Perth, Western Australia & the Outback Holly Smith,2010-09-14 Following is an excerpt from this extensive & highly detailed guide by a lifetime resident of Australia. The guide covers all the hotels, restaurants, sights to see and activities, from beachgoing to hiking, kayaking to exploring the Outback and the cultural attractions. Australia's largest state takes up nearly a third of the continent, filling some 2,525,250 square kilometers with a diverse mix of extreme and wonderful landscapes. The balmy seaside capital of Perth and its thriving southern suburb of Fremantle, where 1.4 of the state's 1.8 million residents live, are spread along Australia's southwest edge, just north of the Cape Naturaliste hook. South of here, lush river valleys and coastal parks stretch east for more than 1,620 km, while north of Perth, along the rough edge of the Indian Ocean, towns are far and few, with vast natural parklands coloring in the empty spaces between them. The country's westernmost town, Coral Bay, lies halfway up the coast, from where the land cuts back east and north toward Port Hedland and Broome. And still the state sprawls on, further northeast through the great, dry plains of the Kimberley, and south through endless expanses of gold and red desert. Within these great, barren stretches and along the coastlines, however, are hidden treasures that for the past century have fueled much of Australia's economy. The famous goldfields, where fortune-seekers thronged in the late 1800s, surround the southern Outback city of Kalgoorlie-Boulder. Mineral sands and deposits of bauxite, the source for the country's massive aluminum industry, are tucked along the state's southwest edge. Around the Kimberley, or the far northwest, natural gas is the abundant resource, tapped in enormous quantities from the Northwest Shelf. The Pilbara, along the north-central coast, has the world's most extensive iron-ore deposits. And this is all not to mention the world-famous pearls found offshore of Broome, which rack up some US\$200 million in yearly exports alone, or the Argyle Diamond mine of the same region, which produces more diamonds a year than anywhere else on the planet. In short, this is a massive state where riches and resources are only just being discovered. Million-hectare cattle stations stretch far and wide; broad national parks with million-year-old natural phenomena take their places in patchwork fashion around them; and thousands of kilometers of desolate, unexplored lands fill the gaps in between. You could wander here for a

year and not run into a soul if you were well-prepared, or you could skirt between desert, ocean, and river excursions. There's plenty of history and culture surrounding every settlement, too, providing for a well-rounded adventure experience that delves deep into a very unique blend of environments. With more than 63 national parks, bushwalking is the number-one activity, followed closely by four-wheel-drive adventures. The entire state is edged by the ocean, with magnificent reefs around the center, so diving and snorkeling, boating, windsurfing, and other watersports are all possibilities. Historic cultural excursions take place in the center and the far north Aboriginal lands, while modern encounters might have you wine-tasting through the southwest Margaret River vineyards. You can cycle around the coast, rock climb and abseil in the rugged mountains, explore caves in the central region, camel trek in the desert, kayak the southern rivers, dive and snorkel along remote reefs, and surf chic Perth swells or lonely Pacific bays. The possibilities are as endless as the land, for the state is only just being chiseled into a major adventure destination, and it's a place where you truly have the chance to trail-blaze, get lost, and discover something entirely new about the world - and your own character within it.

Biography of a Book: Henry Lawson's While the Billy Boils Paul Eggert,2013 *Biography of a Book* traces the life of an iconic Australian literary work in the lead-up to, and for a century after, its initial publication: Henry Lawson's 1896 collection *While the Billy Boils*. Paul Eggert follows Lawson's gradual development of a pared-back bush realism in the early 1890s, as he struggled to forge a career, writing short stories and sketches for the newspapers. Lawson's famous collection came out at a decisive moment for the development of a fully professional Australian literary publishing industry, then in its

infancy in Sydney. The volume's editing, design and production were collaborative events that changed the feel and nature of Lawson's writing. He had to give ground on his texts and their sequencing. The collection went on to be reprinted and repackaged countless times. Its production and reception histories act like a geological cross-section, revealing the contours of successive cultural formations in Australia. In unravelling the life of Lawson's classic work Eggert's book-historical approach challenges and clarifies established understandings of crucial moments in Australian literary history and of Lawson himself

The Man from Snowy River A. B. Paterson,2018-10-16 I have gathered these stories afar, In the wind and the rain, In the land where the cattle camps are, On the edge of the plain. On the overland routes of the west, When the watches were long, I have fashioned in earnest and jest These fragments of song. They are just the rude stories one hears In sadness and mirth, The records of wandering years, And scant is their worth Though their merits indeed are but slight, I shall not repine, If they give you one moment's delight, Old comrades of mine.

Sacred Places K. S. Inglis,Jan Brazier,2008 Memorials to Australian participation in wars abound in our landscape. From Melbourne's huge Shrine of Remembrance to the modest marble soldier, obelisk or memorial hall in suburb and country town, they mourn and honour Australians who have served and died for their country. Surprisingly, they have largely escaped scrutiny. Ken Inglis argues that the imagery, rituals and rhetoric generated around memorials constitute a civil religion, a cult of ANZAC. *Sacred Places* traces three elements which converged to create the cult: the special place of war in the European mind when nationalism was at its zenith; the colonial condition; and the death of so many young men in distant battle, which impelled the bereaved to make substitutes for the graves of which history had deprived them. The 'war

memorial movement' attracted conflict as well as commitment. Inglis looks at uneasy acceptance, even rejection, of the cult by socialists, pacifists, feminists and some Christians, and at its virtual exclusion of Aborigines. He suggests that between 1918 and 1939 the making, dedication and use of memorials enhanced the power of the right in Australian public life. Finally, he examines a paradox. Why, as Australia's wars recede in public and private memory, and as a once British Australia becomes multicultural, have the memorials and what they stand for become more cherished than ever? Sacred Places spans war, religion, politics, language and the visual arts. Ken Inglis has distilled new cultural understandings from a familiar landscape.
