The Malvina Reynolds Songbook Malvina Reynolds,1974

The Organization Man William H. Whyte,2013-05-31 Regarded as one of the most important sociological and business commentaries of modern times, *The Organization Man* developed the first thorough description of the impact of mass organization on American society. During the height of the Eisenhower administration, corporations appeared to provide a blissful answer to postwar life with the marketing of new technologies—television, affordable cars, space travel, fast food—and lifestyles, such as carefully planned suburban communities centered around the nuclear family. William H. Whyte found this phenomenon alarming. As an editor for *Fortune* magazine, Whyte was well placed to observe corporate America; it became clear to him that the American belief in the perfectibility of society was shifting from one of individual initiative to one that could be achieved at the expense of the individual. With its clear analysis of contemporary working and living arrangements, *The Organization Man* rapidly achieved bestseller status. Since the time of the book's original publication, the American workplace has undergone massive changes. In the 1990s, the rule of large corporations seemed less relevant as small entrepreneurs made fortunes from new technologies, in the process bucking old corporate trends. In fact this new economy appeared to have doomed Whyte's original analysis as an artifact from a bygone day. But the recent collapse of so many startup businesses, gigantic mergers of international conglomerates, and the reality of economic globalization make *The Organization Man* all the more essential as background for understanding today's global market. This edition contains a new foreword by noted journalist and author Joseph Nocera. In an afterword Jenny Bell Whyte describes how *The Organization Man* was written.

Pulling Our Own Strings Gloria J. Kaufman, Mary Kay Blakely, 1980 Collects political cartoons, comic strips, humorous essays and songs that satirize male chauvinism and society's stereotypes of women.

An Army of Lovers Jamie Anderson, 2019-10-01 In California, a month before the Stonewall Riots in 1969, Maxine Feldman penned a song, "Angry Atthis," about the shame surrounding lesbians. She didn't know where she was going to sing her new song until comedy duo Harrison and Tyler asked her to open their shows. On the other side of the country and three years later, Alix Dobkin released Lavender Jane Loves Women, the first record produced, engineered and played by women. Maxine and Alix had no business plan. They didn't fit the mold set by mainstream music but they saw great potential to create a powerful soundtrack for women claiming their place as lesbians and feminists. A myriad of musicians joined them, from a cappella group Sweet Honey in the Rock, to singer-songwriter Cris Williamson, to activist/singer Holly Near, to jazz/classical/gospel performer Mary Watkins and many more; collectively they have sold millions of albums. Venues, radio shows, record distributors, and sound technicians sprung up to host and work with these musicians. Grateful fans traveled hundreds of miles to attend performances. These women (and a few men) created artist-run independent record labels—perhaps the first in history—and organized music festivals that drew thousands and still exist today. Before Lilith Fair and riot grrrls, there was women's music! "I stood in those crowds, sang along with Meg Christian and Casse Culver and women who played rock & roll and bluegrass and all the music that echoed in my bloodstream. Jamie Anderson has caught the lightning and put it on the page." - Dorothy Allison

Lean on Me Lynne Segal, 2023-11-14 Have you ever relied on the kindness of strangers? What brings people together to find hope and solidarity? What do we owe each other as citizens and comrades? Questions of care, intimacy, education, meaningful work, and social engagement lie at the core of our ability to understand the world and its possibilities for human flourishing. In Lean On Me feminist thinker Lynne Segal goes in search of hope in her own life and in the world around her. She finds it entwined in our intimate commitments to each other and our shared collective endeavours. Segal calls this shared dependence 'radical care'. In recounting from her own life the moments of motherhood, and of being on the front line of second-wave feminism, she draws upon lessons from more than half a century of engagement in left feminist politics, with its underlying commitment to building a more egalitarian and nurturing world. The personal and the political combine in this rallying cry to transform radically how we approach education, motherhood, and our everyday vulnerabilities of disability, ageing, and enhanced needs. Only by confronting head-on these different forms of interdependence and care can we change the way we think about the environment and learn to struggle - together -against impending climate catastrophe.

Here's to the Women Hilda E. Wenner, Elizabeth Freilicher, 1987 This anthology of traditional and contemporary songs is the first major collection to tie women's songs to their culture and history. It contains 100 songs with words and music, including some previously unpublished works like One Hour Mama and I Want to be a Real Cowboy Girl. The songs are organized into seven categories: love songs...; songs about politics...; songs related to work...; contemporary social issues...; songs about children and growing up...; songs about outstanding women...; and, finally, songs of women's personal struggles toward liberation and self-awareness... Most of these are folk songs in the truest sense and have a universal appeal in their significance for women... -- Page [4] of cover.

Soldiers of Reason Alex Abella, 2009-05-04 An “entertaining and fast-paced” account of the organization that defines the military-industrial complex—and continues to shape our world today (The New York Times Book Review). The RAND Corporation was born in the wake of World War II as a think tank to generate research and analysis for the United States military. It was a magnet for the best and the brightest—and also the most dangerous. RAND quickly became the creator of America’s anti-Soviet nuclear strategy, attracting such Cold War luminaries as Albert Wohlstetter, Bernard Brodie, and Herman Kahn, who arguably saved us from nuclear annihilation—and unquestionably created the military-industrial complex Eisenhower warned against. In the Kennedy era, RAND analysts and their theories of rational warfare steered our conduct in Vietnam. Those same theories drove our invasion of Iraq forty-five years later, championed by RAND affiliated actors such as Paul Wolfowitz, Donald Rumsfeld, and Zalmay Khalilzad. But RAND’s greatest contribution might be its least known: rational choice theory, a model explaining all human behavior through self-interest. Through it RAND sparked the Reagan-led transformation of our social and economic system, but also unleashed a resurgence of precisely the forces whose existence it denied: religion, patriotism, tribalism. With *Soldiers of Reason*, Alex Abella shares a “well-researched” history of America’s last half century that casts a new light on our problematic present (San Francisco Chronicle).

A People's History of the United States Howard Zinn, 2003-02-04 Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.
