**Immigration Governance in East Asia** - Gunter Schubert  
2020-11-29

This book analyzes immigration policies in East Asia in the context of contemporary global migration flows and mobility. To assess how global norms of migration have impacted the East Asian migration region and explore regional migration trends, the book contains 13 case studies which investigate the regulation of immigration in China, Hong Kong, Japan,

South Korea, and Taiwan. Three analytical strands, namely, norm diffusion, identity politics, and citizenship, build the theoretical framework for the case studies which investigate how regional and national norms, discourses, and institutions affect local communities and migration patterns. In particular, the book analyzes contemporary issues such as immigration policy reforms, practices of inclusion and exclusion in local communities, and discourses on multiculturalism and risk. The book utilizes a comparative perspective which enables readers to reflect on the role of national identity, international organizations and law, public security concerns, and labour market demands in the articulation and implementation of contemporary immigration policy in East Asia. This book substantially complements the existing literature on immigration governance and interregional migration mobility in East Asia and will

be of interest to academics in the fields of East Asian studies, public policy, immigration and migration studies, and comparative politics.

*Stalking the Antichrists (1965-2012)* - George E. Lowe  
2013-12-16

Volume 1 of *Stalking the Antichrists and Their False Nuclear Prophets, Nuclear Gladiators, and Spirit Warriors, 1940-1965* is essentially an enhanced memoir. It is based for the most part on my personal observations and knowledge and specialized information from my academic studies of history, political science, and literature at Grove City College and the University of Chicago, as well as my professional insights into the heart of the U. S. Navy (1953-1957, 1960-1961 [OP-09D]) as an Air Intelligence Officer in Hawaii and Japan and the Pentagon; political-military/counsellor assignments in the State Department as a Foreign Service Officer (FSO-6) at the American embassy in Paris

(1962-64); and a speechwriter in the Navy Department (1965). In volume 2, the textual narrative begins with the end of my specific actions/ activities in the Navy and Foreign Service in July 1965, which I have called How I Lived in History, 1950-1965. In retrospect my entire Navy career from my commissioning as Ensign USNR, 1355 AIO, in early September 1953 at Naval Station, Newport, Rhode Island, to my first honorable discharge at Treasure Island on August 27, 1957 was in preparation to an understanding of World War II and the Cold War.

You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, Ask a Manager will help you successfully navigate the stormy seas of office life.

marvelous zoetrope of animals.' The Atlantic '[An] effervescent exposé ... [A] playful, enlightening tour of the vanguard of evolutionary biology.' Scientific American Selected for the Telegraph's 'best books for summer 2022' and as one of the Guardian's '50 hottest new books for a great escape'.

---

What does it mean to be female? Mother, carer, the weaker sex? Think again. In the last few decades a revolution has been brewing in zoology and evolutionary biology. Lucy Cooke introduces us to a riotous cast of animals, and the scientists studying them, that are redefining the female of the species. Meet the female lemurs of Madagascar, our ancient primate cousins that dominate the males of their species physically and politically. Or female albatross couples, hooking up together to raise their chicks in Hawaii. Or the meerkat mothers of the Kalahari Desert - the most murderous mammals on the

planet. The bitches in BITCH overturn outdated binary expectations of bodies, brains, biology and behaviour. Lucy Cooke's brilliant new book will change how you think - about sex, sexual identity and sexuality in animals and also the very forces that shape evolution. \_\_\_\_\_ Praise for

Lucy's previous book THE UNEXPECTED TRUTH ABOUT ANIMALS 'Endlessly

fascinating' - Bill Bryson 'I cannot remember when I enjoyed a non-fiction book so much' - Daily Express 'A joy from beginning to end' -

Guardian 'Best science pick: deeply researched, sassily written' - Nature
