**The Man in the High Castle** Philip K. Dick, 2011 Slavery is back. America, 1962. Having lost a war, America finds itself under Nazi Germany and Japan occupation. A few Jews still live under assumed names. The 'I Ching' is prevalent in San Francisco. Science fiction meets serious ideas in this take on a possible alternate history.

**Third Reich Victorious** Peter G Tsouras, 2016-11-30 War is a deadly game of chance where a single detail or decision can have far-reaching consequences. What if Hitler's generals had captured the cream of the British Expeditionary Force at Dunkirk? What if Turkey had sided with Germany and smashed through Russia's back door to claim the prized Caucasus oil fields? What if Rommel had driven the British back into the sea on D-Day and the Luftwaffe had defeated the RAF in the Battle of Britain. The Allies could have lost the Second World War in many ways, and ten noted historians show clearly how in this collection of fascinating, provocative scenarios, based on meticulous research. By turns gripping and chilling, *Third Reich Victorious* offers a fresh insight into the vagaries of war that can make all the difference between the victor and the vanquished.

**The Grasshopper Lies Heavy** Chandler Duke, 2015-07-24 1966 -- a century after the Confederate States of America won the Civil War -- the Cold War rages. The Soviets control the west coast. The British have The Colonies. The Confederacy is a powder keg in the middle. A terrorist attack in dystopian Atlanta lights the fuse. A Captain in the KKK grows disillusioned with his country. A widow who won't grieve grows disillusioned with herself. A slave working at a weapons factory reaches his limits. A British invasion of Black Panthers. A Russian spy hides in plain sight. A President cashes in his chips. *The Grasshopper Lies Heavy* tells the story of an America on the brink- of war, of identity, of starting over.

*Television Storyworlds as Virtual Space* M. King Adkins, 2018-09-15 *Television Storyworlds as Virtual Space* examines television as a series of virtual realities viewers enter and explore one episode at a time. Drawing on specific examples, from *Westworld* to *Green Acres*, *Twin Peaks* to *Fargo*, it illustrates how each of these worlds invites us in, encourages us to move about within it, and constantly pushes against its own boundaries so that its universe continually expands and develops. Specific chapters consider the importance of title sequences in helping us enter these storyworlds, how children's television educates us in using virtual reality, and the centrality of the post-apocalyptic series to the TV landscape. Ultimately, the book situates television as part of an artistic continuum, one that stretches back as far as cave paintings, but that also anticipates

the digitally-based virtual reality that lies just on the horizon.

**The Holocaust across Borders** Hilene S. Flanzbaum,2021-06-29 “Literature of the Holocaust” courses, whether taught in high schools or at universities, necessarily cover texts from a broad range of international contexts. Instructors are required, regardless of their own disciplinary training, to become comparatists and discuss all works with equal expertise. This books offers analyses of the ways in which representations of the Holocaust—whether in text, film, or material culture—are shaped by national context, providing a valuable pedagogical source in terms of both content and methodology. As memory yields to post-memory, nation of origin plays a larger role in each re-telling, and the chapters in this book explore this notion covering well-known texts like *Night* (Hungary), *Survival in Auschwitz* (Italy), *MAUS* (United States), *This Way to the Gas* (Poland), and *The Reader* (Germany), while also introducing lesser-known representations from countries like Argentina or Australia.

In the Presence of Mine Enemies Harry Turtledove,2013-08-29 Heinrich Gimpel is a respected officer with the Oberkommando Wehrmachts office in Berlin. His wife is a common hausfrau, raising his three precious daughters the same way he was raised - to be loyal, unquestioning citizens of the Third Reich, obedient to the will of the Führer. But Heinrich Gimpel has a secret. He is not, in fact, a member of the Master Race. He has been living a lie to protect his true identity as a Jew - and he's not alone. Throughout Berlin, Jews survive in secrecy...doing their jobs, caring for their families, maintaining the facade of perfect Aryans, and praying they will not be discovered. But a change is coming. And soon they will be forced to choose between safety and freedom...

**Maps of the United Kingdom** Rachel Dixon,Livi Gosling,2018-10-02 Take a tour of the United Kingdom as you’ve never seen it before in this fully illustrated set of county maps. Travel through England, Northern Ireland, Scotland and Wales and meet the incredible people born there, learn about its proud history, and discover ancient castles, modern feats of engineering and natural highlights while you revel in the nation’s curiosities, from the spectacular, to the quirky, to the downright strange! A fabulous introduction to Shakespeare’s Sceptre Isle, for readers young and old.

