The Running of Hospitals Robert J.S. Bryant,Mark Bryant,2022-09-02 The Running of Hospitals is a collection of nearly 30 articles on various aspects of the National Health Service published during one of the major reforming periods in UK healthcare, from 1965 until 1985. Written by a former senior hospital and healthcare administrator who was taken on soon after the NHS was set up in 1948, the essays begin during the first Labour Government of Harold Wilson and reflect the growth of the health service through the premierships of Wilson, Edward Heath and James Callaghan up to the early years of Margaret Thatcher. For students, administrators, healthcare workers and anyone interested in the history of the NHS, this book, which brings together for the first time in a single volume some of the most noteworthy articles by one of the profession's senior figures, will be a welcome addition to the literature on the subject.

Dance Movement Therapy Helen Payne,2006 This book will be a valuable resource for anyone who wishes to learn more about the therapeutic use of creative movement and dance. It will be welcomed by students and practitioners in the arts therapies, psychotherapy, counselling and related professions

The Mixed Member Proportional System: Providing Greater Representation for Women? Tracy-Ann Johnson-Myers,2016-11-16 This Brief discusses the adoption of the mixed member proportional (MMP) electoral system in New Zealand and its subsequent effect on representation for women. Concerns about the homogeneity of the legislature under the Single Member Plurality electoral system and the need for increased representativeness and greater proportionality of party preference lead to the changeover in 1996. The book addresses the question of whether an increase in descriptive representation for women in New Zealand's House of Representatives has translated to policy outcomes that are beneficial to them. It also examines the extent to which female MPs meet the expectation that they will act for members of their groups; pushing minority and gender-friendly legislation and policies into the political arena. Finally, it raises questions about where women are found in New Zealand's decision making bodies and what influence they might have on policy outcomes. The first book to examine the effects of the MMP system on female descriptive and substantive representation using a case study analysis, this Brief adds to the literature on electoral systems and women's political representation. This book will be of use

to political science students at both the undergraduate and graduate level, particularly those interested in electoral studies, political institutions, politics and gender, and minority representation.

Understanding Lifestyle Sport Belinda Wheaton,2004-08-26 This collection of innovative studies represents the first serious academic investigation of 'lifestyle' or 'postmodern' sports, such as snowboarding, skateboarding and surfing.

Women in Sufism Marta Dominguez Diaz,2014-10-24 Exploring the diverse myriad of female religious identities that exist within the various branches of the Moroccan Sufi Order, Qādiriyya Būdshīshiyya, today, this book evidences a wide array of religious identities, from those more typical of Berber culture, to those characterised by a 'sober' approach to Sufism, as well as those that denote New Age eclecticism. The book researches the ways in which religious discourses are corporeally endorsed. After providing an overview of the Order historically and today, enunciating the processes by which this local tariqa from North-eastern Morocco has become the international organization that it is now, the book explores the religious body in movement, in performance, and in relation to the social order. It analyses pilgrimage by assessing the annual visit that followers of Hamza Būdshīsh make to the central lodge of the Order in Madāgh; it explores bodily religious enactments in ritual performance, by discussing the central practices of Sufi ritual as manifested in the Būdshīshiyya, and delves attention into diverse understandings of faith healing and health issues. *Women and Sufism* provides a detailed insight into religious healing, sufi rituals and sufi pilgrimage, and is essential reading for those seeking to understand Islam in Morocco, or those with an interest in Anthropology and Middle East studies more generally.

Blind in Early Modern Japan Wei Yu Wayne Tan,2022-09-06 While the loss of sight—whether in early modern Japan or now—may be understood as a disability, blind people in the Tokugawa period (1600–1868) could thrive because of disability. The blind of the era were prominent across a wide range of professions, and through a strong guild structure were able to exert contractual monopolies over certain trades. *Blind in Early Modern Japan* illustrates the breadth and depth of those occupations, the power and respect that accrued to the guild members, and the lasting legacy of the Tokugawa guilds into the current moment. The book illustrates why disability must be assessed within a particular society's social, political, and medical context, and also the importance of bringing medical history into conversation with cultural history. A Euro-American-centric disability studies perspective that focuses on disability and oppression, the author contends, risks overlooking the unique situation in a non-Western society like Japan in which disability was constructed to enhance blind people's power. He explores what it meant to be blind in Japan at that time, and what it says about current frameworks for understanding disability.

Hidden Truth Rukmini Varma,2018-04-30 The sharp eye of Neelakantan Bhattathiripad noted the young Ravi Varma tracing lines on the sand. His son was a strange child in his opinion but he refrained from voicing it. "What would this son of

his become, the scion of this strange race," he wondered? "Always, always drawing and sketching things — was there a future in this?" His wife, Umamba Bayi indulged him too much. All this fanciful sketching, it was a dreamer's life, thought Neelakantan. From his father, Ravi Varma learned to discipline his thoughts, from his mother the pictorial rhythms of poetry and music, and from his uncle, Raja Raja Varma, the way to express it all in concrete visual form, as he was doing on the sand. As an artist who not only keeps alive Raja Ravi Varma's legacy, but is also his direct descendant, Rukmini Varma is a remarkable source of stories, anecdotes, and the most fascinating details about this legendary Indian painter, viewing him not only as her ancestor but also as a creative force who opened a whole new chapter in India's artistic tradition. Rukmini Varma offers to unravel the story of Ravi Varma and all that made him the person he was, from a perspective that is both new but also intimate and deeply personal - a combination that is especially inviting." - Manu S. Pillai Author, *The Ivory Throne: Chronicles of the House of Travancore*

The Female Eagle Dr. B N.Pandey,2016-12-08 The collection of sixteen stories has been named after one of its stories 'The Female Eagle'. In this story, the basic difference between Indian culture and Western culture has been analyzed through a real and individualistic young lady. The young lady is symbolized as a female eagle because a female eagle is considered more dangerous than a male eagle, and such individualistic young ladies are also considered more dangerous in our society. The first twelve stories of the book are set in a period of almost twenty-five years ago and they represent the lifestyle of that time period. The last four stories of the book represent the recent times. All the stories are based on true characters and incidents. The stories in this book are bound to enrich the life experience of the readers.

