

Jon Newton

Victor M. Corman

Revelation Reclaimed Jon Newton, 2009 The book of Revelation seems very odd to modern readers and has been interpreted in some strange ways over the centuries. In plain English, Jon Newton guides readers through curious interpretations past and present and explains where they go wrong. In particular, the massively influential dispensationalist interpretations of the Left Behind novels and Hal Lindsay are explained and found wanting. But, more than exposing misunderstandings of the book, Newton is concerned to persuade readers that Revelation is profoundly relevant today when interpreted responsibly. In an easy to follow way he explains principles for reading Revelation virtuously. Newton ends with an investigation into the ever-controversial question of the millenium.

Petroleum Politics and the Texas Railroad Commission David F. Prindle,2011-05-18 The single most important domestic source of oil and gas is managed by the Texas Railroad Commission. As a result, the Commission has for decades exerted a profound influence on United States and world energy policy. This influence may even increase with the recent decision to remove price controls on oil and gas. Commission decisions determine where and when oil and gas wells are drilled, how much can be produced from them, and how the products can be transported. Since the 1930s the Commission has heavily influenced both the supply and the price of petroleum in the rest of the country simply because Texas provides such a large proportion of the United States' petroleum. As might be expected with the management of resources worth billions of dollars, the Railroad Commission has been an arena of intense political maneuvering. David Prindle examines in detail seven policymaking episodes, covering five decades of the Commission's history. He recounts the economic and political cleavages arising from clashes of interest, the efforts of individuals and organizations to exert influence, the motives

and methods underlying the policy choices of the Commissioners, and the political and economic consequences of those choices, both for Texas and for the rest of the country. This detailed look at the Railroad Commission and the politics of petroleum in Texas will be of interest to the general public and all those involved in the oil and gas industry. Scholars and students in the field of policy studies, especially energy policy, will find this book to be an invaluable guide to an important sector of the American petroleum industry.

A Pentecostal Commentary on Revelation Jon K. Newton,2021-02-15 This new commentary approaches Revelation from a Pentecostal perspective, but you may be surprised at what this does and doesn't mean in this case. This is a serious commentary based on the Greek text and includes discussion of all the standard topics (authorship, date, audience, etc.). It gives interpretive priority to the original context and audience while also discussing application today. Newton eschews all populist interpretations of Revelation and questions many assumptions built on futurist or historicist readings, but includes a survey of recent scholarly Pentecostal work on Revelation and an extended discussion of what an authentic Pentecostal reading of Revelation might look like. The commentary highlights features of Revelation that Pentecostals often look for, such as its pneumatology, but also draws attention to features that Pentecostal readers should take more seriously than they often do, such as its missional focus, the narrative flow, intertextual references, and the focus on atonement. This makes it a more optimistic commentary than many available. The commentary interacts in depth with five leading commentaries over the past twenty-five years as well as over two hundred other books and articles, including the oldest existing commentary on Revelation.

Multiculturalism Chinaka S. DomNwachukwu,HeeKap Lee,2014-01-07 Multiculturalism: A Shalom Motif for the Christian Community is an attempt to engage the Christian community on the ongoing discussion of cultural diversity and its implications for the church and the entire Christian community of the twenty-first century. Written for Christian schools and churches, this book confronts the fact that, for the Christian church in North America to remain vibrant and relevant in the twenty-first century, it must engage with the idea of multiculturalism and all other forms of diversity that now characterize the contemporary society. While the nature of this engagement will vary from case to case, cultural diversity must become a

growing face of the church in America. This book uses a combination of philosophy, educational theories, and biblical theology to provide Christian educators and churches with a critical understanding of multiculturalism, as well as practical steps for engaging this issue within the Christian community. Happy: LGBTQ+ Experiences of Australian Pentecostal-Charismatic Christianity Mark Jennings, 2023-01-01 This book relates the unique experiences of Lesbian, Gay, Bisexual, Transgender and Queer/Questioning (LGBTQ+) people in Australian Pentecostal-Charismatic Christian churches. Grounded in the theoretical contributions of Michel Foucault, Judith Butler, Lewis Coser, and others, the book exposes the discursive 'battleground' over the 'truth' of sex which underlies the participants' stories. These rich and complex narratives reveal the stakes of this conflict, manifested in 'the line' - a barrier restricting out LGBTQ+ people from full participation in ministry and service. Although some participants related stories of supportive—if typically conservative—congregations where they felt able to live out an authentic, integrated faith, others found they could only leave their formerly close and supportive communities behind, 'counter-rejecting' the churches and often the faith that they felt had rejected them.
