Everest England Peter Owen Jones, 2019-05 A unique hill-walking guide to 20 of Britain's peaks, adding up to the exact height of Everest. Scaling the peaks of Everest, the world's highest mountain, is the ultimate physical and mental challenge that the human race can aspire to. But as it takes years of preparation and a minimum of £25,000 to achieve, it remains out of reach to most of us. This book allows ordinary people to embark on their own personal Everest without leaving England's green and pleasant land. Ascending hills of varying sizes whose ascents add up to the same height as Everest--29,016 feet--celebrity vicar and countryman Peter Owen Jones guides the reader on a road trip covering over 20 hill-climbs in different parts of England. The climbs can be done mindfully over a limited period--20 days is the suggested time scale--or as fast as possible, thus creating a physical challenge rather like the Three Peaks. The climbs could also be undertaken separately over longer periods of time and used as opportunities for mindfulness and quiet meditation under Peter's expert spiritual guidance. The journey takes in sacred places found on coastal cliff walks, ancient holy sites, tors, peaks, mountains and the highest church in England.

The intent is to provide you a holistic, ongoing moment that will touch on all levels, from the heart of the authors to your heart. The thoughts, emotions and feelings expressed in the words and in the art are there for you to savor and enjoy and share with someone you love, especially yourself. May this book lead you to explore your heart and the depth of your soul, as you let love be the magic that opens the unknown.

Inside the Painter's Studio Joe Fig,2012-06-19 Inside an art gallery, it is easy to forget that the paintings there are the end products of a process involving not only creative inspiration, but also plenty of physical and logistical details. It is these cruder, more mundane aspects of a painter's daily routine that motivated Brooklyn artist Joe Fig to embark almost ten years ago on a highly unorthodox, multilayered exploration of the working life of the professional artist. Determined to ground his research in the physical world, Fig began constructing a series of diorama-like miniature reproductions of the studios of modern art's most legendary painters, such as Jackson Pollock and Willem de Kooning. A desire for firsthand references led Fig to approach contemporary artists for access to their studios. Armed with a camera and a self-made Artist's Questionnaire, Fig began a journey through the workspaces of some of today's most exciting contemporary artists.

Canvas Documentaries Mimi Colligan,2002 Long before cinema was invented, people went to picture shows. In the eighteenth and nineteenth centuries in Britain, Europe and America they were treated to dramatic pictorial spectacles. Audiences might be encircled by vast 360-degree canvases, or seated before continuous images drawn across a proscenium, or gathered in amusement parks to watch painted 3-D structures come 'alive' with the explosion of fireworks overhead. The sense of realism was enhanced by back-lighting, running commentaries and props such as real sand and trees. Canvas Documentaries captures the artistic, civic and social preoccupations of the times. Generously illustrated with paintings, etchings, engravings, mechanical drawings, architectural plans, photographs and advertising material, this beautiful book is a window on the vibrant popular culture of the Victorian era.

Product and brand managers, marketing specialists, and business owners will learn how experience diagramming can help determine where business goals and customer perspectives intersect. Once you're armed with this data, you can provide users with real value. Mapping Experiences is divided into three parts: Understand the underlying principles of diagramming, and discover how these diagrams can inform strategy Learn how to create diagrams with the four iterative modes in the mapping process: setting up a mapping initiative, investigating the evidence, visualizing the process, and using diagrams in workshops and experiments See key diagrams in action, including service blueprints, customer journey maps, experience maps, mental models, and spatial maps and ecosystem models
