Barrington J. Bayley

The Man Who Folded Himself David Gerrold, 2011-02-02 This classic work of science fiction is widely considered to be the ultimate time-travel novel. When Daniel Eakins inherits a time machine, he soon realizes that he has enormous power to shape the course of history. He can foil terrorists, prevent assassinations, or just make some fast money at the racetrack. And if he doesn't like the results of the change, he can simply go back in time and talk himself out of making it! But Dan soon finds that there are limits to his powers and forces beyond his control.

The Man Who Folded Himself David Gerrold, 1991 When Dan Eakins' uncle dies, he leaves Dan a package containing a black leather belt with a buckle that reads TimeBelt, a gift, Dan thinks, that gives him an opportunity to become a time traveler

The Folded Man Matt Hill, 2013 A dystopian satire in the tradition of Swift and Orwell, but very much of the 21st century and a country with serious choices before it.

I Know This Much Is True Wally Lamb, 1998-06-03 With his stunning debut novel, *She's Come Undone*, Wally Lamb won the adulation of critics and readers with his mesmerizing tale of one woman's painful yet triumphant journey of self-discovery. Now, this brilliantly talented writer returns with *I Know This Much Is True*, a heartbreaking and poignant multigenerational saga of the reproductive bonds of destruction and the powerful force of forgiveness. A masterpiece that breathtakingly tells a story of alienation and connection, power and abuse, devastation and renewal--this novel is a contemporary retelling of an ancient Hindu myth. A proud king must confront his demons to achieve salvation. Change yourself, the myth instructs, and you will inhabit a renovated world. When you're the same brother of a schizophrenic identical twin, the tricky thing about saving yourself is the blood it leaves on your hands--the little inconvenience of the look-alike corpse at your feet. And if you're into both survival of the fittest and being your brother's keeper--if you've promised your dying mother--then say so long to sleep and hello to the middle of the night. Grab a book or a beer. Get used to Letterman's gap-toothed smile of the absurd, or the view of the bedroom ceiling, or the influence of random selection. Take it from a godless insomniac. Take it from the uncrazy twin--the guy who beat the biochemical rap. Dominick Birdsey's entire life has been compromised and constricted by anger and fear, by the paranoid schizophrenic twin brother he both deeply loves and resents, and by the past they shared with their adoptive father, Ray, a spit-and-polish ex-Navy man (the five-foot-six-inch

sleeping giant who snoozed upstairs weekdays in the spare room and built submarines at night), and their long-suffering mother, Concettina, a timid woman with a harelip that made her shy and self-conscious: She holds a loose fist to her face to cover her defective mouth--her perpetual apology to the world for a birth defect over which she'd had no control. Born in the waning moments of 1949 and the opening minutes of 1950, the twins are physical mirror images who grow into separate yet connected entities: the seemingly strong and protective yet fearful Dominick, his mother's watchful monkey; and the seemingly weak and sweet yet noble Thomas, his mother's gentle bunny. From childhood, Dominick fights for both separation and wholeness--and ultimately self-protection--in a house of fear dominated by Ray, a bully who abuses his power over these stepsons whose biological father is a mystery. I was still afraid of his anger but saw how he punished weakness--pounced on it. Out of self-preservation I hid my fear, Dominick confesses. As for Thomas, he just never knew how to play defense. He just didn't get it. But Dominick's talent for survival comes at an enormous cost, including the breakup of his marriage to the warm, beautiful Dessa, whom he still loves. And it will be put to the ultimate test when Thomas, a Bible-spouting zealot, commits an unthinkable act that threatens the tenuous balance of both his and Dominick's lives. To save himself, Dominick must confront not only the pain of his past but the dark secrets he has locked deep within himself, and the sins of his ancestors--a quest that will lead him beyond the confines of his blue-collar New England town to the volcanic foothills of Sicily's Mount Etna, where his ambitious and vengefully proud grandfather and a namesake Domenico Tempesta, the *sostegno del famiglia*, was born. Each of the stories Ma told us about Papa reinforced the message that he was the boss, that he ruled the roost, that what he said went. Searching for answers, Dominick turns to the whispers of the dead, to the pages of his grandfather's handwritten memoir, *The History of Domenico Onofrio Tempesta, a Great Man from Humble Beginnings*. Rendered with touches of magic realism, Domenico's fablelike tale--in which monkeys enchant and religious statues weep--becomes the old man's confession--an unwitting legacy of contrition that reveals the truth's of Domenico's life, Dominick learns that power, wrongly used, defeats the oppressor as well as the oppressed, and now, picking through the humble shards of his deconstructed life, he will search for the courage and love to forgive, to expiate his and his ancestors' transgressions, and finally to rebuild himself beyond the haunted shadow of his twin. Set against the vivid panoply of twentieth-century America and filled with richly drawn, memorable characters, this deeply moving and thoroughly satisfying novel brings to light humanity's deepest needs and fears, our aloneness, our desire for love and acceptance, our struggle to survive at all costs. Joyous, mystical, and exquisitely written, *I Know This Much Is True* is an extraordinary reading experience that will leave no reader untouched.

