The Essence of Leadership Derek W. Anderson,Jaco J. Hamman,2024-05-31 The world is experiencing a leadership crisis. The Essence of Leadership addresses this concern by empowering self-differentiated leadership. The authors draw on family systems thinking, foundational to family therapy, psychodynamic theory, a recognized lens on human nature, and proven process management tools. The core message explored over seven chapters is that a leader's management of their own anxiety and the anxiety in a system has direct implications for their effectiveness in bringing change. The authors believe that leadership is mastering emotional and relational processes seeking to bring change according to clearly defined goals and ethical principles. As such, leadership is poorly defined as a cognitive-rational, economic, charismatic, democratic, data-based, or expert-driven How to ... skill. Rather, anxiety's flow and management greatly determine the likelihood of systemic transformation. After reading this book, leaders will be empowered with a growing understanding of the role anxiety plays in systemic change even as they are equipped to lead with less anxiety. Though the theory and practices in the book are applicable to all leaders, leadership is illustrated through numerous case studies from their extensive experience empowering leaders in both the for profit and nonprofit sectors. Callouts throughout the book, along with questions for reflection, invite the reader into deeper contemplation.

Sign Language Roland Pfau,Markus Steinbach,Bencie Woll,2012-08-31 Sign language linguists show here that all questions relevant to the linguistic investigation of spoken languages can be asked about sign languages. Conversely,

questions that sign language linguists consider - even if spoken language researchers have not asked them yet - should also be asked of spoken languages. The HSK handbook Sign Language aims to provide a concise and comprehensive overview of the state of the art in sign language linguistics. It includes 44 chapters, written by leading researchers in the field, that address issues in language typology, sign language grammar, psycholinguistics, neurolinguistics, sociolinguistics, and language documentation and transcription. Crucially, all topics are presented in a way that makes them accessible to linguists who are not familiar with sign language linguistics.

Champion, Great Bend, and Deferiet Lynn M. Thornton,Janet M. Zando,2012 Champion, Great Bend, and Deferiet were all founded in the 1800s. Farming has always been the lifeblood of Champion; Noadiah Hubbard--original settler, land agent, merchant, and builder--did much to encourage its settlement and growth. Great Bend's location on the Black River drew various mills looking to utilize inexpensive waterpower. Such corporations included the Sherman Paper Company and the Great Bend Paper Company, which was incorporated in September 1868 to manufacture straw wrapping papers and strawboard. F.W. Woolworth, of five-and-dime fame, endowed a church here in honor of his parents on September 15, 1915. Deferiet was originally founded by French émigré Jenika de Ferriet. It became a mill town in 1899 when the land was acquired by the St. Regis Paper Company, which employed immigrants of Italian and Polish extraction. As the mills gradually left the Northeast, these communities reverted to their farming roots, in many cases attracting families for settlement and retirement.