Culture and Human Development Jaan Valsiner,2000-01-19 This major new textbook by Jaan Valsiner focuses on the interface between cultural psychology and developmental psychology. Intended for students from undergraduate level upwards, the book provides a wide-ranging overview of the cultural perspective on human development, with illustrations from pre-natal development to adulthood. A key feature is the broad coverage of theoretical and methodological issues which have relevance to this truly interdisciplinary field of enquiry encompassing developmental psychology, cultural anthropology and comparative sociology. The text is organized into five coherent parts: Part 1: Developmental theory and methodology; Part 2: Analysis of environments for human development Part 3: Cultural organization of pregnancy and infancy; Part 4: Early childhood development; and Part 5: Entering the world of activities - culturally ruled.

Encyclopedia of Medical Anthropology Carol R. Ember, Melvin Ember,2003-12-31 Medical practitioners and the ordinary citizen are becoming more aware that we need to understand cultural variation in medical belief and practice. The more we know how health and disease are managed in different cultures, the more we can recognize what is culture bound in our own medical belief and practice. The Encyclopedia of Medical Anthropology is unique because it is the first reference work to describe the cultural practices relevant to health in the world's cultures and to provide an overview of important topics in

medical anthropology. No other single reference work comes close to marching the depth and breadth of information on the varying cultural background of health and illness around the world. More than 100 experts - anthropologists and other social scientists - have contributed their firsthand experience of medical cultures from around the world.

Progressive Cookery E. Hinckley, 2008-03 The recipes in this 1892 volume were compiled from lessons given by Mrs. Hinckley at the School of Cookery in San Francisco. The book is designed to allow anyone interested in learning to cook at home to progress from simple to more complicated recipes.

Looking for Mr. Legba Richard Laister, 2010-01-11 At school in the late 1960s a Ghanaian fellow pupil brought to Richard Laister's attention the historic links between the West Indies, West Africa, the Atlantic slave trade, and the Voodoo religion. Forty years later, the author slipped away to explore these historic connections. In this book he describes a series of extended journeys above the coast of the Gulf of Guinea, focussing on Voodoo as a lens through which to observe the traditional ways of life still practised in this part of the world. Ghana, Togo, Burkino Faso and Benin remain, so he discovers, hardly touched by Western tourism and the cultural steamroller of globalisation. Arriving in Accra, Richard is welcomed by a retired colonel of the Ghanaian army, who is the first of several West Africans he meets to lament the passing of colonial rule. The Colonel provides a rare opportunity to attend a Voodoo funeral, where the corpse, dressed as a bride, is seated upon a throne to receive her guests. Here the author first discovers, Legba, god of entrances, crossroads, mirrors, and sunlight - a divine messenger, trickster, and Janus-faced herald of joy and terror. The funeral is a prelude to a series of adventures, in which comical and macabre incidents combine to form a unique West African mix. In every village the author finds sacrificial altars dedicated to Legba, who emerges as a universal object of veneration. From Ghana, Richard busses north to Ouagadougou, and then to Benin, heartland of Voodoo, where he receives a blessing from a powerful sorcerer. He survives a riot in Lome, Togo, in which there are many casualties, only to visit the President of the Republic's palace - a mysterious mock French chateau, whose owner has not crossed its portal for 20 years due to a curse. The author's odyssey through West Africa leads him to question rational interpretations of reality, reminding us of Scipio Africanus who more than 2,000 years ago declared, 'Out of Africa, always something strange emerges!'

Fascial Manipulation® - Stecco® method The practitioner's perspective Julie Ann Day, 2018-07-01 This book highlights the impact that the Fascial Manipulation® - Stecco® method for fascial dysfunctions, developed by Italian physiotherapist Luigi Stecco, has had on the clinical practice of 16 well-established practitioners from a total of seven different countries and from different disciplines, including physiotherapy, chiropractic, osteopathy and massage therapy. It gives voice to some of the experienced practitioners who have acknowledged Luigi Stecco's work and have played an important role in the diffusion of this method in their respective countries. The knowledgeable 'clinical eye' of these practitioners will have immense value for their peers. An introductory chapter outlines the theoretical models underlying the

Fascial Manipulation - Stecco method and the clinical reasoning process applied in this method. Each subsequent chapter presents the application of the Fascial Manipulation - Stecco method in detailed case reports. Chapters are divided into three main sections (Musculoskeletal, Internal Dysfunctions and Other Perspectives) and they provide useful information either for other practitioners of this method or for colleagues who are interested in approaching this type of fascial work. Furthermore, the personal accounts presented here provide ulterior historical background to the development and spread of the Fascial Manipulation - Stecco method, which has generated and continues to generate numerous areas for research.

The Massage Connection Kalyani Premkumar,1998 This text is focused on the anatomy and physiology needs of massage therapy students and practitioners. It gives extensive coverage of the major body systems - integumentary, skeletal, muscular, and nervous-crucial for massage therapy. It also provides an overview of other body systems so students have a well-rounded understanding of anatomy and physiology. This text is organised into three major sections. The first section focuses on the anatomy and physiology of each body system. Important topics in pathology such as pain, inflammation and healing are detailed in the second section. The third section provides case studies in relation to each body system, giving common scenarios that therapists may come across.

New York Magazine ,1981-12-21 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.
