From Dallas nightclub reporter Tony Zoppi, who found himself carrying the president's casket; Secret Service agent Clint Hill beating his hands in despair on the trunk of the limousine as he watches Kennedy die; Howard Brennan, a construction worker on a lunch break watching a man take aim on the motorcade with a rifle; reporter Hugh Aynesworth with only an electricity bill on which to write notes for the scoop of his career; DJ John Peel a few feet from Oswald as he's questioned by the press; to Robert Kennedy sitting in the dark in the back of an empty army truck, waiting for his brother's body to arrive. *The Assassination of JFK: Minute by Minute* is pure chronological narrative, giving a blow by blow account of the terrible events as they unfolded.

Hitler's Last Day Jonathan Mayo,Emma Craigie,2016-03-17 On 30th April 1945 the world is in chaos. American and Russian forces have linked up in the middle of Germany, but the fighting continues. The roads of Germany are full of people - Jews who have survived concentration camps, Allied POWs trying to get home, and Nazis on the run. The civilian population under German control will run out of food in less than a fortnight. The man whose dream of a thousand-year Reich began this nightmare is in a bunker beneath the streets of Berlin saying his farewells. By 3pm he will be dead. *Hitler's Last Day: Minute by Minute*, is pure chronological narrative, as seen through the eyes of those who were there in the bunker, those waiting for news back home, or fighting in the streets of Germany, or pacing the corridors of power in Washington, London and Moscow. It was a day of endings and beginnings when ordinary people were placed often in extraordinary situations.

Titanic: Minute by Minute Jonathan Mayo,2016-03-17 2.20am on 15th April 1912, the Titanic is plunging 12,000 feet to the ocean floor. Machinery, coal, crystal goblets, pianos and jewellery all tumbled through the dark water. Hundreds of passengers and crew remained trapped below decks - hundreds more would perish on the surface. This is the definitive chronology of the Titanic's final hours, offering readers a real-time experience of one of the greatest dramas of twentieth century history.

The 1966 World Cup Final: Minute by Minute Jonathan Mayo,2016-07-07 30th July 1966. For millions it was the greatest day of the greatest decade. They may never have seen the Beatles in the Cavern or danced at Woodstock, but they

got to see the finest moment in English sporting history. Everything came together that sunny afternoon. The country was the centre of the world in fashion, film and music - so why shouldn't the World Cup be England's as well? This is the story of that extraordinary 24 hours, told through the eyes of the players, the fans on the terraces, and those watching and listening at home and abroad. Take the young policeman with the tricky task of swapping the real Jules Rimet trophy for a replica; the former German POW on holiday in Wales keeping his nationality secret as he watches the match in a stranger's house; and the Kent firecrew dousing a chimney fire as they watch the final on television. Full of fascinating details, this book evokes a period when football fans wore suits to matches, traffic policemen were invited into homes to watch the game, and the England squad could walk to the cinema undisturbed the evening before the biggest game of their lives.

Governing Through Crime Jonathan Simon, 2007-02-03 Across America today gated communities sprawl out from urban centers, employers enforce mandatory drug testing, and schools screen students with metal detectors. Social problems ranging from welfare dependency to educational inequality have been reconceptualized as crimes, with an attendant focus on assigning fault and imposing consequences. Even before the recent terrorist attacks, non-citizen residents had become subject to an increasingly harsh regime of detention and deportation, and prospective employees subjected to background checks. How and when did our everyday world become dominated by fear, every citizen treated as a potential criminal? In this startlingly original work, Jonathan Simon traces this pattern back to the collapse of the New Deal approach to governing during the 1960s when declining confidence in expert-guided government policies sent political leaders searching for new models of governance. The War on Crime offered a ready solution to their problem: politicians set agendas by drawing analogies to crime and redefined the ideal citizen as a crime victim, one whose vulnerabilities opened the door to overweening government intervention. By the 1980s, this transformation of the core powers of government had spilled over into the institutions that govern daily life. Soon our schools, our families, our workplaces, and our residential communities were being governed through crime. This powerful work concludes with a call for passive citizens to become engaged partners in the management of risk and the treatment of social ills. Only by coming together to produce security, can we free ourselves from a logic of domination by others, and from the fear that currently rules our everyday life.

Post-Pandemic JONATHAN. MCMAHON,2020-10-21 In little more than a decade the world has faced two major upheavals that few foresaw and fewer still had plans to address. As populations went into lockdown to slow the spread of COVID-19 and economic activity collapsed, many countries had barely recovered from the previous global financial crisis. The pandemic swept across Ireland in 2020 as quickly as confidence in the country's banks had vanished in 2008. In the earlier crisis, only the tough decisions of a small group of regulators and officials kept Ireland from collapse, though the price of salvation was a huge national debt and years of lost opportunities. As a key insider to the Irish bailout, Jonathan McMahon was at the heart of the response, witnessing what it takes to manage a crisis that threatens a nation. Battle-hardened by his experiences at the top of UK financial regulation during the terrorist attacks of September 11, 2001, Jonathan's advice on how to deal with crises is invaluable as governments grapple with the effects of COVID-19. What will be the long-term consequences of the current pandemic for society? Just how bad will the economic crisis be? What can be done to make it less painful for billions of people? And how can we make our societies and economies more resilient for the future? Jonathan does not have all the answers, but he does have strong and informed views on the actions governments and business leaders must take to make the world safer, fairer, and better prepared for future crises. *Post-Pandemic* is not just a personal account of a crisis past, but also an essential guide for dealing with the crisis present. It is a book for our times.

Access to Justice for Disadvantaged Communities Marjorie Mayo, Gerald Koessl, Matthew Scott, Imogen Slater,2014-03-01 Justice is a basic human right in all democratic doctrines, but in Britain, where welfare has faced recent market-based reforms, it's increasingly a right available only to those who can afford it. Professionals and volunteers are struggling to provide services such as legal counselling and representation to disadvantaged communities. This book explores how strategies to safeguard these vital services can strengthen, rather than undermine, the basic ethics and principles of public service provision. The authors show how such safeguarding might improve the positions of those who administer—as well as those who need—publicly provided legal services. Though focused on Britain, their findings reverberate to the United States and all democracies undergoing similar challenges in the public sphere.

Looking Like a Language, Sounding Like a Race Jonathan Rosa, 2019-01-15 Looking like a Language, Sounding like a Race examines the emergence of linguistic and ethnoracial categories in the context of Latinidad. The book draws from more than twenty-four months of ethnographic and sociolinguistic fieldwork in a Chicago public school, whose student body is more than 90% Mexican and Puerto Rican, to analyze the racialization of language and its relationship to issues of power and national identity. It focuses specifically on youth socialization to U.S. Latinidad as a contemporary site of political anxiety, raciolinguistic transformation, and urban inequity. Jonathan Rosa's account studies the fashioning of Latinidad in Chicago's highly segregated Near Northwest Side; he links public discourse concerning the rising prominence of U.S. Latinidad to the institutional management and experience of raciolinguistic identities there. Anxieties surrounding Latinx identities push administrators to transform at risk Mexican and Puerto Rican students into young Latino professionals. This institutional effort, which requires students to learn to be and, importantly, sound like themselves in highly studied ways, reveals administrators' attempts to navigate a precarious urban terrain in a city grappling with some of the nation's highest youth homicide, dropout, and teen pregnancy rates. Rosa explores the ingenuity of his research participants' responses to these forms of marginalization through the contestation of political, ethnoracial, and linguistic borders.
