Butlers & Household Managers Steven M. Ferry,2002 Butlers & Household Managers, 21st Century Professionals is designed to assist those seeking a new and rewarding career as a butler or the American equivalent, the household manager, as well as those seeking to employ them, whether in stately home, hotel, corporate setting or elsewhere. In the increasingly competitive and mechanistic world in which we live, service is often the only differentiator between one provider and another. Having a competent butler is one way to develop that much-needed edge. Butlers & Household Managers, 21st Century Professionals is also useful for any man or woman who would like to use some of the butler's know-how to enhance his or her own life style. The many checklists in Butlers & Household Managers, 21st Century Professionals cover every kind of situation a butler deals with and are designed, in conjunction with the chapter they supplement, to walk a person successfully through those situations and so increase his or her confidence. No amount of copying actions mechanically will make a butler, however. It is necessary to understand the point of view of the butler to then handle any given situation as a butler would. That is why chapters are provided to explain the butler rationale.

Playing to Win A.G. Lafley, Roger Martin, 2013-02-05 A Wall Street Journal and Washington Post Bestseller A playbook for creating your company's winning strategy. Strategy is not complex. But it is hard. It's hard because it forces people and organizations to make specific choices about their future—something that doesn't happen in most companies. Now two of today's best-known business thinkers get to the heart of strategy—explaining what it's for, how to think about it, why you need it, and how to get it done. And they use one of the most successful corporate turnarounds of the past century, which they achieved together, to prove their point. A.G. Lafley, former CEO of Procter & Gamble, in close partnership with strategic adviser Roger Martin, doubled P&G's sales, quadrupled its profits, and increased its market value by more than \$100 billion in just ten years. Now, drawn from their years of experience at P&G and the Rotman School of Management, where Martin is dean, this book shows how leaders in organizations of all sizes can guide everyday actions with larger strategic goals built around the clear, essential elements that determine business success—where to play and how to win. The result is a playbook for winning. Lafley and Martin have created a set of five essential strategic choices that, when addressed in an integrated way, will move you ahead of your competitors. They are: • What is our winning aspiration? • Where will we play? • How will we win? • What capabilities must we have in place to win? • What management systems are required to support our choices? The stories of how P&G repeatedly won by applying this method to iconic brands such as Olay, Bounty, Gillette, Swiffer, and Febreze clearly illustrate how deciding on a strategic approach—and then making the right choices to support it—makes the difference between just playing the game and actually winning.
