**Noris Ledesma, Carl W. Campbell**

**The House on Mango Street** Sandra Cisneros, 2013-04-30 NATIONAL BESTSELLER • A coming-of-age classic about a young girl growing up in Chicago • Acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. “Cisneros draws on her rich [Latino] heritage...and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one.” —The New York Times Book Review *The House on Mango Street* is one of the most cherished novels of the last fifty years. Readers from all walks of life have fallen for the voice of Esperanza Cordero, growing up in Chicago and inventing for herself who and what she will become. “In English my name means hope,” she says. “In Spanish it means too many letters. It means sadness, it means waiting. Told in a series of vignettes—sometimes heartbreaking, sometimes joyous—Cisneros’s masterpiece is a classic story of childhood and self-discovery and one of the greatest neighborhood novels of all time. Like Sinclair Lewis’s *Main Street* or Toni Morrison’s *Sula*, it makes a world through people and their voices, and it does so in language that is poetic and direct. This gorgeous coming-of-age novel is a celebration of the power of telling one’s story and of being proud of where you’re from.

**The Mango Tree** Annabelle Tometich, 2024-04-02 Eater's Best Food Books to Read This Spring This “witty, humorous, and heartfelt” (Cinelle Barnes) memoir navigates the tangled branches of Annabelle Tometich’s life, from growing up in Florida as the child of a Filipino mother and a deceased white father to her adult life as a med-school-reject-turned-food-critic. When journalist Annabelle Tometich picks up the phone one June morning, she isn’t expecting a collect call from an inmate at the Lee County Jail. And when she accepts, she certainly isn’t prepared to hear her mother’s voice on the other end of the line. However, explaining the situation to her younger siblings afterwards was easy; all she had to say was, “Mom shot at some guy. He was messing with her mangoes.” They immediately understood. Answering the questions of the breaking-news reporter—at the same newspaper where Annabelle worked as a restaurant critic—proved more difficult. Annabelle decided to go with a variation of the truth: it was complicated. So begins *The Mango Tree*, a poignant and deceptively entertaining memoir of growing up as a mixed-race Filipina “nobody” in suburban Florida as Annabelle traces the roots of her upbringing—all the while reckoning with her erratic father’s untimely death in a Fort Myers motel, her fiery mother’s bitter yearning for the country she left behind, and her own journey in the pursuit of belonging. With clear-eyed compassion and piercing honesty, *The Mango Tree* is a family saga that navigates the tangled branches of Annabelle’s life, from her childhood days in an overflowing house flooded by balikbayan boxes, vegetation, and juicy mangoes, to her winding path from medical school hopeful to restaurant critic. It is a love letter to her fellow Filipino Americans, her lost younger self, and the beloved fruit tree at the heart of her family. But above all, it is an ode to Annabelle’s hot-blooded, whip-smart mother Josefina, a woman who made a life and a home of her own, and without whom Annabelle would not have herself.

**The Mango** Richard E. Litz, 2009-01-01 The Mango is one of the oldest cultivated fruit crops, having been grown in India for at least 4000 years. Mango is the most important fruit crop of Asia and its annual production is exceeded worldwide only by Musa, citrus, grapes and apples. The last decade has seen a rapid growth of mango production, mainly due to expansion into new growing regions but also to the adoption of modern field practices and cultivars. A wide range of fresh, mango cultivars are now consumed worldwide and are available year round. *The Mango: Botany, Production and Uses*, published in 1997, represented the first comprehensive examination of all aspects of modern mango production and research. Developing upon the successful first edition, this book incorporates a discussion of significant advances in mango research that have contributed to improved production and will be highly relevant for researchers and growers alike.

Fermented Beverage Production Andrew G.H. Lea, John R. Piggott, 2013-04-17 The production of fermented beverages is nowadays a technically sophisticated business. Many people outside it, however, even if they are familiar with the food industry overall, fail to appreciate just what advances have been made in the last twenty or thirty years. In part this is due to the blandishments of advertising, which tend to emphasise the traditional image for mass market promotion at the expense of the technological skills, and in part due to a lack of readily available information on the production processes themselves. This book attempts to remedy the balance and to show that, far from being a quaint and rustic activity, the production of fermented beverages is a skilled and sophisticated blend of tradition and technology. We have chosen to organise the book principally by individual beverages or groups of beverages, with the addition of a number of general chapters to cover items of common concern such as fermentation biochemistry, adulteration, filtration and flavour aspects. While we have tried to eliminate excessive duplication of information, we make no apologies for the fact that certain important aspects (e. g. the role of sulphur dioxide in wine and cidermaking) are discussed on more than one occasion. This only serves to underline their importance and to ensure that each chapter is moderately self-contained.