We Who Are About To... Joanna Russ,2005-03-15 One woman's quest to die with dignity may doom them all. A multi-dimensional explosion hurls the starship's few passengers across the galaxies and onto an uncharted barren tundra. With no

technical skills and scant supplies, the survivors face a bleak end in an alien world. One brave woman holds the daring answer, but it is the most desperate one possible. Elegant and electric, *We Who Are About To...* brings us face to face with our basic assumptions about our will to live. While most of the stranded tourists decide to defy the odds and insist on colonizing the planet and creating life, the narrator decides to practice the art of dying. When she is threatened with compulsory reproduction, she defends herself with lethal force. Originally published in 1977, this is one of the most subtle, complex, and exciting science fiction novels ever written about the attempt to survive a hostile alien environment. It is characteristic of Russ's genius that such a readable novel is also one of her most intellectually intricate.

The Accidental Time Machine Joe Haldeman, 2012-12-21 Grad-school dropout Matt Fuller is toiling as a lowly research assistant at MIT when, while measuring quantum relationships between gravity and light, his calibrator disappears - and reappears, one second later. In fact, every time Matt hits the reset button, the machine goes missing twelve times longer. After tinkering with the calibrator, Matt is convinced that what he has in his possession is a time machine. And by simply attaching a metal box to it, he learns to send things through time - including a pet-store turtle, which comes back no worse for wear. With a dead-end job and a girlfriend who left him for another man, Matt has nothing to lose by taking a time machine trip for himself. So he borrows an old car, stocks it with food and water, and ends up in the near future - under arrest for the murder of the car's original owner, who dropped dead after seeing Matt disappear before his eyes. The only way to beat the rap is to continue time travelling until he finds a place in time safe enough to stop for good. But such a place

may not exist...

The Fall of Chronopolis Barrington J. Bayley, 2011-09-29 The mighty ships of the Third Time Fleet relentlessly patrolled the Chronotic Empire's thousand-year frontier, blotting out an error of history here or there before swooping back to challenge other time-travelling civilisations far into the future. Captain Mond Aton had been proud to serve in such a fleet. But now, falsely convicted of cowardice and dereliction of duty, he had been given the cruellest of sentences: to be sent unprotected into time as a lone messenger between the cruising timeships. After such an inconceivable experience in the endless voids there was only one option left to him. To be allowed to die.

