Male Tears Benjamin Myers,2021 'Cracking ... Richly distinctive stories, with unnerving, dark plotlines' Independent'One of the most singular, moving and crucial voices of our times' David PeaceIn Male Tears, a debut collection of stories that brings together over fifteen years of work, Benjamin Myers lays bare the male psyche in all its fragility, complexity and failure, its hubris and forbidden tenderness. A Spell for Chameleon (The Parallel Edition... Simplified) Piers Anthony,2012-02-14 Piers Anthony's bestselling Xanth series is one of the cornerstones of fantasy, a lively and whimsical interpretation of a genre often criticized for taking itself too seriously. Anthony's first Xanth novel, A Spell for Chameleon, was initially edited to target a more traditional audience. Now, in an eBook exclusive, A Spell for Chameleon has been reworked line by line—its language matching the

simpler, playful way with words that made Piers Anthony an enduring fan favorite. Xanth is an enchanted land where magic rules, a land of centaurs and dragons and basilisks where every citizen has a unique spell to call their own. For Bink of North Village, however, Xanth is no fairy tale. He alone has no magic. And unless he gets some—and fast!—he will be exiled. Forever. But the Good Magician Humfrey is convinced that Bink does indeed have magic. In fact, both Beauregard the genie and the magic wall chart insist that Bink has magic as powerful as any possessed by the King, the Good Magician Humfrey, or even the Evil Magician Trent. Be that as it may, no one can fathom the nature of Bink's very special magic. This is even worse than having no magic at all . . . and he still faces exile!

To Be Men Richard Paolinelli, Brad R Torgersen, T L Knighton, 2018-06-02 Tired of stories about men as bumbling idiots? Of fathers as incompetents? Of masculinity as toxic? Tired of misandry? Ready for some real masculine role models? Stories about heroes and men who do the right thing? Stories about real men? The kind that provide for their families, love their wives and children, and make sacrifices. And save the world. A collection of seventeen stories and two essays, *To Be Men: Stories Celebrating Masculinity* pays homage to men and masculinity. Fun. Action-packed. Thought-provoking. Whatever your tastes, you will find enjoyment in these pages. Each story embraces, in its own way, *virtus*—the concept of valor, manliness, excellence, courage, character, and worth. The sentient Colt 1911 destined for the smelter. A courageous werewolf who embodies *virtus* no matter his form. The wizard raising a family in the 21st century. Sherlock Holmes' newfound respect for women. A future untamed frontier where women and children first proves itself a timeless maxim. The hero who identifies as a M1A2 Abrams tank. A Vietnam War sailor defending his gay crew mate, because when bullets are flying, only what you do matters. The police chief in a noir-style world where Fae, dragons, and humans live, love, and break the law. These stories will delight and entertain you.

Men O Pause and Ponder ... Steve McEwen,2021-04-26 This book is not a scientific or a medically researched piece of work, deliberately not so! It tells the stories of four modern day men in a humorous, fictional context, to promote discussion and to raise awareness and acceptance of the Male Menopause condition. The behaviour of the Male members of the human species is based on three founding instincts, all beginning with the letter 'P'. They are Provision, Protection and Procreation. Going back to the origins of the human species, our male forefathers were active hunters and latterly farmers, ensuring food was provided for their families. They also developed weapons and built homes to protect their families and were driven by sexual urges to procreate with their female counterparts. So how do these founding instincts translate into the behaviours of modern man? The stories in this book are based on the lives of four fictional males - John, Tony, Paul and Steve. They follow the development and experiences of these males from children to young men, through to adulthood and into old age. These stories suggest that adult male behaviour is determined at an early stage in child development, that these formative years are all important in helping us understand why certain issues are important to us in our adult lives. This is particularly relevant in boys, to understand and debate their intriguing journey through into manhood and then those twilight years.

What We Saw Aaron Hartzler,2015-09-22 "A smart, sensitive, and gripping story about the courage it takes to do what's right." —Deb Caletti, National Book Award finalist Critically acclaimed memoirist Aaron Hartzler, author of Rapture Practice, takes an unflinching look at what happens to a small town when some of its residents commit a terrible crime. The party at John Doone's last Saturday night is a bit of a blur. Kate Weston can piece together most of the details: Stacey Stallard handing her shots, Ben Cody taking her keys and getting her home early... But when a picture of Stacey passed out over Deacon Mills's shoulder appears online the next morning, Kate suspects she doesn't have all the details. When Stacey levels charges against four of Kate's classmates, the whole town erupts into controversy. Facts that can't be ignored begin to surface, and every answer Kate finds leads back to the same questions: Who witnessed what happened to Stacey? And what responsibility do they have to speak up about what they saw? This honest, authentic debut novel—inspired by the events in the Steubenville rape case—will resonate with readers who've ever walked that razor-thin line between guilt and innocence

that so often gets blurred, one text at a time.

Empire Of The Ants Bernard Werber, 2012-12-31 Ants came to this planet long before man. Since then they have developed one of the most intricate civilizations imaginable - a civilization of great richness and technological brilliance. During the few seconds it takes you to read this sentence, some 700 million ants will be born on earth... Edmond Wells had studied ants for years: he knew of the power which existed in their hidden world. On his death, he leaves his apartment to his nephew Jonathan with one proviso: that he must not descend beyond the cellar door. But when the family's dog escapes down the cellar steps, Jonathan has little alternative but to follow. Innocently he enters the world of the ant, whose struggle for existence forces him to reassess man's place in the cycle of nature. It is an experience that will alter his life for ever... Empire of the Ants is an extraordinary achievement. It takes you inside the ants' universe and reveals it to be a highly organised world, as complex and relentless as human society and even more brutal.
