Women in Italian Renaissance Art Paola Tinagli,1997-06-15 This is the first book which gives a general overview of women as subject-matter in Italian Renaissance painting. It presents a view of the interaction between artist and patron, and also of the function of these paintings in Italian society of the fifteenth and sixteenth centuries. Using letters, poems, and treatises, it examines through the eyes of the contemporary viewer the way women were represented in paintings.

Picturing Women in Late Medieval and Renaissance Art Christa Grössinger,1997 This extensively illustrated book discusses the representation of women in the art of the late Middle Ages in Northern Europe. Drawing on a wide range of different media, but making particular use of the rich plethora of woodcuts, the author charts how the images of women changed during the period and proposes two basic categories - the Virgin and Eve, good and evil. Within these, however, we discover attitudes to sinful, foolish, married and unmarried women and the style and use of these images exposes the full extent of the misogyny entrenched in medieval society.

Luxury Arts of the Renaissance Marina Belozerskaya,2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although

discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

European Art and the Wider World 1350-1550 Kathleen Christian, Leah Clark, 2018-07-01 Focuses on issues of assimilation, translation and misunderstanding as art objects moved between cultures, either literally or imaginatively, and considers how visual culture expresses the increasing contact between Europe and the rest of the world in this era.

A World Lit Only by Fire William Manchester, 2009-09-26 A lively and engaging history of the Middle Ages (Dallas Morning News) from the acclaimed historian William Manchester, author of *The Last Lion*. From tales of chivalrous knights to the barbarity of trial by ordeal, no era has been a greater source of awe, horror, and wonder than the Middle Ages. In handsomely crafted prose, and with the grace and authority of his extraordinary gift for narrative history, William Manchester leads us from a civilization tottering on the brink of collapse to the grandeur of its rebirth: the dense explosion of energy that spawned some of history's greatest poets, philosophers, painters, adventurers, and reformers, as well as some of its most spectacular villains. Manchester provides easy access to a fascinating age when our modern mentality was just being born. --Chicago Tribune

The Renaissance of emotion Richard Meek, Erin Sullivan, 2015-08-01 This collection of essays offers a major reassessment of the meaning and significance of emotional experience in the work of Shakespeare and his contemporaries. Recent scholarship on early modern emotion has relied on a medical-historical approach, resulting in a picture of emotional experience that stresses the dominance of the material, humoral body. The Renaissance of emotion seeks to redress this balance by examining the ways in which early modern texts explore emotional experience from perspectives other than humoral medicine. The chapters in the book seek to demonstrate how open, creative and agency-ridden the experience and interpretation of emotion could be. Taken individually, the chapters offer much-needed investigations into previously overlooked areas of emotional experience and signification; taken together, they offer a thorough re-evaluation of the cultural priorities and phenomenological principles that shaped the understanding of the emotive self in the early modern period. The Renaissance of emotion will be of particular interest to students and scholars of Shakespeare and Renaissance literature, the history of emotion, theatre and cultural history, and the history of ideas.

Pre-Raphaelite Paintings from Manchester City Art Galleries Julian Treuherz,1993 The Pre-Raphaelite collection at Manchester City Art Gallery, on which this book is based, consists of over 100 paintings and watercolours and includes such world-famous pictures as Ford Madox Brown's Work, Holman Hunt's The Hireling Shepherd and Shadow of Death, Millais' Autumn Leaves, and Rossetti's Astarte Syriaca. In addition to such well-known masterpieces, the Gallery has over the years acquired a host of other works so that the collection has become one of the foremost of its kind in the world. It provides a fairly complete survey of the movement and includes important groups of work by all the followers and associates. The text of this book stands on its own as a narrative describing the pictures against the development of Pre-Raphaelitism, so that the volume offers both a general history of the movement and a guide to the collection. - Back cover.

Derek Jarman: Protest! Seán Kissane,Karim Rehmani-White,2020-06 Derek Jarman was a very English rebel, a maverick and radical artist whose unique and distinctive voice was honed protesting against the strictures of life in post-war Britain. In an innovative practice that roamed freely across all varieties of media, Jarman refused to live and die quietly. He defined bohemian London life in the 1960s, exploded into queer punk in the 70s and with unbounded creative rage, ingenuity and sheer personal charm, he triumphed over an atmosphere of fear and ignorance in the age of AIDS to produce timeless, eloquent works of art which resonate still more strongly today. This major new publication offers a definitive overview of Derek Jarman's life and work. It covers all aspects of his oeuvre, from his features to his Super-8 films, his painting, design for theatre, poetry, gardening, memoir and political activism. *Protest!* contains excerpts from Jarman's own writings, short interviews with friends and collaborators and newly commissioned texts from a wide range of contributors including John Maybury, Peter Tatchell, Philip Hoare, Sir Norman Rosenthal and Olivia Laing. Generously illustrated with previously unseen images drawn from Jarman's personal archive and unseen works from all stages of his career, this book brings the reader fresh and surprising insights into the world of this much-loved artist.