Hella David Gerrold, 2020-06-16 A master of science fiction introduces a world where everything is large and the problems of survival even larger in this exciting new novel. Hella is a planet where everything is oversized—especially the ambitions of the colonists. The trees are mile-high, the dinosaur herds are huge, and the weather is extreme—so extreme, the colonists have to migrate twice a year to escape the blistering heat of summer and the atmosphere-freezing cold of winter. Kyle is a neuro-atypical young man, emotionally challenged, but with an implant that gives him real-time access to the colony's computer network, making him a very misunderstood savant. When an overburdened starship arrives, he becomes the link between the established colonists and the refugees from a ravaged Earth. The Hella colony is barely self-sufficient. Can it stand the strain of a thousand new arrivals, bringing with them the same kinds of problems they thought they were

fleeing? Despite the dangers to himself and his family, Kyle is in the middle of everything—in possession of the most dangerous secret of all. Will he be caught in a growing political conspiracy? Will his reawakened emotions overwhelm his rationality? Or will he be able to use his unique ability to prevent disaster?

The notes keep coming, and Miranda slowly realises that whoever is leaving them knows things no one should know. Each message brings her closer to believing that only she can prevent a tragic death. Until the final note makes her think she's too late.

Man Up! Ross Mathews, 2013-05-07 In this hilarious and inspirational memoir, Ross Mathews -- best known as Ross the Intern from *The Tonight Show with Jay Leno* -- chronicles his life growing up as an atypical kid in a small Northwestern farm town to living as an atypical adult in Los Angeles, to eventually being his loud, proud, apologetically genuine self on national television. As a young kid growing up in a farm town, Ross Mathews might as well have wished for a pet unicorn or a calorie-free cookie tree to grow in his front yard. Either of those far-fetched fantasies would have been more likely to come true than his real dream: working in television in Hollywood, California. Seriously, that stuff just doesn't happen to people like Ross. But guess what? It totally did. Now, with his first book, Ross takes us inside his journey as a super-fan, revealing the most embarrassing and hilarious moments of his small-town life and big-city adventures. From learning to swear like a hardened trucker to that time in high school when had to face down the most frightening opponent of all (his girlfriend's lady bits),

Ross holds nothing back. Oh, then there's his surprisingly shady past involving the cutest pair of plus-sized women's pajama bottoms, deliciously dangerous pot butter, and embezzled sandwiches. And, of course, how he's managed to turn an obsession with pop-culture into one-on-one interactions with celebrities like Gwyneth Paltrow, Tiffani-Amber Theissen, Madonna, Michelle Kwan, and countless more without ever having a single restraining order issued against him. Infused with Ross's trademark humor, unique voice, and total honesty, *Man Up!* is a mission statement for anyone who doesn't fit the mold. His hasn't been the most traditional way to build a career in Hollywood, but Ross has somehow managed to make his mark without ever compromising who he is. He is as serious about this as he is about Golden Girls trivia: You don't need to change who you are to achieve your dreams (although there's nothing wrong with a makeover every now and then). You just need to *Man Up!*

Man in the Empty Suit Sean Ferrell, 2013-02-05 Say you're a time traveler and you've already toured the entirety of human history. After a while, the outside world might lose a little of its luster. That's why this time traveler celebrates his birthday partying with himself. Every year, he travels to an abandoned hotel in New York City in 2071, the hundredth anniversary of his birth, and drinks twelve-year-old Scotch (lots of it) with all the other versions of who he has been and who he will be. Sure, the party is the same year after year, but at least it's one party where he can really, well, be himself. The year he turns 39, though, the party takes a stressful turn for the worse. Before he even makes it into the grand ballroom for a drink he encounters the body of his forty-year-old self, dead of a gunshot wound to the head. As the older versions of himself at the party point out, the onus is on him to figure out what went wrong--he has one year to stop himself from being murdered, or they're all goners. As he follows clues that he may or may not have willingly left for himself, he discovers rampant paranoia and suspicion among his younger selves, and a frightening conspiracy among the Elders. Most complicated of all is a haunting woman possibly named Lily who turns up at the party this year, the first person besides himself he's ever seen at the party. For the first time, he has something to lose. Here's hoping he can save some version of his own life
