Living on the Boundaries Carol Camp Yeakey, 2012-05-18 From the first chapter to the last, this immensely insightful anthology richly details and informs us about the human condition, from multidisciplinary perspectives, about urban life in global contexts. It examines the complex, often controversial issues impacting those who live on the margins of society in our densely populated cities.

Bad Seeds Betsy Powell, 2010-08-26 This book tells the story of the Galloway Boys, who as young teens banded together in an urban-blighted area of Toronto's east end to sell drugs and run guns. They were led by Tyshan Riley, born into one of the toughest neighborhoods in Canada and raised by an often absent and erratic mother. He learned his lessons on the streets--how to sell drugs, how to steal--and used violence to get the money, sex and respect that he lived for. The area known as Galloway is home to 186 hectares of public housing. Crossing bridges is the only route into the area. It created a sense of isolation and for those who lived there a sense of mistrust of anyone from the outside. The area was a fertile ground for the growth of gangs--and as well for the drug dealers, prostitutes and crackheads who survived along a major east-west thoroughfare leading in and out of Toronto's downtown core. And while the Galloway Boys lay claim to their turf, farther to the north the Malvern Crew was laying claim to theirs. The war was inevitable and it would claim ten casualties, including the innocent. For three Galloway Boys - Tyshan Riley, Philip Atkins and Jason Wisdom - their days in the street were numbered. With the cold-blooded murder of Brenton Charlton and the near fatal shooting of his friend Leonard Bell at a busy Toronto intersection on March 3, 2004, the police investigation would lead to the arrest of Riley, Atkins and Wisdom, and with the testimony of a former Galloway Boys gang member, Roland Ellis, the three would be convicted of the first-degree murder of a man who was just in the wrong place at the wrong time. Through the testimony of Ellis and that of other witnesses, the wiretap evidence, Crown attorney and defense arguments, a portrait of a gang emerges, one that lives on our streets yet is hidden to our eyes. *Bad Seeds* compels us to take our blinders off and face a reality of modern urban life that no one professes to care about very much. There is peril in willing blindness.

What Killed Jane Creba Anita Arvast, 2016-06-04 The death of a fifteen-year-old girl caught in the crossfire of "gang warfare" the day after Christmas in downtown Toronto shook the city to its core. A decade later, *What Killed Jane Creba* takes us through what led to the shooting, compared to what was said and done afterward, to show something far more

nuanced than gang rivalries.

Fake? Mark Jones,Paul T. Craddock,Nicolas Barker,1990-01-01 Describes the methods used to make artistic, literary, documentary, and political forgeries and the recent scientific advances in their detection. Includes over 600 objects from the British Museum and many other major collections, from ancient Babylonia to the present day.

Families Caring for an Aging America National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Health Care Services,Committee on Family Caregiving for Older Adults,2016-12-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. *Families Caring for an Aging America* examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Yates,Jennifer Yates,Martin Orrell,Aimee Spector,Bob Woods,2017-09-11 Cognitive Stimulation Therapy (CST) has made a huge global, clinical impact since its inception, and this landmark book is the first to draw all the published research together in one place. Historical Notes on English Catholic Missions Bernard Kelly,Brother Hermenegild,2017-06-06 Till the researches of modern historians proved the contrary, a widespread belief existed in this country that the accession of Elizabeth was hailed by the majority of the nation as the deliverance of an enthralled and coerced people from the bondage of Home. In view, however, of known facts, even hostile critics are forced to admit that the final establishment of the tenets of the Reformation in England was the outcome of a slow process of evolution-assisted, it is true, by a protestant legislature and several favorable local circumstances, but still an evolution-which lasted the greater part of a century. At the outset, little if anything presaged the ultimate and mighty change. The Queen received the congratulations of the episcopate with approbation and caused Masses to be duly sung for her sister's soul. In her own domestic chapel she continued to be present at the angust sacrifice of the Catholic Church, frequently availed herself of Confession, manifested respect for sacred images and pictures, and was indulgent to the affectionate practice of praying for the souls of the departed.' In a word, she showed by her whole demeanour her resolution of abiding by her solemn oath to the late Queen' to live and die a true Roman Catholic.'

Issues and Perspectives on Young Offenders in Canada John Winterdyk,2000

Bloody Justice Anita Arvast,2014-04-29 On the night of April 7, 2006, eight members of the motorcycle gang the Bandidos were killed execution style and left in a farmer's field near London, Ontario. The brutal slaying, the largest mass killing in Canada's history, was reported as the work of a rival motorcycle gang. The Shedden Massacre instantly made international headlines, as did the sensational murder trial that followed. In *Bloody Justice*, readers are taken to the very night of the crime itself, to the key players and perpetrators, to the events leading to the slayings—and inside a trial that let a killer go free. Reflecting the author's painstaking research, attendance at the trials, and jailhouse interviews with one of the convicted, *Bloody Justice* outlines a fascinating case that is very much at odds with the prosecution's.

Beyond the University Michael S. Roth, 2014-05-28 Contentious debates over the benefits—or drawbacks—of a liberal education are as old as America itself. From Benjamin Franklin to the Internet pundits, critics of higher education have attacked its irrelevance and elitism—often calling for more vocational instruction. Thomas Jefferson, by contrast, believed that nurturing a student’s capacity for lifelong learning was useful for science and commerce while also being essential for democracy. In this provocative contribution to the disputes, university president Michael S. Roth focuses on important moments and seminal thinkers in America’s long-running argument over vocational vs. liberal education. Conflicting streams of thought flow through American intellectual history: W. E. B. DuBois’s humanistic principles of pedagogy for newly emancipated slaves developed in opposition to Booker T. Washington’s educational utilitarianism, for example. Jane Addams’s emphasis on the cultivation of empathy and John Dewey’s calls for education as civic engagement were rejected as impractical by those who aimed to train students for particular economic tasks. Roth explores these arguments (and more), considers the state of higher education today, and concludes with a stirring plea for the kind of education that has, since the founding of the nation, cultivated individual freedom, promulgated civic virtue, and instilled hope for the future.
