Richard B. Armstrong, Mary Willems Armstrong

Atomic Bomb Cinema Jerome F. Shapiro, 2013-05-13 Unfathomably merciless and powerful, the atomic bomb has left its indelible mark on film. In *Atomic Bomb Cinema*, Jerome F. Shapiro unearths the unspoken legacy of the bombing of Nagasaki and Hiroshima and its complex aftermath in American and Japanese cinema. According to Shapiro, a Bomb film is never simply an exercise in ideology or paranoia. He examines hundreds of films like *Godzilla*, *Dr. Strangelove*, and *The Terminator* as a body of work held together by ancient narrative and symbolic traditions that extol survival under devastating conditions. Drawing extensively on both English-language and Japanese-language sources, Shapiro argues that such films not only grapple with our nuclear anxieties, but also offer signs of hope that humanity is capable of repairing a damaged and divided world. www.atomicbombcinema.com

From the Abominable Snowman to *Zorro*, this encyclopedia provides film scholars and fans with an easy-to-use reference for researching film themes or tracking down obscure movies on subjects such as suspended animation, viral epidemics, robots, submarines, reincarnation, ventriloquists and the Olympics (Excellent said *Cult Movies*). The volume also contains an extensive list of film characters and series, including B-movie detectives, Western heroes, made-for-television film series, and foreign film heroes and villains.

The Humanistic View of Man Jaideep Singh, 2023-11-29 The Humanistic View of Man is a scientific study designed to achieve a deeper comprehension of human phenomena. The views of man held by the following five leading, contemporary, humanistic psychologists: Hubert Bonner, James Bugental, Erich Fromm, Abraham Maslow, and Rollo May have been analyzed and synthesized. Comments on the synthesis have then been obtained from Jacob Bronowski, a leading natural scientist. His essay, "A Twentieth Century Image of Man" provides further insight into his viewpoint. The study concludes with a discussion that highlights the distinctive uniqueness of the view of man held by the selected humanistic

psychologists and points to the deeper inner powers that we must use to guide and energize us in our pursuit of a richer manifestation of our unlimited human wealth.

Your Brain Is a Time Machine: The Neuroscience and Physics of Time Dean Buonomano,2017-04-04 Beautifully written, eloquently reasoned...Mr. Buonomano takes us off and running on an edifying scientific journey. —Carol Tavis, Wall Street Journal In Your Brain Is a Time Machine, leading neuroscientist Dean Buonomano embarks on an immensely engaging exploration of how time works inside the brain (Barbara Kiser, Nature). The human brain, he argues, is a complex system that not only tells time, but creates it; it constructs our sense of chronological movement and enables mental time travel—simulations of future and past events. These functions are essential not only to our daily lives but to the evolution of the human race: without the ability to anticipate the future, mankind would never have crafted tools or invented agriculture. This virtuosic work of popular science will lead you to a revelation as strange as it is true: your brain is, at its core, a time machine.

Atomic Narratives and American Youth Michael Scheibach,2015-09-17 Following the atomic bombings of Hiroshima and Nagasaki, numerous atomic narratives--books, newspapers, magazines, textbooks, movies, and television programs--addressed the implications of the bomb. Post-World War II youth encountered atomic narratives in their daily lives at school, at home and in their communities, and were profoundly affected by what they read and saw. This multidisciplinary study examines the exposure of American youth to atomic narratives during the ten years following World War II. In addition, it examines the broader social narrative of the atom, which included educational, social, cultural, and political activities that surrounded and involved American youth. The activities ranged from school and community programs to movies and television shows to government-sponsored traveling exhibits on atomic energy. The book also presents numerous examples of

writings by postwar adolescents, who clearly expressed their conflicted feelings about growing up in such a tumultuous time, and shows how many of the issues commonly associated with the sixties generation, such as peace, fellowship, free expression, and environmental concern, can be traced to this earlier generation.

Men's Brains Quinn Spencer, 2018-05-26 How do men think? It is no secret that a male's brain is different from a female's brain. And although every person is different anyway, there are some generalizations that are true for the most part. The question is: Why would you need to know about this anyway? Well, first of all, if you know about these things, you can save yourself a lot of frustration. You may be wondering why your partner or someone from the other gender acts the way they do, but if you know about this, you'll understand why. Second, isn't it just interesting to see how nature has shaped the two sexes in different ways, to be complementary to each other? The differences are sometimes humorous and sometimes, they just make sense. So let's dive into this simple but revealing study of the differences, with the focus on the male's brain. You will read, among others: The human brain size and how it relates to the sexes. How men and women age differently. Why men are kind of like waffles. Laugh at the comparison. What men should do when a woman is crying, and what definitely not to do. How to improve the productivity of your brain. In which ways the brains are physically built in both sexes, and how this impacts the way we think. If you want to understand the man's brain better, and compare it to how women think, then this is the time to learn more about it. You can use this knowledge when you're married, dating, or simply interacting with the other 50% of the world, which is the other gender. When you ask me, this is kind of important... only kind of, right? Don't hesitate. Add this book to your cart now.

The Isotope Man David McIlwain, 1957 American scientist Dr. Stephen Raynor is pulled from the Thames barely alive with two bullets in his back. Reporter Mike Delaney visits the company Raynor worked for and finds they are insisting he's at work that very minute supervising work on the testing of a new reactor. Delaney is suspicious and begins an investigation with the help of his photographer girl friend.

Doctor Solar, Man of the Atom Archives Volume 4 Paul S. Newman,2008-01-15 After his debut in October of 1962, Doctor Solar swiftly rose to join Magnus, Robot Fighter as one of Gold Key's most popular original heroes. Stunning painted covers sucked in even the most casual comics reader, and the source of Solar's astounding powers -- nuclear radiation -- addressed one of the biggest fears of the day. While the character has been reinvented in the decades since, his adventures in this archive of Gold Key and Wilson comics completes the body of work that formed his foundation. This collection restores and reprints issues #23 through 31 of the original Doctor Solar comic book series -- the revolutionary science-fiction adventure that gave birth to one of comics' most distinctive and beloved super heroes -- for the first time in over 40 years. His guest appearance in The Occult Files of Dr. Spektor #14 is also included, making this the biggest Doctor Solar volume of them all!

His Brother Looked Human Noel Stevens,2010-05-28 Gulliver submerged his colossal spaceship in Hudson Bay. He flew south in a small, fast disk. Aldous was canoeing in a lake, north of Thunder Bay, when Gulliver picked up on his psychic mind, from hundreds of miles, and homed in on him. Aldous almost lost consciousness when he saw the Alien monster. Gulliver, the most convivial and good humoured of Aliens saw his appearance was unprepossessing, not to say petrifying, and that he would have to assume human form - he decided to be Aldous' "brother". The human world rocked Gulliver - he sent back one urgent report after another to the Confederation. He visited Aldous' three families, in England, Sweden and Spain. Some of Aldous' children were psychic too... Aldous was wealthy - he had three "wives".