Miss Lonelyhearts Nathanael West,1959-10 THE STORY: As described by Atkinson in the NY Times: A scornful feature editor of a newspaper picks an ambitious young reporter to conduct the advice of the lovelorn column. Ambitious, opportunistic, 'Miss Lonelyhearts,' as the conductor of the co

**Mapping Beyond Measure** Simon Ferdinand,2019-12 Over the last century a growing number of visual artists have been captivated by the entwinements of beauty and power, truth and artifice, and the fantasy and functionality they perceive in geographical mapmaking. This field of “map art” has moved into increasing prominence in recent years yet critical writing on the topic has been largely confined to general overviews of the field. In *Mapping Beyond Measure* Simon Ferdinand analyzes diverse map-based works of painting, collage, film, walking performance, and digital drawing made in Britain,

Japan, the Netherlands, Ukraine, the United States, and the former Soviet Union, arguing that together they challenge the dominant modern view of the world as a measurable and malleable geometrical space. This challenge has strong political ramifications, for it is on the basis of modernity's geometrical worldview that states have legislated over social space; that capital has coordinated global markets and exploited distant environments; and that powerful cartographic institutions have claimed exclusive authority in mapmaking. *Mapping Beyond Measure* breaks fresh ground in undertaking a series of close readings of significant map artworks in sustained dialogue with spatial theorists, including Peter Sloterdijk, Zygmunt Bauman, and Michel de Certeau. In so doing Ferdinand reveals how map art calls into question some of the central myths and narratives of rupture through which modern space has traditionally been imagined and establishes map art's distinct value amid broader contemporary shifts toward digital mapping.

*A Kill in the Morning* Graeme Shimmin, 2014 I don't like killing, but I'm good at it. Murder isn't so bad from a distance, just shapes popping up in my scope. Close-up work though a garrotte around a target's neck or a knife in their heart it's not for me. Too much empathy, that's my problem. Usually. But not today. Today is different . . . The year is 1955 and something is very wrong with the world. It is fourteen years since Churchill died and the Second World War ended. In occupied Europe, Britain fights a cold war against a nuclear-armed Nazi Germany. In Berlin the Gestapo is on the trail of a beautiful young resistance fighter, and the head of the SS is plotting to dispose of an ailing Adolf Hitler and restart the war against Britain and her empire. Meanwhile, in a secret bunker hidden deep beneath the German countryside, scientists are experimenting with a force far beyond their understanding. Into this arena steps a nameless British assassin, on the run from a sinister cabal within his own government, and planning a private war against the Nazis. And now the fate of the world rests on a single kill in the morning . . .

*For Want of a Nail* Robert Sobel, 2002 *For Want of a Nail* is an alternate history classic. The outcome of one battle in the American Revolution diverges from reality, and sparks an unstoppable chain of events which affects the history of the whole North American continent. In reality, the British general John Burgoyne, heavily outnumbered by American troops, surrendered his army to General Horatio Gates at the Battle of Saratoga in 1777, a major turning-point of the Revolution. Robert Sobel takes a step sideways and presents the alternative version: reinforcements arrive at Saratoga, Gates' men flee, and Burgoyne is victorious. Rather than openly allying itself with the American rebels, France withdraws its support, as does

Spain, and the colonies surrender. Those former rebels who refuse to live in the Confederation of North America established by the British leave their homes and settle in what becomes the United States of Mexico. From then on the two continental nations find themselves constant rivals, locked in military, political and economic conflict. Sobel provides a detailed, intricately documented insight into two warring powers that develop in such dramatically different ways from their shared origins.

**Christmas at Highclere** The Countess of Carnarvon, 2019-09-05 Highclere Castle, known as 'the real Downton Abbey' bustles with activity at the best of times, but it is never more alive than at Christmas. Christmas at Highclere is a look behind the scenes at the routines and rituals that make the castle the most magical place to be throughout the festive season. Lady Carnarvon will guide you through Advent, Christmas preparations and Christmas Eve all the way through to the day itself, and beyond. Learn how the castle and grounds are transformed by decorations, including the raising of a twenty-foot tree in the saloon, the gathering of holly and mistletoe from the grounds. All the intricacies of the perfect traditional Christmas are here: from crackers and carol singers. The festive feeling is carried through to Highclere's Boxing Day traditions, the restorative middle days and the New Year's Eve celebrations. This book also tells the story of historic Christmases at Highclere - of distinguished guests warming themselves by the fire after a long journey home through the snow, unexpected knocks on the door, and, always, the joy of bringing family - and staff - together after a busy year. As well as telling the stories of Highclere Christmases past and present, Lady Carnarvon provides recipes, tips and inspiration from her kitchen so that readers can bring a quintessentially British festive spirit to their own home. Lady Carnarvon divulges the secret to perfectly flakey mince pies, the proper way to wrap presents so that you and your guests are guaranteed a Christmas to remember. Lavish, celebratory and utterly enchanting, Christmas at Highclere is celebration of one of the UK's most beloved historic houses and is the perfect gift for any Downton Abbey fan.

