## Peter Ferdinand Drucker

**Managing for Results** Peter F. Drucker, 2016-06-06 *Managing for Results: Economic Tasks and Risk-taking Decisions* is a guidebook for those in management position. The book is comprised of 14 chapters that are organized into three parts. The first part talks about understanding the business; this part covers business realities, revenues, resources, and prospects. Part II discusses the opportunities and needs in economic dimensions of a business. Part III covers the key decision, business strategies, and building up economic performance. The book will be useful to managers, entrepreneurs, and individuals who are exposed to a decision-making situation that has an economic implication.

**Managing for Results, 2005** John M. Kamensky, Albert Morales, 2005 The 'managing for results' movement that began in the early 1990s has now reached adolescence and is creating new challenges for government managers. After spending years creating planning and performance-measuring systems, managers and policy makers now need to focus on how to use performance information to make data-driven decisions. *Managing Results for 2005* describes--through a series of case studies--the progress being made in federal, state, and local governments in managing for results. Part I increases our understanding about the potential use of performance information in government. It starts with a chapter on how government leaders can overcome obstacles to using performance information. Another chapter presents a comprehensive framework for tying performance to the budget process. The book provides specific examples of how performance information has been used to dramatically improve program outcomes. Part II presents case studies on the use of performance information to improve results in a range of federal agencies, in Texas state government, and in the City of Baltimore. As pioneering efforts, these examples do not all present success stories; nevertheless, the lessons learned will be instructive to public managers as the 'managing for results' movement advances toward maturity.

**Managing for Results** Peter Ferdinand Drucker, 1964

**Managing For Results** Peter Drucker, 2012-09-10 Written by one of the world's leading management gurus widely known classic work identifies the key success factors in managing performance

*Managing For Results* Peter Drucker, 2012-09-10 *Managing for Results* demonstrates Drucker's particular genius for breaking through conventional outlooks and opening up new perspectives for ultimate profits in the world of business. What must be done to make the organization perform, prosper and grow - what the executive, the maker of decisions, must do to

move the enterprise forward - is the subject of this book. It will be of great value to students of management as well as executives in industry and commerce, and it deals skilfully and perceptively with economic tasks which every business has to tackle in order to achieve sound performance and economic results.

Managing for Results Gillian Watson, Kevin Gallagher, 2005 The text is designed to cater for all students studying the CIPD Managing for Results module as part of the recently introduced Leadership and Management Standards, as well as for students taking an introductory management module on a management, business or HR degree programme.--BOOK JACKET.

*Managing for Results* Pergamon Flexible Learning,2005 Management Extra brings all the best management thinking together in one package. The series fuses key ideas with applied activities to help managers examine and improve how they work in practice. Management Extra is an exciting, new approach to management development. The books provide the basis for self-paced learning at level 4/5. The flexible learning structure allows busy participants to study at their own convenience, minimising time away from the job. The programme allows trainers to quickly plan and deliver high quality, business-led courses. Trainers can select materials to meet the needs of their delegates, clients, and budget. Each book is divided into themes of ideal length for delivering in a training session. Each theme has a range of activities for delegates to complete, putting the training into context and relating it to their own situation and business. The books' lively style will stimulate further interest in the subjects covered. Guides for further reading and valuable web references provide a lead-in to further research. Management Extra is based on the NVQ framework to ease the creation of Diploma, Post Graduate Diploma or NVQ programmes for managers. It is accredited with all leading awarding bodies. Authoritative but accessible and lively material New, exciting and flexible approach to management development

**Supervision** John W. Newstrom,Lester R. Bittel,2002 This book, first published under the title of What Every Supervisor Should Know, provides the very latest information and the most current points of view from authoritative sources.

**Managing to Change the World** Alison Green,Jerry Hauser,2012-04-03 Why getting results should be every nonprofit manager's first priority A nonprofit manager's fundamental job is to get results, sustained over time, rather than boost morale or promote staff development. This is a shift from the tenor of many management books, particularly in the nonprofit world. Managing to Change the World is designed to teach new and experienced nonprofit managers the fundamental skills of effective management, including: managing specific tasks and broader responsibilities; setting clear goals and holding people accountable to them; creating a results-oriented culture; hiring, developing, and retaining a staff of superstars. Offers nonprofit managers a clear guide to the most effective management skills Shows how to address performance problems, dismiss staffers who fall short, and the right way to exercising authority Gives guidance for managing time wisely and offers suggestions for staying in sync with your boss and managing up This important resource contains 41 resources and downloadable tools that can be implemented immediately.

**Managing for Results** Elearn,2009 New exciting and flexible approach to management development.

Managing for Development Results Roberto García López,Mauricio García Moreno,2010-01-01 Results-based management (RBM) is a public management strategy that involves decision making based on reliable information regarding the effects of governmental actions on society. It has been adopted in various developed countries as a way of improving

efficiency and effectiveness in public policy. In Latin American and Caribbean (LAC) countries, governments and public managers show increasing interest in this management strategy. Given the relative novelty of RBM in the region, however, there is scant literature on the subject. This book is intended to fill this gap in two ways. First, it seeks to describe some of the basic RBM concepts and adapt them according to regional characteristics. Second, it presents an assessment, based on studies carried out in 25 countries, of the challenges facing LAC countries and their capacity to implement results-based public management.
