Transformation of the Psyche Joseph L. Henderson, Dyane N. Sherwood, 2004-06-02 Written by Joseph L. Henderson, one of the first generation of Jungian analysts, and Dyane N. Sherwood, a practising analyst, this book is a striking and unique contribution to the resurgence of interest in alchemy for its way of representing the phenomenology of creative experience. Transformation of the Psyche is organized around 22 illuminated paintings from the early Renaissance alchemical manuscript the Splendor Solis, and is further illustrated by over 50 colour figures. The images of the Splendor Solis are possibly the most beautiful and evocative alchemical paintings to be found anywhere, and they are widely known to students of alchemy. Jung reproduced several Splendor Solis images in his works, yet prior to this book no one has explored the symbolism of the paintings as a series in relation to the process of depth psychological transformation. This book is the first scholarly study of the paintings in their entirety, and of the mythological and historical allusions contained within the images. Transformation of the Psyche does not simply explain or analyze the pictures, but invites the reader to participate in the creative and transforming process evoked by these images. Transformation of the Psyche is a truly unique book that will be of immense value and interest to analysts and psychotherapists, as well as scholars of mediaeval and renaissance intellectual history and students of spiritual disciplines.

Death of Meriwether Lewis James Starrs, Kira Gale, 2012-12-01 Even after more than two centuries, mystery continues to surround Meriwether Lewis's death—did the famous explorer commit suicide or was he murdered? Recently revealed truths and deconstructed myths are woven together in this fascinating account to form an unforgettable tale of political corruption, assassins, forged documents, and skeletal remains. New research implicating General James Wilkinson—commanding general of the U.S. Army and coconspirator of Aaron Burr—as the assassin is thoroughly discussed, while riveting testimony from 13 leading experts in wound ballistics, forensic anthropology, suicide psychology, grave-site exhumation, and handwriting analysis offers new insight into what Lewis's exhumed remains might reveal. The new evidence not only destroys the foundation of suicide arguments by proving the primary evidence is a forgery, it also proves the Indian Agent escorting Lewis lied about his activities on the day of Lewis's death. The book also contains evidence of a previously

unknown plot by Aaron Burr to seize New Orleans and invade Mexico in 1809, a repeat of his 1806 plot. It explains why Lewis suddenly changed his plans to travel to Washington, DC, by boat, and instead chose to go overland on the Natchez Trace, where he met his untimely death on October 11, 1809, at age 35.

Family Activism Roberto Vargas, 2008-06-16 We live in a world that needs radical transformation if our children and grandchildren are to live healthy, peace-filled lives. But where to start? Activist Roberto Vargas says the answer lies surprisingly close: at home, with our family and friends. We can apply the practice of family activism to foster what he calls familia—warm, loving connections with our relatives and with those we choose to call family—and develop the skills and attitudes we need to tackle broader problems in our community, our nation, and the world. In *Family Activism*, Vargas draws from his own life to show how to apply tools such as copowering communication, family councils, and unity circles to create family and community cultures that empower all of us to become more committed and skillful agents of positive change.
