The Children of Tomorrow Matthew Mahoney, 2017-08-02 Nobody would be willing the act of compassion necessary to save the human race if it meant sacrificing themselves. Humans had already outgrown humanity. At the end, all that remains is a group of teenagers carrying the weight of destiny on their shoulders. A play for young people, 'The Children of Tomorrow' follows the story of the teenagers selected to survive humanity's terrible final solution. The reality, however, is even more sinister.

The Saga of the Nuleys: Volume One Terrance Tracy, 2016-08-08 The Saga of the Nuleys: Volume One By Terrance Tracy "Great works of art have no more affecting lesson for us than this. They teach us to abide by our spontaneous impression with good-humored inflexibility then most when the whole cry of voices is on the other side. Else tomorrow a stranger will say with masterly good sense precisely what we have thought and felt all the time, and we shall be forced to take with shame our own opinion from another." - Self-Reliance by Ralph Waldo Emerson In the 21st century, Tracy Michaels accidentally stumbled down a steep hill and discovered an ancient artifact written in a Native American dialect. Tracy brought the relic to his long-time friend, John Wisebear Spangler. By this discovery, their lives are dramatically altered when a fourteen year quest for the truth of their ancestry in the 18th century begins. Angus McNuley, an enigmatic character in 18th century England, and Sir Percival Slater begin a dire circumstance which lasted for three generations of the Nuley family. The Saga of the Nuleys: Volume One is how one man's love was tragically thwarted by one man's bitterness and the effects of Manifest Destiny on the Native Americans. Joshua Nuley, in the second part of the novel, learns how his destiny was shaped by Angus McNuley and altered by Robert Slater.

African Motors Joshua Grace, 2021-10-04 In African Motors, Joshua Grace examines how Tanzanian drivers, mechanics, and passengers reconstituted the automobile into a uniquely African form between the late 1800s and the early 2000s. Drawing on hundreds of oral histories, extensive archival research, and his ethnographic fieldwork as an apprentice in Dar es Salaam's network of garages, Grace counters the pervasive narratives that Africa is incompatible with technology and that the African use of cars is merely an appropriation of technology created elsewhere. Although automobiles were invented in Europe and introduced as part of colonial rule, Grace shows how Tanzanians transformed them, increasingly associating their own car use with maendeleo, the Kiswahili word for progress or development. Focusing on the formation of

masculinities based in automotive cultures, Grace also outlines the process through which African men remade themselves and their communities by adapting technological objects and systems for local purposes. Ultimately, African Motors is an African-centered story of development featuring everyday examples of Africans forging both individual and collective cultures of social and technological wellbeing through movement, making, and repair.

Graceology Joshua Copron,2016-07-01 The grace of God is the undeserved, free gift of love and forgiveness extended to us through Christ. Maybe you've heard it before. Has your relationship with Him rested in your own effort or grown from the roots of his unfathomable love? In *Graceology*, Joshua Copron unpacks what it means to live out of the manifold grace of God and how a deeper understanding of God's grace brings the promise of unparalleled freedom. *Graceology* is not just a another book about grace. It is an in-depth look at the limitless subject that anchors us to our divine creator. This knowledge of grace not only transforms who we are, but leads us into the abundant life God has for each of us.

Automotive Empire Andrew Denning,2024-07-15 In *Automotive Empire*, Andrew Denning uncovers how roads and vehicles began to transform colonial societies across Africa but rarely in the manner Europeans expected. Like seafaring ships and railroads, automobiles and roads were more than a mode of transport—they organized colonial spaces and structured the political, economic, and social relations of empire, both within African colonies and between colonies and the European metropole. European officials in French, Italian, British, German, Belgian, and Portuguese territories in Africa shared a common challenge—the transport problem. While they imagined that roads would radiate commerce and political hegemony by collapsing space, the pressures of constructing and maintaining roads rendered colonial administration thin, ineffective, and capricious. Automotive empire emerged as the European solution to the transport problem, but revealed weakness as much as it extended power. As *Automotive Empire* reveals, motor vehicles and roads seemed the ideal solution to the colonial transport problem. They were cheaper and quicker to construct than railroads, overcame the environmental limitations of rivers, and did not depend on the recruitment and supervision of African porters. At this pivotal moment of African colonialism, when European powers transitioned from claiming territories to administering and exploiting them, automotive empire defined colonial states and societies, along with the brutal and capricious nature of European colonialism itself.

Christian Stewardship Series Richard M. Bauer, 2012 The aim of my work is to supply a manifest for the Christian pastor, missionary, or teacher seeking to disciple other Christian workers desiring to serve the Lord more effectively. Knowing the time needed to prepare effective lessons, this work is to expedite their study time. I am not their teacher; they have the Holy Spirit for that purpose. I have grouped related Scripture in related subjects for a more complete study in relation to the text used. I have used this series over the past twenty-five years and have witnessed the effectiveness in the unity it provides in solving the difficulties encountered in most Christian assemblies. God's Word will always work when properly applied. Romans 10:17: "So then faith cometh by hearing, and hearing by the Word of God."

Making an African City Jennifer Hart, 2024 In *Making an African City*, Jennifer Hart traces the way that British colonial officials, Accra Town Council members, and a diverse group of technocrats used regulation to define what an acceptable city looked like. Unlike cities elsewhere on the continent, Accra had a long history of urbanism that predated British colonial presence. By criminalizing some activities and privileging others, colonial officials sought to marginalize indigenous practices of Accra residents and shape the development of a new, modern city. Hart argues, however, that residents regularly pushed back, protesting regulations, refusing to participate in newly developed systems, reappropriating infrastructure, demanding rights to city services, and asserting their own informal vision for the future of the city. While urban plans and regulations ultimately failed to substantively remake the city, their effects were and are still felt by urban residents, who are often subject to but not served by urban infrastructure. *Making an African City* explores how the informalization of Accra's

development was a historical process, not a natural and self-evident phenomenon, which connects the history of the city with the history of urban development and the growth of technocracy around the world.