**Fatherland** Robert Harris, 1993 What would have happened if Hitler had won World War II?

*The Man in the High Castle and Philosophy* Bruce Krajewski, Joshua Heter, 2017-08-04 The Man in the High Castle is an Amazon TV show, based on the Philip K. Dick novel, about an "alternate present" (beginning in the 1960s) in which Germany and Japan won World War II, with the former Western US occupied by Japan, the former Eastern US occupied by Nazi Germany, and a small "neutral zone" between them. A theme of the story is that in this alternative world there is eager speculation, fueled by the illicit newsreel, *The Grasshopper Lies Heavy*, about how the world would have been different if America had won the war. In *The Man in the High Castle and Philosophy*, twenty-two professional thinkers look at philosophical issues raised by this ongoing enterprise in "alternative history." One question is whether it really made a profound difference that the Allies won the war, and exactly what differences in everyday life we may expect to arise from an apparent historical turning point. Could it be that some dramatic historical events have only superficial consequences, while

some unnoticed occurrences lead to catastrophic results? Another topic is the quest for truth in a world of government misinformation, and how dissenting organizations can make headway.

**Bieganski** Danusha Veronica Goska,2010 A powerful, provocative, ultimately profound work of scholarship regarding the stereotypification of Poles and its implications not only for Polish-Jewish relations in the Old World and the New, but also for anyone wishing to fathom the inter-workings of class and ethnicity in an America that has all too often fallen short of its promise.--James P. Leary, folklorist, University of Wisconsin.

*Wisdom's Way* Eddie Taylor,2022-12-22 We all want wisdom and we know the book of Proverbs overflows with it. The issue is we don't know how to harvest it from its pages. This 31-day devotional will teach you how.

Liminality in Fantastic Fiction Sandor Klapcsik,2012-01-09 This critical work diversifies Victor Turner's concept of liminality, a basic category of postmodernism, in which distinct categories and hierarchies are questioned and limits erode. Liminality involves an oscillation between cultural institutions, genre conventions, narrative perspectives, and thematic binary oppositions. Grounded on this notion, the text investigates the liminality in Agatha Christie's detective fiction, Neil Gaiman's fantasy stories, and Stanislaw Lem's and Philip K. Dick's science fiction. Through an examination of destabilized norms, this analysis demonstrates that liminality is a key element in the changing trends of fantastic texts.

**Fear Itself: The New Deal and the Origins of Our Time** Ira Katznelson,2013-03-01 "A powerful argument, swept along by Katznelson's robust prose and the imposing scholarship that lies behind it."—Kevin Boyle, New York Times Book Review A work that "deeply reconceptualizes the New Deal and raises countless provocative questions" (David Kennedy), *Fear Itself* changes the ground rules for our understanding of this pivotal era in American history. Ira Katznelson examines the New Deal through the lens of a pervasive, almost existential fear that gripped a world defined by the collapse of capitalism and the rise of competing dictatorships, as well as a fear created by the ruinous racial divisions in American society. Katznelson argues that American democracy was both saved and distorted by a Faustian collaboration that guarded racial segregation as it built a new national state to manage capitalism and assert global power. *Fear Itself* charts the creation of the modern American state and "how a belief in the common good gave way to a central government dominated by interest-group politics and obsessed with national security" (Louis Menand, *The New Yorker*).

A World Divided Cynthia A Sears,2012-12-07 Elizabeth's sixteenth birthday was fast approaching and for the daughter of the King and Queen of Elnara, kingdom of the fairies and elves, that meant that she would have to attempt the magical transformation that would change her from Lady Elizabeth into Princess Elizabeth, the Fairy Princess of Elnara and the most powerful fairy alive. As if that isn't enough, Elizabeth discovers she is expected to select her future husband, the future king of Elnara, from amongst the eligible young lords attending her birthday celebration. During the celebration, she meets Lord Edric, from remote Castle North, who has more on his mind than just meeting the enchanting Fairy Princess. Put off at first

by his casual, unorthodox personality, Elizabeth finds herself drawn to the charming, handsome Lord Edric. The pair is soon plunged into a mystery that will take them over the great mountains to the north and beyond, braving deadly dragons and more. Nevertheless, they must find the answers they seek no matter what the risk, or the Fairy race will be doomed to extinction.
