate. Your partner will love you for it - and I assure you that you will get back at least as much extra pleasure as you give. It's time to go on an erogenous zone exploration! One easy clue to where the erogenous zones are placed is that they are the areas that women draw attention to with perfume and jewellery and other adornments. This is like a sexual signal to men to draw their eyes to these places - the neck (with a necklace or choker), the ear lobes (with ear rings). The most obvious example is the use of lipstick to redden the lips - this echoes the reddening of the vaginal lips when sexually excited and is a really basic female human signal of availability (or at least possible availability) for sexual contact. From her head all the way to her toes, here is a selection of the top erogenous zones to turn her on and give her maximum pleasure.

The Case of the Female Orgasm - Elisabeth Anne Lloyd 2009-07

Why women evolved to have orgasms--when most of their primate relatives don't--is a persistent mystery among evolutionary biologists. In pursuing this mystery, Elisabeth Lloyd arrives at another: How could anything as inadequate as the evolutionary explanations of the female orgasm have passed muster as science? A judicious and revealing look at all twenty evolutionary accounts of the trait of human female orgasm, Lloyd's book is at the same time a case study of how certain biases steer science astray. Over the past fifteen years, the effect of sexist or male-centered approaches to science has been hotly debated. Drawing especially on data from nonhuman primates and human sexology over eighty years, Lloyd shows what damage such bias does in the study of female orgasm. She also exposes a second pernicious form of bias that permeates the literature on female orgasms: a bias toward adaptationism. Here Lloyd's critique comes alive, demonstrating how most of the evolutionary accounts either are in conflict with, or lack, certain types of evidence necessary to make their cases--how they simply assume that female orgasm must exist because it helped females in the past reproduce. As she weighs the evidence, Lloyd takes on nearly everyone who has written on the subject: evolutionists, animal behaviorists, and feminists alike. Her clearly and cogently written book is at once a convincing case study of bias in science and a sweeping summary and analysis of what is known about the evolution of the intriguing trait of female orgasm.

Dating Deal Breakers That Drive Men Away - Bruce Bryans 2020-05-29

Discover the Most Common Dating "Red Flags" that Scare Good Men Away Commitment-ready, relationship-minded men have a low tolerance policy for any factor that might make a woman appear "unequipped" to take on a serious relationship. Just like the goodhearted women who want nothing more than to find the right man to love and someday build a life with, relationship-minded men want desperately to avoid falling in love with someone that could make their life a living hell. Because of this, guys like this are VERY discriminating when assessing a woman's long-term relationship potential. And they won't think twice about dismissing a woman once they realize she's not really "Girlfriend Material", and thus, not worth their time and attention. Relationship-minded men are less likely to waste a woman's time because their time is extremely precious to them. Because they value commitment, relationships, social and family ties very highly, they date with the intention of finding a woman they can someday build a life with. Discover the Hidden Factors Men Use to Determine if a Woman is Worth Dating As a man matures he becomes less trusting of a woman's physical beauty and charm. Instead, when evaluating her long-term relationship potential, he places greater attention on the quality of her personal character (or lack thereof), as well as those things that have a direct or indirect influence upon her character; such as the people, places, and things in her life. After a woman has passed a man's physical appearance test, he will gauge her level of chemistry with him (the way she makes him feel). And once a man realizes that he has a good enough amount of chemistry with a woman, over time he will slowly evaluate various aspects of her character in order to determine if she is, in fact, a woman worth dating for long-term love and perhaps even marriage. How to Avoid Chasing Men Away and Finally Get the Relationship You Want Because commitment-minded men are more likely to assess a woman's relationship potential based on her character rather than her physical appearance or interpersonal chemistry alone, this short and concise book focuses on the most common deal-breaking "red flags" that stem from a woman's character (as well as those things that affect her character). This book was designed to provide women with an inside look at how men think and what men want in a woman when they're ready for a serious relationship. In it, you're going to see things from a man's point of view, as you discover the various aspects about a woman's life and behavior that might force a man to lose interest in her and disappear without a trace. Here's what you're going to learn inside: The one area of your life that high-quality men are DEEPLY concerned about, and how they secretly use it to judge your character (or lack thereof). How to easily maintain a DEEP emotional connection to a man by avoiding one simple relationship mistake. (Hint: This is the one mistake many women unknowingly struggle with.) An irritating habit that causes high-quality men to stop pursuing a woman almost INSTANTLY. How to be a high-value woman in the MOST important area of a man's life and make him see you as potential "Wife Material." A "man-repelling" female attitude that DRIVES good men away, and pushes them into the arms of "lesser" women. How to avoid KILLING a man's natural desire to please you by giving him the one thing ALL men desperately crave but would NEVER ask for from a woman. And much, much more... Would You Like to Know More? Get started now and discover the most common relationship-killers that cause men to quickly lose interest, pull away, and disappear.
